INITIAL STUDY FOR IMPERIAL COUNTY 2021–2029 HOUSING ELEMENT UPDATE

ENVIRONMENTAL EVALUATION COMMITTEE DETERMINATION

After Review of the Initial Study, the Environmental Evaluation Committee (EEC) has:

- Found that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- Found that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- Found that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- Found that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- Found that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Introduction

1.1 PROJECT DESCRIPTION

Under the requirements of state law, every city and county in California must prepare a Housing Element as part of its General Plan. The Housing Element must document in detail existing conditions and projected needs in accordance with state housing law provisions. The element is also required to contain goals, policies, programs, and quantified objectives that address housing needs over the next eight-year period. As part of the proposed project, the proposed 2021–2029 Housing Element will serve as the County’s guiding policy document that meets future needs of housing for all of the County’s economic groups. The proposed 2021–2029 Housing Element will replace the existing 2014-2021 Housing Element. The Housing Element Update identifies the potential for development of up to 17,472 new housing units at full buildout of the County’s existing vacant lot inventory. The projected number of units considers development of existing vacant lots and one non-vacant lot under current land use designations and zoning. Sites in the vacant land inventory are located in existing townsites in the unincorporated county and in specific plan areas, including 101 Ranch, McCabe Ranch II, and Rancho Los Lagos.

The Housing Element is a policy document that does not result in physical changes to the environment but encourages the provision of housing. While policies could result in actions of the County that could result in physical change, none of the policies in the proposed project would result in physical changes to the environment. Additionally, the proposed Housing Element does not identify any parcels for rezoning.

The proposed Housing Element establishes targets for the income accessibility of future housing; however, the ability to construct the housing is based on the designations in the Land Use Element. As the County can meet its Regional Housing Needs Allocation (RHNA) without changing any land use designation, the Land Use Element remains unchanged from the document evaluated in the General Plan Environmental Impact Report (EIR). The proposed Housing Element does not change the development pattern for the county, as shown in the Land Use Element of the General Plan and the zoning map for the county. Physical change to the environment would occur from implementation of the Land Use Element of the General Plan, not the proposed Housing Element. Therefore, development of housing as considered in the proposed Housing Element would be consistent with that analyzed in the General Plan EIR.

Government Code, Section 65588(a)(2) “Review and Revision” requires that the proposed 2021–2029 Housing Element review the goals, policies, and programs of the previous Housing Element, and report on the attainment and disposition of the programs. In some instances, the programs from the previous Housing Element are continued through to the proposed 2021–2029 Housing Element. Many existing programs have been amended and continued to reflect current conditions in the county. Table 1-1 includes changes in goals, policies, or programs between the existing Housing Element and the proposed 2021–2029 Housing Element.

Table 1-1 Summary of Policy Changes Between Existing Housing Element and 2021–2029 Housing Element

Program	Implementation Status	Action
<p>Program 1.1.1 Maintain a land inventory of all government and publicly owned surplus sites (including state and federally owned land) in the county that have potential for residential development for extremely low-, very low-, low-, and moderate-income households.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually</p>	<p>Modified. Covered under new program 1.</p>
<p>Program 1.1.2 The County will provide technical assistance to developers in accessing local, state, and federal funding for affordable housing by: (1) applying for such funding on behalf of affordable housing developers; or (2) providing technical assistance or documentation necessary to support applications for funding by affordable housing developers upon request. Technical assistance will include, but not be limited to:</p> <ul style="list-style-type: none"> ▪ Provision of data or documents within the County’s possession that will contain necessary information or assist in the preparation of a successful grant application, ▪ Letter of support (for projects that have received permit approvals by the County), and ▪ Assistance from the County’s staff to locate potential sources of matching funds. 	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually and ongoing, as needed</p>	<p>Modified. Covered under new program 12.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
<p>Program 1.1.3 Utilize adequate sites inventory and housing condition survey results to support new construction of housing affordable to extremely low-, very low-, and low-income persons by designating sites in the unincorporated area of the county that are appropriate for affordable housing types, including emergency shelters, transitional housing, mobile homes, multifamily housing types, and farmworker housing.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Review annually, support ongoing</p>	<p>Modified. Covered under new program 1.</p>
<p>Program 1.1.4 Continue to allow the development of manufactured housing and mobile homes in the R-1, R-2, R-3, R-4, A-1, A-2, A-3, S-1, and S-2 zones.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Completed. Delete.</p>
<p>Program 1.1.5 Continue to ensure appropriate zoning that allows for medium- and high-density housing for extremely low-, very low-, low-, and moderate-income housing throughout the unincorporated County.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Modified. Covered under new program 1.</p>

EEC ORIGINAL PKG

Program	Responsible Agency:	Implementation Status	Action
<p>Program 1.1.6 Continue to encourage Planned Developments through the Specific Plan development agreement process to achieve innovative housing designs.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>No Specific Plans were approved during the previous planning period. The owners of the McCabe Ranch II, Rancho Los Lagos, and 101 Ranch approved Specific Plans have not developed the projects. The County has worked with the owners to grant map extensions for those needed to encourage development.</p>	<p>Continue. New program 3.</p>
<p>Program 1.1.7 Continue to allow the development of housing for farmworkers in the A-2, A-3, AM-1, and AM-2 zones.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The A-2, A-3, and AM-1 zones allow a single-family unit by right, and farm labor housing with a conditional-use permit, with no limitations on the number of units. The AM-2 zone allows a single-family unit, accessory dwelling unit (ADU) incidental to the primary use, and farm labor housing by right.</p>	<p>Completed. Delete.</p>
<p>Program 1.1.8 To ensure continued compliance with the Employee Housing Act, especially California Health and Safety Code Sections 17021.5 and 17021.6, the County has set forth the following conditions for affordable housing:</p> <ul style="list-style-type: none"> ▪ Employee housing providing accommodations for six or fewer employees shall be deemed a single-family structure with a residential land use designation. How does this work if not on a residential zone? ▪ For the purpose of all local ordinances, employee housing shall not be included within the definition of a boarding house, rooming house, hotel, dormitory, or other term that implies the employee housing is a business run for profit or differs in any other way from a family dwelling. 	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County lists employee housing in Division 5 and defines it in the 2014–2021 Housing Element. The Zoning Code refers to employee housing as farm labor housing, meeting the needs of the same population. The A-2, A-3, and AM-1 zones allow farm labor housing with a conditional-use permit and the AM-2 zone allows farm labor housing by right.</p>	<p>Continue. Covered under new program 7.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
<ul style="list-style-type: none"> ▪ The use of a family dwelling for purposes of employee housing serving six or fewer persons shall not constitute a change of occupancy. ▪ The review will ensure consistency with the following concerning employee housing consisting of no more than 36 beds in group quarters or 12 units or spaces designed for use by a single family or household. ▪ Employee housing shall not be deemed a use that implies that the employee housing is an activity that differs in any other way from an agricultural use. ▪ No conditional-use permit, zoning variance, or other zoning clearance shall be required of this employee housing that is not required of any other agricultural activity in the same zone. ▪ The permitted occupancy in employee housing in an agricultural zone shall include agricultural employees who do not work on the property where the employee housing is located. 		
<p>Program 2.1.1 Continue to support the efforts of the Imperial Valley Housing Authority by providing technical assistance in funding acquisition and the construction of affordable housing units by assisting them with developing innovative and cost-effective construction methods, including the use of solar energy, xeriscaping, and green building materials.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: Grant funds, General Funds (staff time)</p> <p>Timetable: Review coordinated efforts annually, support ongoing</p>	<p>The County continues to support Imperial Valley Housing Authority.</p> <p>Modified. Covered under new program 4.</p>

EEC ORIGINAL PKG

Program	Responsible Agency:	Implementation Status	Action
<p>Program 2.2.1 Encourage innovative and cost-effective construction methods to reduce housing costs by providing incentives such as density bonus units, reduction in development standards, fee waivers/deferrals, and providing assistance in accessing state and federal subsidies. The County will also continue to contract with outside firms to perform plan check reviews for more complex projects in an effort to provide timely development approvals.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 5, Section 90305.00 of the County’s Land Use Ordinance provides for density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential projects of 5 or more units within which as least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. No projects requested density bonuses in the previous planning period.</p>	<p>Modified. Covered under new program 4.</p>
<p>Program 2.2.2 The County will promote the use of density bonuses for lower-income units by including information about density bonus units and related incentives on the County’s updated website.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Density bonus provisions are listed in Division 3, Chapter 5, Section 90305.0 of the County’s Land Use Ordinance. The code provides density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential projects of 5 or more units within which as least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. The County will promote the use of density bonuses by listing these requirements and opportunities on the County’s website.</p>	<p>Modified. Covered under new program 6.</p>

EEC ORIGINAL PKG

Program	Responsible Agency: Funding Source: Timetable:	Implementation Status	Action
<p>Program 2.2.3 Increase the supply of affordable housing for special-needs groups by encouraging the development of attached or detached second dwelling units on existing residential lots by providing information to homeowners about second units at the Planning and Development Services Department offices.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County works closely with various community organizations, the Board of Supervisors, the Catholic Church, and other interested churches to pursue opportunities for development of new transitional and supportive housing, as well as other housing types for special-needs group. The County and these groups have identified suitable sites, but none have been developed. Additionally, County approved seven ADUs and one Junior ADU in 2020.</p>	<p>Modified. Covered under new program 8.</p>
<p>Program 2.2.4 Continue to monitor State Density Bonus law to ensure the County's ordinance is in compliance with state regulations.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Annually</p>	<p>Chapter 5, Section 90305.00, of the County's Land Use Ordinance provides for density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential projects of 5 or more units within which at least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. The County will update the density bonus in the Code to reflect current state law.</p>	<p>Combined with Program 2.2.2. Covered under new program 6.</p>
<p>Program 2.2.5 Allow for the development of mixed-use zoning in the Light Commercial (C-1) and General Commercial (C-2) zoning districts that allow for residential development at up to 25 dwelling units per acre.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 6, Section 90306.01, of Division 3 of the County's Land Use Ordinance establishes the C-1 (Light Commercial) and C-2 (General Commercial) zones as allowing mixed-use development and discourages single-use development. The C-1 zone permits 29 dwelling units per acre and C-2 does not establish a maximum number of allowable dwelling units.</p>	<p>Completed. Delete.</p>
<p>Program 2.2.6 Continue to support the use of federal and state funding resources for meeting local housing needs</p>	<p>Responsible Agency: Planning and Development Services</p>	<p>In 2021, Workforce and Economic Development provided Emergency Rapid Rehousing and Tenant-Based Rental Assistance (TBRA) to homeless</p>	<p>Modified. Covered under new program 9.</p>

EEC ORIGINAL PKG

Program		Implementation Status	Action
<p>and programs, especially for households with special needs, particularly seniors and those with disabilities and development disabilities, and lower incomes.</p>	<p>Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>clientele through the Homeless Emergency Assistance Program (HEAP) funding through federal funds obtained by the local Continuum of Care.</p> <p>Workforce and Economic Development provided TBRA between 2017 and 2018 and served a total of 150 households. Of the 150 assisted households, 50 were served through the HEAP program in 2020.</p> <p>The County will continue to apply for available funding to meet the needs of the community and plans to submit additional funding applications for Community Development Block Grant (CDBG) in early 2021.</p>	
<p>Program 2.2.7 Continue to seek funding from the Joe Serna Jr. Farmworker Housing Grant Program (Serna) for the rehabilitation of existing farmworker units and the construction of new units. The County will also collaborate with agricultural employers to identify sites and funding sources available through the California Department of Housing and Community Development (HCD) and the United States Department of Agriculture (USDA) Rural Development programs for farmworker housing.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds, Serna, CDBG</p> <p>Timetable: As Notices of Funding Availability (NOFAs) are released</p>	<p>Due to limited staff capacity, the County has not applied for funding through the Joe Serna Jr. Farmworker Housing Grant Program or other funding for farmworker housing. As farmworkers are an integral part of the County’s community and economy, this program will be strengthened to identify funding during the 2021–2029 planning period.</p>	<p>Modified. Covered under new program 10.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
<p>Program 2.2.8 Continue to promote development of assisted rental housing for extremely low-, very low-, low-, and moderate-income persons and families through below-market rate financing through private lenders and possibly with the use of tax-exempt Mortgage Revenue Bonds by providing technical assistance with funding applications and other necessary paperwork.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: California Housing Finance Agency (CHFA)</p> <p>Timetable: Ongoing</p>	<p>The County responds to requests for information and assistance on a project-by-project basis for affordable rental housing. Additionally, the County encourages development of housing for lower-income households through density bonus incentives and coordination with the Board of Supervisors and housing providers. However, no projects requested financing or technical assistance during the previous planning period.</p> <p>Modified. Covered under new program 12.</p>
<p>Program 2.2.9 Continue to support self-help housing providers to develop affordable homeownership projects for lower-income households and especially agricultural workers by providing technical assistance with funding applications and other paperwork, as well as by helping self-help housing providers secure sites for their developments.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County responds to requests for information and assistance on a project-by-project basis from self-help housing providers for affordable homeownership projects. No questions were received for affordable homeownership projects proposed during the previous planning period.</p> <p>Modified. Covered under new program 12.</p>
<p>Program 2.2.10 The County will assist and support local social service agencies in their applications for state and federal funds to provide housing-related services to lower-income households and special-needs groups, particularly those offering supportive housing programs for homeless individuals and families.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing or as requested</p>	<p>In 2021, Workforce and Economic Development provided Emergency Rapid Rehousing and Tenant-Based Rental Assistance (TBRA) to homeless clientele through the Homeless Emergency Assistance Program (HEAP) funding through federal funds obtained by the local Continuum of Care.</p> <p>Workforce and Economic Development is also in the process of preparing to implement a TBRA program, funded by HCD - HOME and two Housing Rehabilitation Programs funded by HCD - CDBG.</p> <p>Subsistence payments funding was awarded through the 16-CDBG-11151 grant. The County began implementation on March 9, 2017, and the program was completed on February 13, 2019. A</p> <p>Modified. Covered under new program 11.</p>

