Present Land Use/Zoning/General Plan Designation:

Vacant/Heavy Agriculture with Renewable Energy Zone Overlay (A-3-RE)/Agriculture

Project Description: *(please use a separate page if necessary)*

The proposed project consists of two primary components: 1) 75-megawatt (MW) Battery Energy Storage System (BESS); and 2) gen-tie line that would connect to the Imperial Irrigation District's (IID) existing 92-kilovolt (kV) "P" Line. The project applicant is requesting the issuance of one Conditional Use Permit, a General Plan Amendment, and Conditional Zone Change to allow for the construction and operation of a BESS facility within a Light Industrial with Renewable Energy Overlay zone (M-1-RE). The project is proposed to connect to the IID electrical grid via the existing 92 kV "P" Line and the existing Bonesteel Substation located north of the All-American Canal.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