EEC ORIGINAL PKG

Program		Implementation Status	Action
<p>Program 3.1.1 Distribute public information regarding local service organizations, homeless and community assistance programs, including the Torres Martinez Tribal Temporary Assistance for Needy Families (TANF) program, and emergency shelters/transitional housing by maintaining updated information available at the “storefront” locations at the Planning and Development Services Department offices.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Review information and update quarterly, distribution ongoing</p>	<p>total of 20 households were assisted.</p> <p>Flyers and pamphlets with information on local service organizations, homeless and community assistance programs, and emergency shelters and transitional housing are available in all County offices.</p>	<p>Continue. New program 13.</p>
<p>Program 3.1.2 Assist emergency shelters/transitional housing providers in acquiring state, federal, and local funding for services for the homeless.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County Workforce and Economic Development, working closely with the Department of Social Services, implemented the rapid re-housing program under HEAP, which provides temporary shelter assistance through hotel vouchers.</p> <p>A total of 27 households have received hotel vouchers through the HEAP IC Rapid Re-Housing program. Vouchers ranged from 7-day to 90-day vouchers.</p>	<p>Modified. Covered under new program 14.</p>
<p>Program 3.1.3 The County will continue to allow for the development of transitional housing, and per Section 50675.14 of the Health and Safety Code, continue to allow supportive housing as a permitted use in residential districts.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Transitional housing is currently a permitted use in the R-3, C-2, A-1, and M-1 zones. The County will update Title 9 to allow transitional housing in all zones where residential uses are permitted.</p>	<p>Modified. Covered under new program 15.</p>
<p>Program 3.1.4 Pursuant to Senate Bill (SB) 2, continue to allow emergency shelters as a permitted use in the General</p>	<p>Responsible Agency: Planning and Development Services</p>	<p>Emergency shelters are permitted by right in the C-2 (Medium Commercial) and M-1 (Light Industrial) zones. No emergency shelters were</p>	<p>Completed. Delete.</p>

Program		Implementation Status	Action
Commercial (C-2) and Light Industrial (M-1) zones in the County Land Use Ordinance Title 9.	<p>Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	proposed during the previous planning period.	
<p>Program 3.1.5 Ensure new developments are compliant with standards outlined in the Americans with Disabilities Act (ADA) for persons with disabilities.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	Chapter 7, Section 90307.01 of the County’s Land Use Ordinance (Title 9) establishes a process for reasonable accommodation requests for persons with disabilities. The County Building Department reviews development standards for compliance with the ADA regularly during the building permit review process.	Modified. Covered under new program 16.
<p>Program 3.1.6 Continue to allow supportive housing types for persons with special housing needs, including persons with disabilities and developmental disabilities, in the County Land Use Ordinance Title 9, including the following:</p> <ul style="list-style-type: none"> ▪ Provision for group homes over six residents specifically for the disabled, other than those residential zones covered by state law; ▪ Siting or separation requirements for licensed residential care facilities, to determine the extent to which the local restrictions affect the development and cost of housing; ▪ Any minimum distance requirements in the Land Use Element for the siting of special-needs housing developments in relationship to each other do not impact the development and cost of housing for persons with disabilities; and ▪ Alternate residential parking requirements, 	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	Chapter 7, Section 90307.01 of the County’s Land Use Ordinance (Title 9) establishes a process for reasonable accommodation requests for persons with disabilities. Residential care facilities for five or fewer individuals are permitted in the R-1, R-2, R-3, R-4, and A-2 zones. Community care facilities are permitted with a conditional-use permit in the R-3, R-4, A-1, and A-2 zones. The County will update Title 9 to reflect current state law. No supportive housing projects were proposed in the previous planning period.	Modified. Covered under new program 15.

Program	Implementation Status	Action
including reduction, for developments, including housing types for persons with special housing needs.		
<p>Program 3.1.7 To address the extremely low-income housing need and ensure compliance with Assembly Bill (AB) 2634, the County Land Use Ordinance Title 9 will continue to explicitly allow single-room occupancy units (SROs) as permitted uses in the Medium- to High-Density Residential (R-3), High-Density Residential (R-4), General Commercial (C-2), and Limited Agricultural (A-1) zones.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Single-room occupancy is permitted in the R-3, R-4, C-1, C-2, and A-1 zones to provide housing for extremely low-income residents. No applications were received for SROs in the previous planning period.</p> <p>Modified. Covered under new program 17.</p>
<p>Program 4.1.1 Encourage the development and implementation of housing outreach and education programs to inform the public of available housing opportunities, as well as various assistance programs available to eligible households, by continuing to provide information about the County’s housing programs by posting flyers on community boards and at gas stations, schools, and other public places.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update and redistribute assistance program information quarterly or as needed, education programs ongoing</p>	<p>At all Board of Supervisor meetings, the County discusses strategies to encourage housing outreach and education programs; however, there has been no interest in such a program.</p> <p>Modified. Covered under new program 19.</p>
<p>Program 4.1.2 Ensure that fair housing enforcement is reviewed periodically to prevent discrimination. Reduce any effects of housing discrimination and prevent future discrimination by referring potential victims of discrimination to the appropriate fair housing agency.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source:</p>	<p>Chapter 7 and Chapter 11.12 incorporate the County’s commitment to ensuring fair housing is included in the development process and enforced through a standard procedure. Requests for reasonable accommodations are reviewed by the Director or another review authority and fair housing information is distributed to the real estate industry and posted in public buildings.</p> <p>Modified. Covered under new program 19.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action	
	General Funds (staff time) Timetable: Annually		
Program 5.1.1 Continue to pursue funding for owner-occupied rehabilitation efforts. Rehabilitation efforts should include improving the existing stock of mobile home units.	Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority Funding Source: CDBG, HOME, other federal/state sources Timetable: Annually apply for funds to support existing owner-occupied rehabilitation program	In 2018, the County was awarded \$500,000 in HOME Grant funding to be used to assist low-income families purchase their first homes and promote homeownership. However, in response to the COVID-19 pandemic, the County chose to redirect this funding to the TBRA program to better meet the needs of the community during this time. Also in 2018, the County was awarded \$700,000 through CDBG for housing rehabilitation in Salton Sea Beach and Heber; each area was awarded \$350,000 for these programs. The County is also working with the City of Calipatria to implement their HOME program. The County will continue to pursue funding for housing rehabilitation programs in the future. The County is still working on conditions to begin the program, expected to be completed in 2021, to begin providing TBRA rent assistance and housing rehabilitation.	Modified. Covered under new program 21.
Program 5.1.2 Continue to implement an active code enforcement and building inspection program to identify existing code deficiencies and encourage improvement of existing substandard dwelling units.	Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority Funding Source: General Funds (staff time) Timetable: Ongoing	The County received and responded to 1,043 notices of violations to the County code during the 2014–2021 planning period. Through responding to these violations, the County identified the most common areas of deficiency are the illegal parking of trailers on vacant lots and overgrown vegetation. The County uses this information to educate residents on their responsibilities and identify areas where additional enforcement is necessary.	Modified. Covered under new program 22.

EEC ORIGINAL PKG

Program		Implementation Status	Action
<p>Program 5.1.3 The County will update its list of subsidized rental properties on an annual basis and identify units at risk of converting to market rate. The County will contact the owner(s) of any identified at-risk units to determine their interest in selling the property or maintaining the affordability of the units. The County will work with property owners to apply for federal, state, and local subsidies to ensure the continued affordability of at-risk units and will maintain a list of non-profit organizations that may be interested in the acquisition/rehabilitation of at-risk units.</p> <p>The County will make information regarding tenants' rights and conversion procedures, as well as assistance organizations and information regarding other affordable housing opportunities within the county available to tenants of at-risk units.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually, provide assistance as needed</p>	<p>The County relies on data from the California Housing Partnership Corporation to maintain an updated list of subsidized rental properties.</p>	<p>Modified. Covered under new program 23.</p>
<p>Program 6.1.1 Promote the use of energy conservation measures to "weatherize" existing homes as part of the County's rehabilitation program efforts.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: CDBG, HOME, General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Through the 2018 CDBG funding application, under the Colonias allocation, the County was awarded funding for housing rehabilitation for Salton Sea Beach and Heber. Each area was awarded \$350,000 for these programs.</p>	<p>Continue. Covered under new program 24.</p>
<p>Program 6.1.2 Continue to implement Title 24 Energy Conservation Requirements in housing design and rehabilitation efforts.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p>	<p>Chapter 1 of Division 10 of the County's Land Use Ordinance (Title 9) establishes that the County will enforce all building regulations of Title 24, including Energy Conservation Requirements.</p>	<p>Delete.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
<p>Program 7.1.1 Facilitate the flow of shared information and experiences regarding special topics between incorporated cities and unincorporated communities (e.g., innovative subdivision processes).</p>	<p>Timetable: Ongoing</p> <p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Coordinate communication annually or as appropriate, shared information is ongoing</p>	<p>The County works closely with both incorporated and unincorporated communities through community meetings and appointing members to Community Boards. Additionally, the County works closely with the Heber Utility District and related projects. The County Building Department manages recreational vehicle (RV) and mobile home parks throughout the county, in both unincorporated areas and on behalf of cities in incorporated areas. The County works directly with cities on issues related to management of this housing, such as responding to comments on projects, complaints, and more.</p> <p>Modified. Covered under new program 25.</p>
<p>Program 7.1.2 Continue to support the coordination between public agencies through the County's intra-department/agency framework that allows specialist staff to have daily interaction and access to a global computer permitting and monitoring program linked to other development-related departments/agencies.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County supports coordination with public agencies and other inter-departmental coordination through the development process. Most projects include a pre-application meeting, to which the County invites all local and state agencies that are related to the project or may have an interest. Beyond this, and for projects that do not have a pre-application meeting, the County solicits comments from local agencies and other departments during the permitting process and public hearings.</p> <p>Delete.</p>
<p>Program 7.1.3 Continue to coordinate with the Imperial Valley Housing Authority to promote housing efforts.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds</p>	<p>The County works with the Imperial Valley Housing Authority and has an ongoing partnership to promote development of a variety of housing types, with an emphasis on creating and maintaining affordable housing units. As part of this maintenance, the County coordinates services for a mobile home in a park owned by the housing authority. Due to limited funding, the County has been unable to assist in the construction of additional affordable housing in recent years.</p> <p>Modified. Covered under new program 4.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
	<p>Timetable: Review coordination efforts annually, coordination ongoing</p>	
<p>Program 7.1.4 Coordinate with regional employers to determine appropriate housing types for employees that live in Imperial County.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County coordinates with employers in the region, with a special focus on large projects, to encourage local employment of residents that are already housed in the area. The County provides incentives when employers meet a threshold set on a project-by-project basis for how many employees are local residents rather than attracting new workers in need of temporary housing.</p> <p>Modified. Covered under new program 25.</p>
<p>Program 7.1.5 Continue to support economic development activities coordinated through the Planning and Development Services Department by providing technical support in the form of service area plan updates. These updates contain a record of undeveloped lands through the creation of residential subdivisions, annexation of land to incorporated cities, and the capacities of water and sewer in the unincorporated areas.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>During the previous planning period, the County supported creation of additional housing through annexations of land for the Lotus Ranch and Miller-Burson developments into El Centro and the Russel Court development into Imperial County. In 2018, the Seeley County Water District released an update to their Service Area Plan finding that, in the Seeley service area, wastewater facilities are operating at 45-percent capacity and water facilities are operating at 20-percent capacity.</p> <p>Delete.</p> <p>The following have been completed to date:</p> <ul style="list-style-type: none"> ▪ Winterhaven Public Safety Facility ▪ Subsistence Payments Program ▪ Neighborhood Cleanups ▪ Telemedicine Equipment for Clinicas de Salud del Pueblo ▪ Library Needs Assessment ▪ Poe Colonia Wastewater Plant Improvements ▪ Palo Verde Water Well #1 Improvements

EEC ORIGINAL PKG

	Program	Implementation Status	Action	
		<ul style="list-style-type: none"> ▪ Seeley Water Line Distribution System Improvements <p>The following projects are in progress:</p> <ul style="list-style-type: none"> ▪ Winterhaven Water Treatment Plant Improvements ▪ Niland Public Safety Facility <p>The 18 CDBG grants were just received a few months ago. The County needs to clear general conditions and get approval from the state before they begin. The County is currently working on general conditions. These projects include:</p> <ul style="list-style-type: none"> ▪ Seeley Fire Station ▪ Palo Verde Water Well #2 Improvements ▪ Heber Housing Rehabilitation ▪ Salton Sea Beach Housing Rehabilitation <p>No projects have been completed under housing rehabilitation as of yet since the County is still working on conditions to begin the programs.</p>		
	<p>Program 8.1.1 Continue to improve the planning permit processing procedures by improving information retrieval capabilities of counter and project staff, continuing pre-application meetings, and providing updated written materials, such as checklists and application forms with fee and standards guidelines to developers. Continue to apply mandatory time frames for application review. The County’s updated website features a function that will allow developers to track their projects through the permit processing procedures.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing as projects are submitted to the Planning Department</p>	<p>The County has implemented streamlining for solar in the Zoning Ordinance, is undergoing a review of permit procedures for industrial development and intends to complete a review of residential permitting procedures next. During each of these reviews, the County has analyzed input from the public and developers on permit processing procedures as well as reviewed the Zoning Ordinance for constraints on development that may result in delays.</p>	<p>Modified. Covered under new program 27.</p>

EEC ORIGINAL PKG

Program	Implementation Status	Action
<p>Program 8.1.2 The County will consider updating community and urban area plans as staff develops a timeline for completing them.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: 2014–2021</p>	<p>Due to a lack of funding, the County was unable to update community and urban area plans in the previous planning period. However, the County contracted a consultant at the end of 2020 to assist with local and regional planning (LEAP/REAP) grant applications and plans to use the funding, if received, to assist with community plan updates.</p> <p>Modified. Covered under new program 27.</p>
<p>Program 8.1.3 Increase the use of the clustered Planned Residential Development (PRD) approach by lowering the minimum land area required for a PRD project. The PRD usually allows higher densities than conventional subdivisions and, through clustering, can reduce infrastructure costs. This will be achieved through the Specific Plan process so developers can select sites to apply the PRD.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Case-by-case basis; ongoing</p>	<p>The County did not use clustered PRD during the previous planning period, and instead encourages higher density for housing through Specific Plans. Three Specific Plans were processed during the previous planning period: McCabe Ranch, Rancho Los Lagos, and 101 Ranch.</p> <p>Modified. Covered under new program 12.</p>
<p>Program 8.1.4 Continue to permit landowners to build on lots of record that are currently below the minimum lot size, but only where such construction does not create land use conflicts, such as with existing agricultural operations.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 4, Section 90804.01, of Division 8 of the County’s Land Use Ordinance (Title 9) specifies that lots smaller than the applicable parcel size can still be developed under specific requirements: the parcel boundaries were determined prior to the establishment of the current minimum parcel size or a subdivider agrees to surrender development rights of a portion of a minor subdivision such that the reduced lot sizes will not result in increased density than otherwise permitted. The Planning Director or Planning Commission may also approve a parcel map of no more than four parcels where one or all parcels are smaller than the applicable minimum parcel size if there are existing small parcels in the same area that meet requirements outlined in Section 90804.01.</p> <p>Modified. Covered under new program 28.</p>

EEC ORIGINAL PKG

Program	Responsible Agency: Funding Source: Timetable:	Implementation Status	Action
<p>Program 8.1.5 Continue to use the International Conference of Building Officials (ICBO) to ensure a set of consistent codes. In addition, model codes shall be periodically evaluated for new information on technological advances.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County enforces Title 24, the California Building Standards Code, updated regularly as the state updates the code to ensure new information and technological advances are included and enforced.</p>	<p>Delete.</p>
<p>Program 8.1.6 Review building codes periodically to incorporate the most economical construction alternatives consistent with health and safety.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Review annually</p>	<p>The County enforces Title 24, the California Building Standards Code. The California Building Standards Codes are updated every three years to ensure consistency with health and safety codes and promote the most economical construction alternative. By enforcing these updated codes, the County ensures their building code addresses construction alternatives, health, and safety.</p>	<p>Modified. Covered under new program 5.</p>
<p>Program 8.1.7 Encourage projects for special-needs groups and for lower- and moderate-income households by using the appropriate County ordinance to permit reduced lot sizes, reduced site setbacks, and off-street parking, thereby reducing land costs for private-sector housing developments. This will be implemented through ensuring all staff are fully knowledgeable of potential development standard reductions through the monthly staff meeting process.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County works closely with various community organizations, the Board of Supervisors, the Catholic Church, and other interested churches to pursue opportunities for development of new transitional and supportive housing, as well as other housing types for special-needs groups. Many community organizations work directly with Board members. The County and these groups have identified suitable sites, but none have been developed. Additionally, County approved seven ADUs and one Junior ADU in 2020.</p>	<p>Modified. Covered under new program 9.</p>

EEC ORIGINAL PKG

As shown in Table 1-1, the proposed 2021–2029 Housing Element consolidates many goals and policies from the existing Housing Element to aid in implementation and to eliminate redundancy. The following five policies and programs are new to the County and are included in the proposed 2021–2029 Housing Element:

- **Policy 1.2:** To provide affordable housing consistent with Assembly Bill 1397.
- **Program 2:** To provide water and sewer services for housing within low-income and low-resources areas.
- **Program 7:** To amend the Land Use Ordinance Title 9 to address Accessory Dwelling Units, Emergency Shelter Parking, Manufactured Housings, and Employee Housing standards.
- **Program 8:** To promote Accessory Dwelling Units as affordable housing options.
- **Program 20:** To improve low-resources areas access to opportunities.

1.2 PROJECT LOCATION, ENVIRONMENTAL SETTING, AND SURROUNDING LAND USES

In 1993, Imperial County adopted the Imperial County 1993 General Plan, which is a comprehensive guide for development within the county and provides mechanisms to achieve desired community goals and objectives through a coordination implementation program (Imperial County 1993). The General Plan is the foundation for zoning, subdivision approval, housing allocations, capital improvements, and other planning decisions. The Housing Element is one of the nine elements included in the General Plan. The Housing Element has been updated over the years; the 2021–2029 Housing Element is a continuance of this update process. A General Plan amendment would be required to include the 2021–2029 Housing Element (6th cycle), if adopted by the County.

The project relates to all unincorporated lands within the County of Imperial. The County of Imperial encompasses approximately 4,597 square miles of the southeastern portion of the State of California. Imperial County is bounded by Riverside County to the north, the Arizona state line to the east, the U.S./Mexico international border to the south, and San Diego County to the west. See Figure 1-1, *Project Location Map*. See analysis in the section, Evaluation of Environmental Impacts, for a discussion of the environmental setting as it pertains to specific environmental topics.

1.3 REGULATORY SETTING

Government Code Section 65583 states that the Housing Element shall consist of identification and analysis of existing and projected housing needs, as well as a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing.

2. Environmental Analysis

2.1 AESTHETICS

Except as provided in Public Resources Code Section 21099, would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) In non-urbanized area, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.1.1 Setting

Scenic vistas generally include areas of high scenic quality that are visible to a number of people, including recreational travelers. Imperial County encompasses approximately 4,597 miles between Riverside County to the north, U.S./Mexico border to the south, San Diego County to the west and Arizona to the east. The county contains many visual resources, such as desert areas, sand hills, mountains, and the Salton Sea. The desert areas include the Yuha Desert, the West Mesa, lower Borrego Valley, East Mesa, and Pilot Knob Mesa. The desert areas provide natural and barren landscape. Other scenic deserts include the West Mesa area, bordered to the east by Algodones Sand Dunes, the lower Borrego Valley, the East Mesa, and Pilot Knob Mesa. Mountain areas include the eastern foothills of the Peninsular Range on the west side of the county and the Chocolate Mountains located on the northeastern portion of the county and continuing northwest between Riverside County and the Colorado River. The rugged and

undeveloped mountains reach an elevation of 2,700 feet and are visible throughout the county (Imperial County 2016).

Three state routes (SR) are within Imperial County. SR 78 extends approximately 10 miles in the upper eastern portion of the county. SR 8 extends approximately 8 miles in the lower eastern side of the county. SR 111 extends approximately 8 miles along the Salton Sea on the northwest corner of the county (Caltrans 2021).

Future development and rehabilitation of housing in the county would be regulated by the policies of the County's General Plan, the County's Municipal Code, and other relevant County regulations.

2.1.2 Discussion

- a-d) **No Impact.** The proposed project does not involve the construction of any new housing units. The proposed project introduces policies and programs to address the County's housing needs. The proposed project encourages housing that is already anticipated by the General Plan to be designed for various income levels. Future development and rehabilitation of housing in the county would be regulated by the policies of the County's General Plan, the County's Land Use Ordinance, and other relevant County regulations. The Housing Element identifies locations where housing at various income levels can be developed, but does not involve the construction of any new housing units. Therefore, there would be no anticipated impacts to the county's scenic resources as a result of the project and there would be no impact.

2.2 AGRICULTURE AND FORESTRY RESOURCES

In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220[g]), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104[g])?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in the loss of forest land or conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.2.1 Setting

Imperial County is mostly comprised of Prime Farmland and Farmland of Statewide importance (DOC 2021). Approximately 20 percent of land is irrigated for agricultural purposes within the county limits. Imperial Valley contains 512,163 acres of agricultural land and other major agricultural irrigated areas include Bard Valley with approximately 14,737 acres in the southeast corner of the County and Palo Verde Valley with approximately 7,428 acres in the northeast corner (Imperial County 2015a). These agricultural lands include various types of vegetable crops including lettuce, carrots, onions, cauliflower, and broccoli; alfalfa, Sudan grass, and other animal feeds; sugar beets; wheat and other grains; melons; cotton; and various citrus, fruits, and nuts. Vegetable and melon crops have traditionally represented the highest gross value.

2.2.2 Discussion

- a-e) **No Impact.** The implementation of the proposed project would not alter General Plan policies, or zoning regulations, pertaining to forestland, timber, or agricultural uses in the county. Further, the proposed project does not include any site-specific designs or proposals, nor does it grant any entitlements for development. No changes are proposed to land use designations or zoning districts that could result in new development or redevelopment that was not already considered for development in the General Plan. There is adequate vacant land to meet the County's RHNA and the proposed project does not include the physical development of housing units or recommend any land use designation or zone changes. Because the proposed project only identifies sites that are currently designated and zoned for residential use, it would not result in an impact related to loss of agricultural or forest land or conversion of land zoned for agriculture or forest. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact agricultural or forest resources. Therefore, the proposed project would not affect agricultural or forest resources and there would be no impact.

2.3 AIR QUALITY

Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to make the following determinations. Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.3.1 Setting

The county is located within the Salton Sea Air Basin (SSAB) and is included in the Imperial County Air Pollution Control District (ICAPCD). The ICAPCD acts as the regulatory agency for air pollution control in the SSAB and is the local agency empowered to regulate air pollutant emissions for the plan area. The county is designated as a nonattainment area for ozone and PM_{2.5} (EPA 2021). Additionally, the Specific Plans within the county provide development throughout the county to meet the County’s RHNA and have been assumed in attainment plans for the ICAPCD.

2.3.2 Discussion

a-d) **No Impact.** Because the proposed Housing Element does not change the land use designation or development assumptions of the General Plan, the proposed project remains consistent with growth projections used by ICAPCD for its air quality attainment plan. The proposed project includes policies and implementation actions that are designed to facilitate the development of housing to meet the County’s share of the regional housing need but does not involve construction of housing that could violate quality standards. Future development would be required to comply with local regulations such as the General Plan policies related to air quality and meet the thresholds of the National Ambient Air Quality Standards (NAAQS) and ICAPCD during construction and operation. While the CEQA process lists the Air District policies that apply to each

project, compliance with the policies is part of the construction rather than entitlement process. Measures such as dust control and equipment type are applied to grading or building permits. As such, these measures would continue to apply. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact air quality. Therefore, the Housing Element would have no potential to result in the emission of air pollutants or objectionable odors or otherwise affect air quality. There would be no impact.

2.4 BIOLOGICAL RESOURCES

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.4.1 Setting

A number of sensitive vegetation communities, identified by the California Department of Fish and Wildlife (CDFW) and others as rare and worthy of consideration in California, occur in Imperial County. Of the total 2,942,080 acres in the county, approximately 215,220 are sensitive habitats. Sensitive vegetation and habitats are a conservation priority for local, state, and federal regulatory agencies because they have limited distribution and support a variety of sensitive plants and wildlife (Imperial County 2016).

Several areas in Imperial County have been designated as environmentally sensitive areas by various public agencies or entities. These include US Fish & Wildlife Service (USFWS)-designated critical habitat, USFWS National Wildlife Refuges, Bureau of Land Management (BLM), National Landscape Conservation System (NLCS) lands, BLM Desert Wildlife Management Areas (DWMAs) and Areas of Critical Environmental Concern (ACECs), wilderness and wildlife areas, state parks, and other protective designations by federal and state agencies in the county. Many of these areas have development restrictions or prohibitions to facilitate conservation of biological resources or other sensitive resources (Imperial County 2016).

Critical habitat is a federal designation to provide essential habitat for listed species. While development is not precluded from designated critical habitat, these areas have been afforded legal protection which requires developers to consult with the USFWS if a project would affect critical habitat or any listed species. Critical habitat units support important habitat and often support more than one listed species. Critical habitat is designated in Imperial County for species including Desert pupfish, Razorback sucker, Desert tortoise, Peirson's milk-vetch, Peninsular bighorn sheep, and Yellow-billed cuckoo (Imperial County 2016).

2.4.2 Discussion

- a-f) **No Impact.** The proposed Housing Element Update does not include specific development designs or proposals, nor does it grant development entitlements. The proposed Housing Element Update does not propose policies or programs that would conflict with the existing policies regarding the protection of biological resources in the General Plan. Future development as a result of the implementation of the proposed Housing Element Update would be required to analyze environmental impacts and comply with the environmental reporting requirements pursuant to CEQA, on a case-by-case basis.

Future development as a result of the implementation of the proposed Housing Element Update could result in adverse impacts to sensitive natural communities such as riparian habitat and federally protected wetlands. However, as the proposed Housing Element Update is a policy-level document, no impacts would occur. The housing developed to accommodate the County's RHNA would be consistent with existing zoning and General

Plan designations so the Housing Element itself would not result in physical impacts beyond those disclosed in the General Plan EIR. Moreover, the implementation of the proposed Housing Element Update would not cause adverse impacts to special-status species. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact biological resources. Therefore, the proposed project would not adversely impact biological resources, special status habitat, wetlands, wildlife movement, local policies protecting biological resources, or conflict with an adopted habitat conservation plan or state habitat conservation plan. Thus, there would be no impacts to biological resources.

2.5 CULTURAL RESOURCES

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Cause a substantial adverse change in the significance of a historical resource pursuant to § 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.5.1 Setting

Cultural resources include prehistoric resources, and historic resources. Prehistoric resources represent the remains of human occupation prior to European settlement. Historic resources represent remains after European settlement and may be part of a “built environment,” including human-made structures used for habitation, work, recreation, education, and religious worship, and may also be represented by houses, factories, office buildings, schools, churches, museums, hospitals, bridges, and other structural remains. Native American resources include ethnographic elements pertaining to Native American issues and values (further discussed in Section 2.18, *Tribal Cultural Resources*).

The Cahuilla, Tipai, and Quechan inhabited the Imperial County area since before Spanish contact. The Cahuilla people occupied a territory in south-central California, between the San Bernardino Mountains in the north to Borrego Springs and the Chocolate Mountains in the south, east to the Colorado Desert, and west into the San Jacinto Plain near Riverside and the Palomar Mountains. The Tipai, previously called Diegueño or Kamia, occupied an area that roughly extended from the Pacific Coast at San Diego eastward to the Sand Hills of Imperial County as well as south into modern-day Mexico. The Quechan, also known as the Yuma, continue to occupy their traditional territory at the confluence of the Gila and Colorado rivers at the edge of the California, Arizona, and Mexican borders. From here their territory stretched north along the Colorado River and to the east of the Gila River (Imperial County 2016).

Identified historic period-built environment and archaeological resources represent a range of activities including, but not limited to, mining, transportation, and ranching/homesteading and are represented throughout the county. The number of previously identified historic period resources is smaller than prehistoric resources, making determination of areas of known or established sensitivity difficult. It is possible, however, to make informed deductions about the

types of resources likely to be encountered based on the previously identified sites in combination with the documented history of the area (Imperial County 2016).

2.5.2 Discussion

- a-c) **No Impact.** Future development in the county will be reviewed to ensure that conflict with existing known cultural and historical resources are minimized. Additionally, construction activities of future development have the potential to uncover archeological resources, including human remains found outside of cemeteries. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact archaeological or historic resources. All future development within the county would be required to comply with local regulations, including General Plan Policies regarding cultural resources, as well as California Health and Safety Code Section 7050.5 which, if human remains are encountered during construction, requires halting site disturbance until a coroner has investigated. Goal 3 of the Imperial County General Plan Conservation and Open Space Element provides objectives for preserving and protecting cultural resources (Imperial County 2016). The combination of the County's ordinance and policies that affect historic resources will ensure that implementation of the proposed Housing Element Update would have no impact on cultural resources.

2.6 ENERGY

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.6.1 Discussion

- a-b) **No Impact.** Short-term construction and long-term operational activities resulting from future development would result in energy consumption. Construction activities would consume energy to power electricity-operated equipment; during transportation of construction equipment and vehicles, and construction employee passenger vehicles; and in the form of construction materials which would need to be manufactured. During operation activities, energy would be consumed for building operations (e.g., ventilation, heating/cooling, operation of electrical systems), and transportation of vehicles. However, the proposed project does not provide site-specific designs or development proposals, nor does it change any land uses zoning. Future development would be required to comply with the current Building Energy Efficiency Standards. The County verifies compliance with the California Building Code (CBC) as part of the building permit issuance and construction inspection process. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact energy resources. Therefore, the proposed Housing Element Update would have no impact on inefficient energy use or conflicting with renewable energy or energy efficiencies plans.

2.7 GEOLOGY AND SOILS

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
ii) Strong seismic ground shaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iii) Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iv) Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on-or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.7.1 Setting

Imperial County is underlain by three natural geomorphic provinces: the Peninsular Ranges, the Colorado Desert, and the Mojave Desert. Each of these provinces is a naturally defined geologic region that displays a distinct landscape or landform with defining features based on geology, faults, topographic relief, and climate (Imperial County 2016).

Geologic conditions define the stability of the ground below a site and how the site will respond to the natural forces of earthquakes and weather. Geologic hazards that may occur in response to an earthquake include liquefaction, seismic settlement, landslide, tsunami, and seiche. Related hazards include slope failure, flooding from dam failure, and building structural failures. Imperial County contains several major active faults, including the Brawley Fault Zone, the Coyote Creek Fault and the Elmore Ranch Fault (in the San Jacinto Fault Zone), the Elsinore Fault, the Imperial Fault, the Laguna Salada Fault (in the Elsinore Fault Zone), the San Andreas Fault, the Superstition Hills Fault, and the Wienert Fault (in the San Jacinto Fault Zone). The Seismic and Public Safety of the County's General Plan has policies that address geologic and related hazards (Imperial County 1997).

2.7.2 Discussion

a-f) **No Impact.** The proposed Housing Element Update provides policies and programs designed to facilitate the construction and conservation of housing that is already designated for development within the county. Construction of new housing could have the ability to increase exposure of people and structures to seismic hazards, including rupture of a fault, strong seismic shaking, and seismic-related ground failure. Similarly, future development could result in construction on expansive or erosive soils or be proposed in areas subject to landslide or collapse. The General Plan addresses geology and soils as part of the Seismic and Public Safety and the Conservation Open-Space Element, and the County has adopted the CBC that includes provisions for construction in seismically active areas, and on different soil types. The County ensures compliance with these requirements occurs at the time of building permit issuance and would apply to housing projects developed by-right. The proposed project does not change the requirement that all existing and future development in the County must comply with the General Plan policies, and the California Building Code. While compliance with these policies may alter design by requiring additional strengthening, over excavation of soil, or other project-specific design elements, the proposed project has no impact on these requirements.

2.8 GREENHOUSE GAS EMISSIONS

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.8.1 Setting

Greenhouse gases (GHGs) generated by human activities can contribute to changes in the natural greenhouse effect, which could result in climate change. Greenhouse gases, which are transparent to solar radiation, are effective in absorbing infrared radiation. As a result, this radiation that otherwise would have escaped back into space is retained, resulting in a warming of the atmosphere. This phenomenon is known as the greenhouse effect. Among the prominent GHGs contributing to the greenhouse effect are carbon dioxide, methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride. Motor vehicles make up the bulk of GHG emissions produced on an operational basis for most nonindustrial projects. The primary GHGs emitted by motor vehicles include carbon dioxide, methane, nitrous oxide, and hydrofluorocarbons. A number of regulations have been developed to reduce GHG. Energy conservation standards are contained in the 2019 CBC that became effective on January 1, 2020. The new code requires solar panels for some uses, and other energy saving devices.

2.8.2 Discussion

a-b) **No Impact.** The proposed project does not provide specific development designs or development proposals, nor does it grant development entitlements. Future development of housing units could result in an increase in GHG emissions during both construction and operational activities; however, development must be consistent with the General Plan and with regional plans that are based on the land use pattern of the General Plan. As the proposed project does not change any land use designation, all of the local and regional plans associated with GHG remain unchanged. Furthermore, existing regulations that would apply to any future residential development, including the California Green Building Standards Code and California’s Title 24 Building Energy Efficiency Standards, would substantially reduce GHG emissions associated with future projects. Compliance with the CBC is part of the building permit process and does not require CEQA to apply. The County verifies compliance with the CBC as part of the building permit issuance and

construction inspection process. As a result, the proposed project would result in no impacts to greenhouse gases.

2.9 HAZARDS AND HAZARDOUS MATERIALS

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.9.1 Setting

The Seismic and Public Safety Element of the Imperial County General Plan contains a set of goals and objectives for land use planning and safety, emergency preparedness, and the control of hazardous materials. Goal 3 of the Safety Element is to protect the public from exposure to hazardous materials and wastes. In addition, various objectives are included to support that goal (Imperial County 1997).

2.9.2 Discussion

- a-d) **No Impact.** The proposed Housing Element is a policy-level document that encourages the provision of a range of housing types and affordability levels and does not include specific development proposals or development entitlements. However, future development of residential units constructed consistent with the General Plan could create a significant hazard to future residents through the exposure to the routine transport, use, or disposal of hazardous materials; through exposure to reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment; through the exposure of the handling or emission of hazardous materials; or by locating residential development on a site included on a list pursuant to Government Code Section 65962.5.

All sites considered under the proposed project would be evaluated for environmental hazards, including aurally deposited lead, asbestos, and lead-based paints. Federal and state regulations govern the renovation and demolition of structures where materials containing lead and asbestos are present. These requirements include ICAPCD Rules and Regulations pertaining to asbestos abatement, Construction Safety Orders 1529 (pertaining to asbestos) and 1532.1 (pertaining to lead) from Title 8 of the California Code of Regulations, Part 61, Subpart M of the Code of Federal Regulations (pertaining to asbestos), and lead exposure guidelines provided by the United States Department of Housing and Urban Development. Asbestos and lead abatement must be performed and monitored by contractors with appropriate certifications from the state Department of Health Services.

Future sites would be evaluated for the potential to release hazardous materials into the environment. All contaminated waste encountered would be required to be collected and disposed of at an appropriately licensed disposal or treatment facility. Furthermore, strict adherence to all emergency response plan requirements set forth by the County would be required through the duration of the construction phase. Any future development that occurs will be evaluated by County staff, and if residential development would potentially have adverse effects related to hazardous materials, the project would be subject to conformance with applicable regulations. All businesses in the county handling hazardous materials are subject to the hazardous materials and regulations of the Imperial County Public Health Department.

Imperial County and other state and local agencies, such as the Department of Toxic Substances Control, regulate hazardous materials in coordination with one another. The County enforces CCR Title 26 to reduce impacts associated with accidental release from the transportation of hazardous materials on roads in the county, and the potential for an increased demand for incident emergency response. Moreover, the Imperial County Public Health Department enforces workplace regulations that are applicable to businesses and public facilities addressing the use, storage, and disposal of flammable and hazardous materials, pursuant to Title 8, *California Occupational Safety and Health Regulations (Cal/OSHA)*, of the CCR. Additionally, the Environmental Health Department also enforces leak prevention measures for underground storage tanks.

Generally, residential developments do not include routine transportation, use, or disposal of hazardous materials that could create a significant hazard to the public. In addition, the proposed project does not contain policies that would conflict with the County's existing Land Use Element and Seismic and Public Safety Element, which address hazardous materials and hazards. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact hazardous materials. Therefore, there would be no impacts as a result of the implementation of the proposed project.

- e) **No Impact.** The proposed project does not provide site-specific design or development proposals, nor does it grant development entitlements. All future housing development would be required to comply with land use regulations and safety standards surrounding airports in the county. The proposed Housing Element does not change the land use map and does not include any zoning changes. Therefore, the implementation of the proposed project would result in no impacts associated with airport-related hazards.

- f) **No Impact.** The proposed project does not identify specific development proposals. Future development within the County would be required to comply with local regulations, including the General Plan and Zoning Ordinance. Both natural and man-made hazards are addressed in the Imperial County General Plan. The Seismic and Public Safety Element contains a set of goals and objectives for land use planning and safety, emergency preparedness, and the control of hazardous materials. The goals and objectives, together with the implementation programs and policies provide direction for development. As identified in the Seismic and Public Safety Element of the County of Imperial General Plan (County of Imperial 1997), the Imperial County Emergency Plan addressed the County's planned response to extraordinary emergency situations associated with natural disasters, technological incidents, and nuclear defense operations. The proposed project does not provide site-specific design or development proposals, nor does it grant development entitlements. All future housing development would be required to comply with circulation plans and would be required to provide emergency access points and safe vehicular travel. In addition, local building codes would be followed to minimize flood, seismic, and fire hazard. The County consults and advises

police, fire, and the 911 system of any road construction that may affect use of area roadways. Because all construction that would affect emergency use of the roadways will be reported to the appropriate agencies and would be temporary during the construction phase, and any specific access requirements made part of the encroachment permit and/or authorization to construct, and final construction would not impair use of the roadways, implementation of the proposed project would have no impact pertaining to conflicting with the Local Hazard Mitigation Plan.

- g) **No Impact.** Imperial County is in a Local Responsibility Area (LRA) with primarily Moderate Fire Hazard Severity Zones (Cal Fire 2007). The identified Vacant Sites are zoned LRA Moderate Fire Hazard Severity Zones or Unzoned (Cal Fire 2007). The County of Imperial Fire Prevention and Explosives Ordinance, sections 53101-53300, contains provisions for the purpose of prescribing regulations governing conditions hazardous to life and property from fire or explosion. Measures in this Ordinance include abatement of weeds and other vegetation. All new development would be required to comply with the latest California Building and Fire Codes, as well as be in accordance with local regulations. The proposed Housing Element is a policy-level document that does not provide site-specific design or development proposals. Therefore, the implementation of the proposed project would have no impact on exposing people or structures to wildland fires.

2.10 HYDROLOGY AND WATER QUALITY

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would:				
i) result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
ii) substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iv) impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.10.1 Setting

Imperial County falls within the boundaries of the Regional Water Quality Control Board's Colorado River Basin Plan (SWRCB 2020). The Colorado River Basin Region covers approximately 13 million acres (20,000 square miles) in the southeastern portion of California. Geographically, the region represents only a small portion of the total Colorado River drainage area which includes portions of Arizona, Nevada, Utah, Wyoming, Colorado, New Mexico, and Mexico. A significant geographical feature of the region is the Salton Trough, a structural extension of the Gulf of California, which contains the Salton Sea and the Coachella and Imperial Valleys. The two valleys are separated by the Salton Sea, which covers the lowest area of the depression. In prehistoric times, it contained the ancient Lake Cahuilla (SWRCB 2020).

The intent of the Basin Plan is to provide definitive guidelines and give direction to the full scope of the Regional Board activities that serve to optimize the beneficial uses of the state waters within the Colorado River Basin Region of California by preserving and protecting the quality of these waters (SWRCB 2019). The Regional Board implements the Basin Plan by issuing and enforcing waste discharge requirements to persons, which can include individuals, communities, or businesses whose waste discharges may affect water quality. These requirements can be either state Water Discharge Requirements for discharges to land or federally delegated National Pollutant Discharge Elimination System permits for discharges to surface water. Discharges are required to meet water quality objectives and thus protect beneficial uses (SWRCB 2019).

The New and Alamo Rivers convey agricultural irrigation drainage water from farmlands in the Imperial Valley, surface runoff, and lesser amounts of treated municipal and industrial waste waters from the Imperial Valley. The flow in the New River also contains agricultural drainage, treated and untreated sewage, and industrial waste discharges from Mexicali, Mexico. Colorado River water, imported via the All-American Canal, is the predominant water supply and is used for irrigation, industrial, and domestic purposes (SWRCB 2019).

2.10.2 Discussion

- a-e) **No Impact.** Future residential development within the county could result in construction and operational impacts to water quality and discharge standards. Potential impacts during construction include grading and vegetation removal which could expose soil to erosion during construction activities, and operational impacts may include the use of fertilizers, herbicides, and pesticides as well as motor vehicle operation and maintenance. As required by state law, all new residential development projects within the county would be subject to the County's National Pollutant Discharge Elimination System (NPDES) Stormwater Permit (No. CA-0047881) enforced by the Regional Water Quality Control Board (RWQCB). The National Pollutant Discharge Elimination System (NPDES) Stormwater Permit requires that the County impose water quality and watershed protection measures for all development projects and prohibits discharges from causing violations of applicable water quality or from resulting in conditions that create a nuisance or water quality impairments in receiving waters.

Compliance with the provisions of the NPDES and best management practices (BMPs) would reduce erosion and siltation impacts of future development. New development would be required to implement construction and post-construction BMPs in accordance with the County's Stormwater Management Plan. Compliance with the NPDES and the implementation of BMPs such as erosion, runoff, and sediment control would ensure that the proposed Housing Element Update would not conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan.

The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels. The proposed Housing Element Update does not include site-specific design or development proposals, nor does it permit development entitlements. The proposed project does not change any land use zoning and any developments would be consistent with the General Plan EIR. All future development within the county would be required to comply with local regulations, including the General Plan and Land Use Code. Thus, the implementation of the proposed Housing Element Update would have no impact on hydrology and water quality.

2.11 LAND USE AND PLANNING

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Physically divide an established community?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.11.1 Discussion

- a-b) **No Impact.** The proposed Housing Element Update is consistent with the land uses detailed in the County’s General Plan; the proposed Housing Element Update would not remove policies that protect environmental resources. The proposed Housing Element is a policy-level document that encourages the provision of various housing types and affordability levels. The proposed Housing Element Update does not include any specific development proposals, nor does it permit any entitlements for development. The proposed Housing Element Update anticipates land uses that are consistent with the current land use designations of the General Plan Land Use Element and Land Use Map.

Future residential projects will be required to comply with the policies in the General Plan regarding land use and Land Use Code requirements associated with zoning districts, allowable uses, and development standards. All future residential development occurring within the county would be required to be evaluated in accordance with local regulations, including the General Plan and Land Use Code. Thus, the implementation of the proposed Housing Element Update would have no impact to physically dividing a community or conflicting with a land use plan, policy, or regulation adopted to avoid an environmental effect.

2.12 MINERAL RESOURCES

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.12.1 Discussion

- a-b) **No Impact.** The proposed project is policy-level action that identifies sites in the county that could accommodate the County's RHNA. It does not include any site-specific designs or proposal or grant any entitlements for development. Therefore, the proposed project would have no impact on mineral resources and mineral resource recovery sites.

2.13 NOISE

Would the project result in:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Generation of excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.13.1 Setting

Noise policies for the County are established by the Noise Element of the County General Plan. The Noise Element contains goals, policies, and implementation measures for the compatibility of sensitive land uses with noise. The purpose of these goals, policies, and implementation measures is to reduce the various potential effects of noise on people. The Noise Element sets maximum allowable noise exposure from both transportation and stationary sources. Additionally, the Land Use Code has specific standards for development near noise sensitive uses, which include housing developments (Imperial County 2015b).

2.13.2 Discussion

- a-b) **No Impact.** The proposed Housing Element Update encourages the provision of housing types and affordability levels. Housing is not considered a major source of noise in the county, though placing housing adjacent to major sources of noise could expose people to temporary or permanent noise levels in excess of acceptable standards. However, the Housing Element is a policy-level document that does not include any specific development proposals, nor does it grant any entitlements for development. While the proposed Housing Element does not involve the construction or expansion of residential land uses, all future development in the county would be required to adhere to General Plan policies and Land Use Ordinance requirements pertaining to noise. All future development would be subject to the noise standards contained in the Imperial County

Code of Ordinances Title 9, Division 7: Noise Abatement and Control, which specifies noise level limits, establishes standards for acceptable exterior and interior noise levels, and describes how noise shall be measured. In addition, Section 90702.00(A) of Division 7 requires noise levels to be measured at the property line. Compliance with applicable codes is required, and verification is part of the building permit and inspection process. The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact noise. Additionally, the proposed project does not change any land use designations and would be consistent with the General Plan EIR. Therefore, implementation of the Housing Element would have no impact related to a temporary or permanent increase in noise levels, or excessive noise levels.

- c) **No Impact.** The proposed Housing Element is a policy-level document that does not provide site-specific development proposals, nor does it grant development entitlements that would expose people to excessive noise levels. As the proposed Housing Element Update would be consistent with the existing land use designations of the General Plan, the proposed project would not expose people to excessive noise levels from airports or airstrips. Therefore, no impact related to airport noise would occur.

2.14 POPULATION AND HOUSING

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.14.1 Setting

Imperial County’s share of the 2021–2029 RHNA planning period is 4,301 units for the unincorporated areas for all income levels. The Housing Element Update identifies the potential for development of up to 17,472 new housing units at full buildout of the county’s existing vacant lot inventory.

2.14.2 Discussion

- a) **No Impact.** The proposed Housing Element Update contains housing goals intended to encourage housing to meet the County’s housing needs. The expectation is that as growth occurs consistent with the existing General Plan, housing would be provided that serves all income levels of the county. The proposed Housing Element is a policy-level document that encourages, but does not require, the provision of a range of housing types and affordability levels. The proposed Housing Element Update does not include specific development proposals, nor does it allow for entitlements for development that would induce population growth. As the proposed project does not increase the amount of land available for housing, and all development must be consistent with the existing General Plan, subsequent development is considered consistent with the projected growth in the County’s General Plan. Implementation of the proposed Housing Element Update would not induce substantial unplanned population growth within the county; therefore, no impact would occur.
- b) **No Impact.** The proposed Housing Element Update is a policy-level document that encourages the provision and preservation of various housing types and affordability levels to meet Imperial County’s housing needs. Implementation of the proposed Housing

Element Update would not displace existing people or housing within the county; therefore, no impact would occur.

2.15 PUBLIC SERVICES

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
i) Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
ii) Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iii) Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iv) Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
v) Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.15.1 Setting

Fire Protection

Imperial County encompasses approximately 4,597 square miles. The Imperial County Fire Department (ICFD) serves a large rural area including all unincorporated areas of Imperial County, Seeley, Heber, Palo Verde, Ocotillo, Niland, and the City of Imperial. ICFD serves these areas with stations staffed with County personnel or contract staff. In addition, the ICFD also provides emergency services such as Advanced Life Support (ALS) and Basic Life Support (BLS) (ICFD 2021).

ICFD provides a wide array of fire prevention services focused on improving and maintaining fire and life safety within the community. Fire prevention activities ensure businesses, structures, open spaces, and construction projects are in compliance with adopted fire codes, standards, and ordinances. ICFD currently enforces the 2010 California Fire, Building, Electrical, County Ordinances, as amended by the County of Imperial Land Use Ordinance, in addition to National Fire Protection Association standards; Title 19, of the California Public Safety Code; and, the California Health and Safety Code (ICFD 2021).

Police Department

The Imperial County Sheriff's Office (ICSO) provides general law enforcement, detention, and court services for the residents, business owners, and visitors of Imperial County. Sheriff substations are located in the communities of Brawley, Palo Verde, Niland, Salton City, and Winterhaven (ICSO 2021).

Schools

Imperial County contains 14 school districts serving K-12, a community college, and various other public and charter colleges. The schools within Imperial County are located in the communities of Brawley, El Centro, Calexico, Calipatria, Heber, Holtville, Imperial, Seeley, Westmorland, and Winterhaven (ICOE 2021).

Parks and Recreational Facilities

Imperial County offers seven county parks, a county community center, and a museum. The various cities throughout the county provide parks, community centers, and recreational facilities within each city.

2.15.2 Discussion

- a) i-v) **No Impact.** The proposed project does not provide specific development proposals, nor does it grant development entitlements. Future development as a result of the implementation of the General Plan could result in an increase in demand for public services. The proposed project does not involve the construction or expansion of any residential land uses and would not result in the need for expanded public services beyond what was considered in the General Plan. Additionally, prior to issuance of any building permit, a project applicant is required to pay development impact fees which would address potential impacts to public services. Thus, implementation of the proposed project would have no impact regarding public services.

2.16 RECREATION

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.16.1 Setting

Imperial County offers a wide variety of recreational opportunities such as hiking, nature walks, and sightseeing. Parks and recreation in Imperial County are enhanced by the natural resources of the Sonoran Desert, including the mountains, sandy hills, Colorado River, and Salton Sea. Because of the varied terrain throughout the county, abundant opportunities for recreation exist, such as hiking, boating, fishing, hunting, and off-highway activities. Many of these opportunities are located on land under federal or state jurisdiction, but multiple smaller parks are located in the urban areas of the county. The county also has outdoor recreation facilities including sports fields, a skate park, and basketball courts. State parks such as Herber Dunes State Vehicular Recreation Area and Picacho State Recreation Area offer camping facilities, passive recreational opportunities, and active recreational facilities. In addition, the Imperial County Public Works Department operates five parks: Sunbeam Lake Park, Wiest Lake Park, Red Hill Marina Park, Ocotillo Community Park, and Palo Verde Park. These County parks offer a variety of passive and active recreation opportunities, including playground equipment, basketball courts, picnic tables, barbecue grills, campsites, walking trails, boating and fishing opportunities, and open space for passive recreation. The cities within Imperial County each manage various local parks and community centers. The state and federal governments manage large areas of open space, state and federal protected areas, and a number of wilderness areas in Imperial County, the largest being the California Desert Conservation Area under BLM jurisdiction. (Imperial County 2016).

2.16.2 Discussion

- a-b) **No Impact.** The proposed project does not change General Plan land use designations or zoning districts in the county. None of the General Plan policies that affect recreation would be affected by the proposed project. Thus, implementation of the proposed project would have no impact regarding recreation.

2.17 TRANSPORTATION

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, or roadway, bicycle, and pedestrian facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Would the project conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Adversely affect rail, waterborne or air traffic?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.17.1 Setting

Roadways

Imperial County transportation network is dependent upon Interstate (I) 8 for west and east traffic connections to San Diego and Arizona, respectively. Northern connectivity to Riverside County is provided by SR 86 and I 111. Existing regional access to the County of Imperial is provided via I 8, SR 111, SR 78, SR 86, SR 98, SR 115, SR 7, and SR 186. Within the county, the road network has a unique function, providing for a range of traffic movements, the most significant of which are the regional and international freight traffic (a major portion of which is agricultural) and the cross-border tourism activity (Imperial County 2008).

Airports

The primary public use airports in Imperial County are: Imperial County Airport located in the City of Imperial on SR 86; Calexico International Airport located west of Calexico on Anza Road; Brawley Municipal Airport located at the intersection of Ken Bemis Drive and Jones Street in northeast Brawley; Cliff Hatfield Memorial Airport located on West Main Street in Calipatria; Holtville Airport located seven miles northeast of Holtville on Norrish Road; and the U.S. Naval Air Facility located six miles west of El Centro on Bennett Road. There are several other private airstrips located throughout Imperial County serving principally crop-dusting operations (Imperial County 2008).

Railroads

The Union Pacific Railroad, formerly called the Southern Pacific Railroad, main line enters the eastern border near Winterhaven and then bears northwest and leaves the county just east of the Salton Sea. This line serves the Los Angeles area and northward in California and the balance of the United States eastward. There is a branch line from this main line at Niland that provides rail service to Calipatria, Brawley, Imperial, El Centro, Calexico, and Mexico. Another branch line of the Union Pacific, the Holton Interurban Railroad, provides service to east El Centro. The San Diego and Arizona Eastern Railroad, also a subsidiary of the Union Pacific Railroad, runs between El Centro and San Diego. It presently provides rail service only between El Centro and the U.S. Gypsum plant in Plaster City (Imperial County 2008).

2.17.2 Discussion

- a) **No Impact.** The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels, but does not provide specific development proposals, nor does it grant development entitlements that would adversely impact programs, plans, policies, or ordinances. The proposed project does not change any land use designations and new development in the county would be consistent with the General Plan which could result in increased vehicle traffic on public roadways. The proposed project does not include any site-specific designs or proposals or grant any entitlements for development. Therefore, the proposed Housing Element Update would not conflict with any program, plan, ordinance, or policy addressing the circulation system; no impact would occur.
- b) **No Impact.** The proposed Housing Element Update does not provide for specific development or design proposals, nor does the proposed project result in the change of location or density of housing allowed by the existing General Plan. Thus, the project does not result in changes to vehicle miles traveled. Therefore, as the proposed Housing Element Update does not result in changes to existing conditions, no impact would occur.
- c-d) **No Impact.** The proposed Housing Element is a policy-level document that does not grant development entitlements, nor does it provide for specific development or design proposals such as emergency access, site design, or parking. Future development would be required to comply with General Plan policies related to traffic and circulation, as well as County development standards for roadway improvements and driveway design. Compliance with these requirements is verified at the time of development permit approval (i.e., grading, building) and would therefore remain unaffected by the proposed project. As a result, the proposed Housing Element Update would have no impact to increasing hazards due to design features and incompatible uses or resulting in inadequate emergency access.
- e) **No Impact.** The proposed Housing Element is a policy-level document, and does not include specific development or design proposals, nor does it permit development entitlements. The proposed project does not change any zoning designations and would

not affect existing railway or air traffic. Future development as a result of the proposed project would not impact rail, waterborne, or air traffic in the county as all development must be within private property.

2.18 TRIBAL CULTURAL RESOURCES

Would the project cause a substantial adverse change in the significance of a tribal cultural resources, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape, that is geographically defined in terms of the size and scope of the landscape, sacred place or object with cultural value to a California Native American tribe, and that is:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k), or	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resources Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.18.1 Discussion

- a-b) **No Impact.** The proposed Housing Element Update is a policy-level document that encourages the provision of a range of housing types and affordability levels. The proposed Housing Element Update does not include site-specific project designs or development proposals, nor does it permit development entitlements.

In accordance with SB 18, the Native American Heritage Commission (NAHC) was contacted to obtain a list of tribes that may have cultural association with the project area. The NAHC provided a list of 32 tribes. Pursuant to the requirements of AB 52, on March 26, 2021, the County notified all 32 tribes that requested to be alerted of new projects. The County did not receive any responses during the consultation period.

2.19 UTILITIES AND SERVICE SYSTEMS

Would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment, or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry, and multiple dry years?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.19.1 Setting

Water

The Imperial Valley depends on the Colorado River for its water, which Imperial Irrigation District (IID) transports, untreated, to delivery gates for agricultural, municipal, industrial (including geothermal and solar energy), environmental (managed marsh), recreational (lakes), and other non-agricultural uses. IID supplies cities, communities, institutions, and Southern California Water Company with untreated water that they treat to meet state and federal drinking water guidelines before distribution to their customers. Industries outside the municipal areas treat the water to required standards of their industry. The IID Water Department tracks nearly

4,000 raw water service accounts required by the California Department of Public Health (CDPH) to have alternate drinking water service. The District maintains a small-acreage pipeline and drinking water database and provides an annual compliance update to CDPH (EGI 2019).

Drainage

Imperial County is subject to regulation by the California State Water Resources Control Board (Water Board) under NPDES general permit and waste discharge requirements for storm water discharges from small municipal separate storm sewer systems Order No. 2013-0001-dwq. The Phase II Municipal Separate Storm Sewer System (MS4) Permit that became effective in July 2013 replaced the previous order in effect since April 2003. The Phase II MS4 Permit is a General Permit issued by the Water Board pursuant to section 402 of the federal Clean Water Act and implementing regulations (Code of Federal Regulations Title 40, Part 122) adopted by the United States Environmental Protection Agency, and Chapter 5.5, Division 7 of the California Water Code. These regulations apply to point discharges from MS4 to waters of the state for which the County owns and operates (Imperial County 2021).

Solid Waste

Imperial County Public Works Solid Waste and Recycling Division administers and operates nine landfills. Each landfill requires a separate permit which is subject to review every five years (Imperial County 2021).

2.19.2 Discussion

- a-c) **No Impact.** Future development within the county would require adequate increased domestic water service, including water supplies, stormwater system, and wastewater treatment capacity, or individual wells and septic systems. The residential sites identified in the proposed Housing Element Update within the county, where stormwater drainage, electric power, natural gas, and telecommunications facilities already exist, would be required to comply with the County standards for development and connection.

Development Impact Fees adopted by the County to offset the cost of infrastructure are based on the development potential of the General Plan and are collected at the time of building permit issuance. The proposed project does not change any of the existing land use designations in the Land Use Element of the General Plan that were used to calculate development impact fees. The proposed Housing Element Update is a policy-level document that encourages development consistent with the General Plan to provide a variety of housing types and affordability levels, and does not include specific development proposals, nor does it grant entitlements for development. However, future development, could increase demand for water and wastewater service which could result in the exceedance of wastewater treatment requirements, and the need for new wastewater and water facilities, or the expansion of existing facilities. However, since the land use designation is not changed, the impact would be consistent with the General

Plan EIR. Therefore, the implementation of the proposed project would have no impact to the relocation, construction, or expansion of utilities facilities.

- d-e) **No Impact.** The proposed Housing Element Update is a policy-level document that encourages the provision of a variety of housing types and affordability levels, and does not include specific development proposals, nor does it grant entitlements for development. Future development of residential units constructed consistent with the General Plan within the county would increase the demand for solid waste services and would increase the amount of solid waste generated and sent to landfills. AB 939, which require recycling programs that result in a 50-percent diversion away from landfills, would apply to new development. Since the land use designation is not changed, the impact would be consistent with the General Plan EIR. Thus, the implementation of the proposed Housing Element Update would have no impact regarding solid waste.

2.20 WILDFIRE

If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.20.1 Discussion

- a) **No Impact.** Imperial County is located in an LRA with primarily Moderate Fire Hazard Severity Zones (Cal Fire 2007). The identified Vacant Sites are zoned LRA Moderate Fire Hazard Severity Zones or Unzoned (Cal Fire 2007). The proposed Housing Element is a policy-level document that does not identify specific development proposals. Future development within the county would be required to comply with local regulations, including the General Plan and Zoning Ordinance. Since the proposed project does not change the land use designation, the impacts would be consistent with the General Plan EIR. Thus, the implementation of the proposed Housing Element Update would have no impact to impairing an adopted emergency response or evacuation plan.
- b) **No Impact.** There are three primary factors that are used in assessing wildfire hazards: topography, weather, and fuel. Future residential development would not impact weather conditions. The proposed project does not propose changes to land use designations or land use patterns, and therefore, subsequent housing developments would not be proposed within areas identified as wildfire hazards. Therefore, the implementation of the proposed Housing Element Update project would have no impact on exacerbating wildfire risks.

- c) **No Impact.** Future development may require new infrastructure and utilities, which would be installed to meet service requirements. However, the proposed project is a policy-level document that does not provide site-specific development or design proposals, nor does it grant entitlements for development. All improvements will be subject to County development standards and would be verified as part of either a building permit or construction approval. The proposed Housing Element Update does not change land use zone designation and only identifies sites for housing, therefore all infrastructures will be built according to the General Plan. The implementation of the proposed project would have no impacts on exacerbating fire risk due to the installation or maintenance of associated infrastructure.

- d) **No Impact.** The proposed Housing Element is a policy-level document that does not provide site-specific design or development proposals. The proposed project does not change any land use designation and the impacts would be consistent with the General Plan EIR. Therefore, there would be no impacts to exposing people or structures to significant risk from downslope or downstream flooding or landslides as a result of runoff, post-fire slope instability, or drainage change as a result of the implementation of the proposed Housing Element Update.

2.21 MANDATORY FINDINGS OF SIGNIFICANCE

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.21.1 Discussion

- a-c) **Less Than Significant Impact.** The proposed Housing Element Update is a policy-level document that encourages the provision of a variety of housing types and affordability levels. The proposed project does not include specific development proposals, nor does it grant development entitlements. All future residential development within the county would be required to be in accordance with local regulations, including the General Plan and Land Use Ordinance. Further, the proposed project does not change the land use designation and therefore would be consistent with the impacts in the General Plan related to biologically sensitive areas. Thus, the proposed project would result in less than significant impacts to the environment, wildlife, or human beings as a result of environmental degradation.

4. Findings

This is to advise that the County of Imperial, acting as the lead agency, has conducted an Initial Study to determine if the project may have a significant effect on the environment and is proposing this Negative Declaration based upon the following findings:

- The Initial Study shows that there is no substantial evidence that the project may have a significant effect on the environment and a NEGATIVE DECLARATION will be prepared.
- The Initial Study identifies potentially significant effects but:
- (1) Proposals made or agreed to by the applicant before this proposed Mitigated Negative Declaration was released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur.
 - (2) There is no substantial evidence before the agency that the project may have a significant effect on the environment.
 - (3) Mitigation measures are required to ensure all potentially significant impacts are reduced to levels of insignificance.

A MITIGATED NEGATIVE DECLARATION will be prepared.

If adopted, the Negative Declaration means that an Environmental Impact Report will not be required. Reasons to support this finding are included in the attached Initial Study. The project file and all related documents are available for review at the County of Imperial, Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 (442) 265-1736.

NOTICE

The public is invited to comment on the proposed Negative Declaration during the review period.

7-15-21 
Date of Determination Jim Minnick, Director of Planning & Development Services

The Applicant hereby acknowledges and accepts the results of the Environmental Evaluation Committee (EEC) and hereby agrees to implement all Mitigation Measures, if applicable, as outlined in the MMRP.

I. Introduction

The Housing Element of the General Plan is a comprehensive assessment of current and future housing needs in Imperial County and proposed actions to facilitate the provision of housing to meet those needs for households of all income levels. Policies contained in this element are an expression of the statewide housing priority to allow for the “attainment of decent housing and a suitable living environment for every Californian,” as well as a reflection of the unique needs and concerns of the Imperial County community.

The purpose of this Housing Element is to identify and establish the County’s policies with respect to meeting the needs of existing and future residents in Imperial County. It establishes policies that will guide County decision-making and sets forth an action plan to implement its housing goals over the next eight years. The commitments are in furtherance of the statewide housing priority as well as a reflection of the concerns unique to Imperial County.

Housing Element Requirements

California Government Code Section 65583 requires the Housing Element to include the following components:

- A review of the previous element’s goals, policies, programs, and objectives to ascertain the effectiveness of each of these components, as well as the overall effectiveness of the Housing Element.
- An assessment of housing needs and an inventory of resources and constraints related to meeting these needs.
- An analysis and program for preserving assisted housing developments.
- A statement of community goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.
- A program that sets forth an eight-year planning period schedule of actions that the County is undertaking, or intends to undertake, in implementing the policies set forth in the Housing Element.

Housing Element Organization

This Housing Element is organized into the following sections:

- **Introduction:** This section provides information on the State of California’s requirements, the purpose of the Housing Element, the organization of the document, and General Plan consistency.
- **Review of Previous Housing Element:** This section contains an evaluation of the prior Housing Element and its accomplishments and analyzes differences between what was projected and what was achieved.

- **Goals, Policies, and Programs:** This section sets forth the County's goals, policies, and programs that are designed to address the housing needs in Imperial County. Based on the findings of all of the previous sections, the Goals, Policies, and Programs section identifies actions the County will take to meet local housing goals, quantified objectives, and address the housing needs in Imperial County.
- **Public Participation:** Describes the opportunities the County provided for public participation during the preparation of the updated Housing Element.

Appendix A is organized into the following sections:

- **Housing Needs Assessment:** This section focuses on demographic information, including population trends, ethnicity, age, household composition, income, employment, housing characteristics, housing needs by income, and housing needs for special segments of the population. This section also outlines the characteristics of the community and identifies those characteristics that may impact housing need and availability.
- **Housing Resources and Opportunities:** This section describes the County's housing resources, historic development patterns, and housing opportunities as well as the County's existing housing stock and the potential areas for future housing development. This section also discusses opportunities for energy conservation, which can reduce costs to homeowners and infrastructure costs to the County. With a reduction in basic living costs through energy savings, more households may be able to afford adequate housing.
- **Housing Constraints:** This section analyzes potential governmental and non-governmental constraints to housing development in Imperial County. This includes the County's planning, zoning, and building standards that directly affect residential development patterns as well as influence housing availability and affordability. Potential non-governmental constraints include the availability and cost of financing, the price of land, and the materials for building homes, as well as natural conditions that affect the cost of preparing and developing land for housing, and the business decisions of individuals and organizations (some examples are home building, finance, real estate, and rental housing that impact housing cost and availability).

II. Review of Previous Housing Element

The 2014-2021 Housing Element included goals, policies, and programs intended to produce an adequate supply of safe and affordable housing for residents of unincorporated Imperial County. The Review of the previous Housing Element describes the County's progress in implementing each Housing Element. The discussion considers the effectiveness of each program and the appropriateness of continuing the program through the new planning cycle.

As detailed in the table, the County made significant progress in facilitating the development of housing to meet the needs of households of all socioeconomic levels through the adoption of several Specific Plans that call for new housing in a wide variety of types and densities.

Program	Implementation Status	Action
<p>Program 1.1.1 Maintain a land inventory of all government and publicly owned surplus sites (including state and federally owned land) in the county that have potential for residential development for extremely low-, very low-, low-, and moderate-income households.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually</p>	<p>The County Executive Office maintains a list of all land owned by the County, including land suitable for residential and non-residential uses.</p> <p>Modified. Covered under new program 1.</p>
<p>Program 1.1.2 The County will provide technical assistance to developers in accessing local, state, and federal funding for affordable housing by: (1) applying for such funding on behalf of affordable housing developers; or (2) providing technical assistance or documentation necessary to support applications for funding by affordable housing developers upon request. Technical assistance will include, but not be limited to:</p> <ul style="list-style-type: none"> • Provision of data or documents within the County's possession that will contain necessary information to assist in the preparation of a successful grant application, • Letter of support (for projects that have received permit approvals by the County), and • Assistance from the County's staff to locate potential sources of matching funds. 	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually and ongoing, as needed</p>	<p>The Imperial County Workforce and Economic Department (ICWED) plans to submit a technical assistance application for an update to the Colonias Master Plan in 2021.</p> <p>Modified. Covered under new program 12.</p>

Program		Implementation Status	Action
<p>Program 1.1.3 Utilize adequate sites inventory and housing condition survey results to support new construction of housing affordable to extremely low-, very low-, and low-income persons by designating sites in the unincorporated area of the County that are appropriate for affordable housing types, including emergency shelters, transitional housing, mobile homes, multifamily housing types, and farmworker housing.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Review annually, support ongoing</p>	<p>In January 2020, the County Board of Supervisors approved the issuance of bonds by the California Municipal Finance Authority for the benefit of the Heber del Sol Family Apartments affordable multifamily project permitted by the County. The project is planned for 47 income-restricted units and one unrestricted manager's unit in the Heber community and is funded by state and federal Low-Income Housing Tax Credit (LIHTC) funds. The County allowed parking reductions for this project. Construction was expected to begin in June 2020 but has been delayed due to the COVID-19 pandemic.</p>	<p>Modified. Covered under new program 1.</p>
<p>Program 1.1.4 Continue to allow the development of manufactured housing and mobile homes in the R1, R-2, R-3, R-4, A-1, A-2, A-3, S-1, and S-2 zones.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County allows the development of manufactured and mobile homes in the R-1, R-2, R-3 (i.e. duplex), R-4, A-1, A-2, A-3, C-1, C-2, C-3 (i.e. mobile home park), S-1, and S-2 zones. During the planning period (2014-2021), the County permitted 32 mobile homes on private lots and 106 mobile homes in parks.</p>	<p>Completed. Delete.</p>
<p>Program 1.1.5 Continue to ensure appropriate zoning that allows for medium- and high-density housing for extremely low-, very low-, low-, and moderate-income housing throughout the unincorporated County.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>High-density zones (R-3, R-4) allow up to 29 units per acre, suitable for medium- and high-density housing for lower-income and moderate-income housing. The Heber del Sol Family Apartments were permitted for 48 units, 47 of which will be affordable to low-income households, in the R-3 zone. One other multifamily duplex was permitted in 2016 with no affordability restrictions. Due to market conditions, development in the County during the previous planning period was primarily</p>	<p>Modified. Covered under new program 1.</p>

Program		Implementation Status	Action
		mobile homes (138 total) and single-family units (19 total), despite the availability of appropriately zoned land for medium- and high-density housing.	
<p>Program 1.1.6 Continue to encourage Planned Developments through the Specific Plan development agreement process to achieve innovative housing designs.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>No Specific Plans were approved during the previous planning period. The owners of the McCabe Ranch II, Rancho Los Lagos, and 101 Ranch approved Specific Plans have not developed the projects. The County has worked with the owners to grant map extensions for those needed to encourage development.</p>	<p>Continue. New program 3.</p>
<p>Program 1.1.7 Continue to allow the development of housing for farmworkers in the A-2, A-3, AM-1, and AM-2 zones.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The A-2, A-3, and AM-1 zones allow a single-family unit by right, and farm labor housing with a conditional-use permit, with no limitations on the number of units. The AM-2 zone allows a single-family unit, accessory dwelling unit (ADU) incidental to the primary use, and farm labor housing by right.</p>	<p>Completed. Delete.</p>
<p>Program 1.1.8 To ensure continued compliance with the Employee Housing Act, especially California Health and Safety Code Sections 17021.5 and 17021.6, the County has set forth the following conditions for affordable housing:</p> <ul style="list-style-type: none"> • Employee housing providing accommodations for six or fewer employees shall be deemed a single-family structure with a residential land use designation. • For the purpose of all local ordinances, 	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County lists employee housing in Division 5 and defines it in the 2014-2021 Housing Element. The Zoning Code refers to employee housing as farm labor housing, meeting the needs of the same population. The A-2, A-3, and AM-1 zones allow farm labor housing with a conditional-use permit and the AM-2 zone allows farm labor housing by right.</p>	<p>Continue. Covered under new program 7.</p>

Program		Implementation Status	Action
<p>employee housing shall not be included within the definition of a boarding house, rooming house, hotel, dormitory, or other term that implies the employee housing is a business run for profit or differs in any other way from a family dwelling.</p> <ul style="list-style-type: none"> • The use of a family dwelling for purposes of employee housing serving six or fewer persons shall not constitute a change of occupancy. • The review will ensure consistency with the following concerning employee housing consisting of no more than 36 beds in group quarters or 12 units or spaces designed for use by a single family or household. • Employee housing shall not be deemed a use that implies that the employee housing is an activity that differs in any other way from an agricultural use. • No conditional-use permit, zoning variance, or other zoning clearance shall be required of this employee housing that is not required of any other agricultural activity in the same zone. • The permitted occupancy in employee housing in an agricultural zone shall include agricultural employees who do not work on the property where the employee housing is located. 			
<p>Program 2.1.1 Continue to support the efforts of the Imperial Valley Housing Authority by</p>	<p>Responsible Agency: Planning and Development Services</p>	<p>The County continues to support Imperial Valley Housing Authority. The Planning and</p>	<p>Modified. Covered</p>

Program		Implementation Status	Action
<p>providing technical assistance in funding acquisition and the construction of affordable housing units by assisting them with developing innovative and cost-effective construction methods, including the use of solar energy, xeriscaping, and green building materials.</p>	<p>Department, Imperial Valley Housing Authority</p> <p>Funding Source: Grant funds, General Funds (staff time)</p> <p>Timetable: Review coordinated efforts annually, support ongoing</p>	<p>Development Services offers technical assistance in applying for funding and incentives for high density affordable housing. While no new affordable units were constructed or acquired by the Housing Authority during the previous planning period, the County is committed to supporting this work and has included more specific strategies in the 6th cycle programs.</p>	<p>under new program 4.</p>
<p>Program 2.2.1 Encourage innovative and cost-effective construction methods to reduce housing costs by providing incentives such as density bonus units, reduction in development standards, fee waivers/deferrals, and providing assistance in accessing state and federal subsidies. The County will also continue to contract with outside firms to perform plan check reviews for more complex projects in an effort to provide timely development approvals.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 5, Section 90305.00 of the County's Land Use Ordinance provides for density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential projects of 5 or more units within which at least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. No projects requested density bonuses in the previous planning period.</p>	<p>Modified. Covered under new program 4.</p>
<p>Program 2.2.2 The County will promote the use of density bonuses for lower-income units by including information about density bonus units and related incentives on the County's updated website.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p>	<p>Density bonus provisions are listed in Division 3, Chapter 5, Section 90305.0 of the County's Land Use Ordinance. The code provides density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A</p>	<p>Modified. Covered under new program 6.</p>

Program	Implementation Status	Action
	<p>Timetable: Ongoing</p>	<p>density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential projects of 5 or more units within which at least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. The County will promote the use of density bonuses by listing these requirements and opportunities on the County's website.</p>
<p>Program 2.2.3 Increase the supply of affordable housing for special-needs groups by encouraging the development of attached or detached second dwelling units on existing residential lots by providing information to homeowners about second units at the Planning and Development Services Department offices.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County works closely with various community organizations, the Board of Supervisors, the Catholic Church, and other interested churches to pursue opportunities for development of new transitional and supportive housing, as well as other housing types for special-needs group. The County and these groups have identified suitable sites, but none have been developed. Additionally, County approved seven accessory dwelling units (ADU)'s and one Junior ADU in 2020.</p>
<p>Program 2.2.4 Continue to monitor State Density Bonus law to ensure the County's ordinance is in compliance with state regulations.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Annually</p>	<p>Chapter 5, Section 90305.00, of the County's Land Use Ordinance provides for density bonuses for qualified low-income, very low-income, or elderly housing projects in the R-1, R-2, and R-3 zones if central water and central sewer are provided as part of the project. A density bonus of up to 20 percent may be allowed for qualified residential projects, as described previously. A density bonus of 25 percent may be granted for qualified residential</p>

Program		Implementation Status	Action
		projects of 5 or more units within which as least 25 percent of the units are affordable to low- or moderate-income households and/or 10 percent of the units are affordable to lower-income households. The County will update the density bonus in the Code to reflect current State law.	
<p>Program 2.2.5 Allow for the development of mixed-use zoning in the Light Commercial (C-1) and General Commercial (C-2) zoning districts that allow for residential development at up to 29 dwelling units per acre.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 6, Section 90306.01, of Division 3 of the County's Land Use Ordinance establishes the C-1 (Light Commercial) and C-2 (General Commercial) zones as allowing mixed-use development and discourages single-use development. The C-1 zone permits 29 dwelling units per acre and C-2 does not establish a maximum number of allowable dwelling units.</p>	<p>Completed. Delete.</p>
<p>Program 2.2.6 Continue to support the use of federal and state funding resources for meeting local housing needs and programs, especially for households with special needs, particularly seniors and those with disabilities and development disabilities, and lower incomes.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>In 2021, Workforce and Economic Development provided Emergency Rapid Rehousing and Tenant-Based Rental Assistance (TBRA) to homeless clientele through the Homeless Emergency Assistance Program (HEAP) funding through federal funds obtained by the local Continuum of Care.</p> <p>Workforce and Economic Development provided TBRA between 2017 and 2018 and served a total of 150 households. Of the 150 assisted households, 50 were served through the HEAP program in 2020.</p> <p>The County will continue to apply for available funding to meet the needs of the community and plans to submit additional funding</p>	<p>Modified. Covered under new program 9.</p>

Program		Implementation Status	Action
		applications for Community Development Block Grant (CDBG) in early 2021.	
<p>Program 2.2.7 Continue to seek funding from the Joe Serna Jr. Farmworker Housing Grant Program (Serna) for the rehabilitation of existing farmworker units and the construction of new units. The County will also collaborate with agricultural employers to identify sites and funding sources available through the California Department of Housing and Community Development (HCD) and the United States Department of Agriculture (USDA) Rural Development programs for farmworker housing.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds, Serna, CDBG</p> <p>Timetable: As Notices of Funding Availability (NOFAs) are released</p>	<p>Due to limited staff capacity, the County has not applied for funding through the Joe Serna Jr. Farmworker Housing Grant Program or other funding for farmworker housing. As farmworkers are an integral part of the County's community and economy, this program will be strengthened to identify funding during the 2021-2029 planning period.</p>	<p>Modified. Covered under new program 10.</p>
<p>Program 2.2.8 Continue to promote development of assisted rental housing for extremely low-, very low-, low-, and moderate-income persons and families through below-market rate financing through private lenders and possibly with the use of tax-exempt Mortgage Revenue Bonds by providing technical assistance with funding applications and other necessary paperwork.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: California Housing Finance Agency (CHFA)</p> <p>Timetable: Ongoing</p>	<p>The County responds to requests for information and assistance on a project-by-project basis for affordable rental housing. Additionally, the County encourages development of housing for lower-income households through density bonus incentives and coordination with the Board of Supervisors and housing providers. However, no projects requested financing or technical assistance during the previous planning period.</p>	<p>Modified. Covered under new program 12.</p>
<p>Program 2.2.9 Continue to support self-help housing providers to develop affordable homeownership projects for lower-income households and especially agricultural workers by providing technical assistance with funding applications and other paperwork, as well as by helping self-help housing providers secure sites for their developments.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County responds to requests for information and assistance on a project-by-project basis from self-help housing providers for affordable homeownership projects. No questions were received for affordable homeownership projects proposed during the previous planning period.</p>	<p>Modified. Covered under new program 12.</p>

Program		Implementation Status	Action
<p>Program 2.2.10 The County will assist and support local social service agencies in their applications for state and federal funds to provide housing-related services to lower-income households and special-needs groups, particularly those offering supportive housing programs for homeless individuals and families.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing or as requested</p>	<p>In 2021, Workforce and Economic Development provided Emergency Rapid Rehousing and Tenant-Based Rental Assistance (TBRA) to homeless clientele through the Homeless Emergency Assistance Program (HEAP) funding through federal funds obtained by the local Continuum of Care.</p> <p>Workforce and Economic Development is also in the process of preparing to implement a TBRA program, funded by HCD - HOME and two Housing Rehabilitation Programs funded by HCD – CDBG.</p> <p>Subsistence payments funding was awarded through the 16-CDBG-11151 grant. The County began implementation on March 9, 2017, and the program was completed on February 13, 2019. A total of 20 households were assisted.</p>	<p>Modified. Covered under new program 11.</p>
<p>Program 3.1.1 Distribute public information regarding local service organizations, homeless and community assistance programs, including the Torres Martinez Tribal Temporary Assistance for Needy Families (TANF) program, and emergency shelters/transitional housing by maintaining updated information available at the “storefront” locations at the Planning and Development Services Department offices.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Review information and update quarterly, distribution ongoing</p>	<p>Flyers and pamphlets with information on local service organizations, homeless and community assistance programs, and emergency shelters and transitional housing are available in all County offices.</p>	<p>Continue. New program 13.</p>
<p>Program 3.1.2 Assist emergency shelters/transitional housing providers in</p>	<p>Responsible Agency: Planning and Development Services Department</p>	<p>The County Workforce and Economic Development, working closely with the Department of Social Services, implemented the</p>	<p>Modified. acquiring state, federal, and local funding for services for the homeless.	<p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>rapid rehousing program under HEAP, which provides temporary shelter assistance through hotel vouchers.</p> <p>A total of 27 households have received hotel vouchers through the HEAP IC Rapid Re-Housing program. Vouchers ranged from 7-day to 90-day vouchers.</p>	under new program 14.
<p>Program 3.1.3 The County will continue to allow for the development of transitional housing, and per Section 50675:14 of the Health and Safety Code, continue to allow supportive housing as a permitted use in residential districts.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	Transitional housing is currently a permitted use in the R-3, C-2, A-1, and M-1 zones. The County will update Title 9 to allow transitional housing in all zones where residential uses are permitted.	Modified. Covered under new program 15.
<p>Program 3.1.4 Pursuant to Senate Bill 2, continue to allow emergency shelters as a permitted use in the General Commercial (C-2) and Light Industrial (M- 1) zones in the County Land Use Ordinance Title 9.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	Emergency shelters are permitted by right in the C-2 (Medium Commercial) and M-1 (Light Industrial) zones and with a Conditional Use Permit in the A-1 zone. The County received a Lot Merger proposal for the development of a Fire Facility in Seeley with an emergency shelter to be used in lieu of the apparatus room when temperatures reach high levels.	Completed. Delete.
<p>Program 3.1.5 Ensure new developments are compliant with standards outlined in the Americans with Disabilities Act (ADA) for persons with disabilities.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p>	Chapter 7, Section 90307.01 of the County's Land Use Ordinance (Title 9) establishes a process for reasonable accommodation requests for persons with disabilities. The County Building Department reviews development standards for compliance with the ADA regularly during the building permit review process.	Modified. Covered under new program 16.

Program	Implementation Status	Action
<p>Program 3.1.6 Continue to allow supportive housing types for persons with special housing needs, including persons with disabilities and developmental disabilities, in the County Land Use Ordinance Title 9, including the following:</p> <ul style="list-style-type: none"> • Provision for group homes over six residents specifically for the disabled, other than those residential zones covered by state law; • Siting or separation requirements for licensed residential care facilities, to determine the extent to which the local restrictions affect the development and cost of housing; • Any minimum distance requirements in the Land Use Element for the siting of special-needs housing developments in relationship to each other do not impact the development and cost of housing for persons with disabilities; and • Alternate residential parking requirements, including reduction, for developments, including housing types for persons with special housing needs. 	<p>Timetable: Ongoing</p> <p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 7, Section 90307.01 of the County's Land Use Ordinance (Title 9) establishes a process for reasonable accommodation requests for persons with disabilities. Residential care facilities for five or fewer individuals are permitted in the R-1, R-2, R-3 and A-2 zones; residential care facilities for six or fewer individuals are permitted in the R-3, R-4, and A-1 zones; residential care facilities for six or more are allowed in the R-1 and R-2 zones with a Conditional Use Permit. Community care facilities are permitted with a conditional-use permit in the R-3, R-4, A-1, and A-2 zones. The County will update Title 9 to reflect current state law. No supportive housing projects were proposed in the previous planning period.</p>
<p>Program 3.1.7 To address the extremely low-income housing need and ensure compliance with Assembly Bill (AB) 2634, the County Land Use Ordinance Title 9 will continue to explicitly allow single-room occupancy units (SROs) as permitted uses in the Medium- to High-Density Residential (R-3), High-Density Residential (R-4),</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p>	<p>Single-room occupancy is permitted in the R-3, R-4, C-1, C-2, and A-1 zones to provide housing for extremely low-income residents. No applications were received for SROs in the previous planning period.</p>

Program	Implementation Status	Action
General Commercial (C-2), and Limited Agricultural (A-1) zones.	Timetable: Ongoing	
<p>Program 4.1.1 Encourage the development and implementation of housing outreach and education programs to inform the public of available housing opportunities, as well as various assistance programs available to eligible households, by continuing to provide information about the County's housing programs by posting flyers on community boards and at gas stations, schools, and other public places.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update and redistribute assistance program information quarterly or as needed, education programs ongoing</p>	<p>At all Board of Supervisor meetings, the County discusses strategies to encourage housing outreach and education programs; however, there has been no interest in such a program.</p>
<p>Program 4.1.2 Ensure that fair housing enforcement is reviewed periodically to prevent discrimination. Reduce any effects of housing discrimination and prevent future discrimination by referring potential victims of discrimination to the appropriate fair housing agency.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Annually</p>	<p>The County reviewed and amended Division 5 of Title 9 (the Zoning Ordinance) to ensure compliance with fair housing law, and continues to examine land use policies, permitting practices, and building codes to comply with state and federal fair housing laws. Imperial County complies with fair housing law regarding complaints by internally reviewing and responding to fair housing complaints and distributing fair housing information to the real estate industry and posting information in public buildings. To date, no fair housing complaints have been made to the County. Requests for reasonable accommodations are reviewed by the Director or another review authority and fair housing information is distributed to the real estate industry and posted in public buildings.</p>

Program		Implementation Status	Action
<p>Program 5.1.1 Continue to pursue funding for owner-occupied rehabilitation efforts. Rehabilitation efforts should include improving the existing stock of mobile home units.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: CDBG, HOME, other federal/state sources</p> <p>Timetable: Annually apply for funds to support existing owner-occupied rehabilitation program</p>	<p>In 2018, the County was awarded \$500,000 in HOME Grant funding to be used to assist low-income families purchase their first homes and promote homeownership. However, in response to the COVID-19 pandemic, the County chose to redirect this funding to the TBRA program to better meet the needs of the community during this time. Also in 2018, the County was awarded \$700,000 through CDBG for housing rehabilitation in Salton Sea Beach and Heber; each area was awarded \$350,000 for these programs. The County is also working with the City of Calipatria to implement their HOME program. The County will continue to pursue funding for housing rehabilitation programs in the future.</p> <p>The County is still working on conditions to begin the program, expected to be completed in 2021, to begin providing TBRA rent assistance and housing rehabilitation.</p>	<p>Modified. Covered under new program 21.</p>
<p>Program 5.1.2 Continue to implement an active code enforcement and building inspection program to identify existing code deficiencies and encourage improvement of existing substandard dwelling units.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County received and responded to 1,043 notices of violations to the County code during the 2014-2021 planning period. Through responding to these violations, the County identified the most common areas of deficiency are the illegal parking of trailers on vacant lots and overgrown vegetation. The County uses this information to educate residents on their responsibilities and identify areas where additional enforcement is necessary.</p>	<p>Modified. Covered under new program 22.</p>

Program		Implementation Status	Action
<p>Program 5.1.3 The County will update its list of subsidized rental properties on an annual basis and identify units at-risk of converting to market rate. The County will contact the owner(s) of any identified at-risk units to determine their interest in selling the property or maintaining the affordability of the units. The County will work with property owners to apply for federal, state, and local subsidies to ensure the continued affordability of at-risk units and will maintain a list of non-profit organizations that may be interested in the acquisition/rehabilitation of at-risk units.</p> <p>The County will make information regarding tenants' rights and conversion procedures, as well as assistance organizations and information regarding other affordable housing opportunities within the County available to tenants of at-risk units.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Update annually, provide assistance as needed</p>	<p>The County relies on data from the California Housing Partnership Corporation to maintain an updated list of subsidized rental properties.</p>	<p>Modified. Covered under new program 23.</p>
<p>Program 6.1.1 Promote the use of energy conservation measures to "weatherize" existing homes as part of the County's rehabilitation program efforts.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: CDBG, HOME, General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Through the 2018 CDBG funding application, under the Colonias allocation, the County was awarded funding for housing rehabilitation for Salton Sea Beach and Heber. Each area was awarded \$350,000 for these programs.</p>	<p>Continue. Covered under new program 24.</p>
<p>Program 6.1.2 Continue to implement Title 24 Energy Conservation Requirements in housing design and rehabilitation efforts.</p>	<p>Responsible Agency: Planning and Development Services Department</p>	<p>Chapter 1 of Division 10 of the County's Land Use Ordinance (Title 9) establishes that the County will enforce all building regulations of Title 24, including Energy Conservation Requirements.</p>	<p>Delete.</p>

Program	Implementation Status	Action	
	<p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>		
<p>Program 7.1.1 Facilitate the flow of shared information and experiences regarding special topics between incorporated cities and unincorporated communities (e.g., innovative subdivision processes).</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Coordinate communication annually or as appropriate, shared information is ongoing</p>	<p>The County works closely with both incorporated and unincorporated communities through community meetings and appointing members to Community Districts such as the Seeley Water Board and Heber Water District. Additionally, the County works closely with the Heber Utility District and related projects. The County Building Department manages recreational vehicle (RV) and mobile home parks throughout the county, in both unincorporated areas and on behalf of cities in incorporated areas. The County works directly with cities on issues related to management of this housing, such as responding to comments on projects, complaints, and more.</p>	<p>Modified. Covered under new program 25.</p>
<p>Program 7.1.2 Continue to support the coordination between public agencies through the County's intra- department/agency framework that allows specialist staff to have daily interaction and access to a global computer permitting and monitoring program linked to other development-related departments/agencies.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County supports coordination with public agencies and other inter-departmental coordination through the development process. Most projects include a pre-application meeting, to which the County invites all local and state agencies that are related to the project or may have an interest. Beyond this, and for projects that do not have a pre-application meeting, the County solicits comments from local agencies and other departments during the permitting process and public hearings.</p>	<p>Delete.</p>

Program		Implementation Status	Action
<p>Program 7.1.3 Continue to coordinate with the Imperial Valley Housing Authority to promote housing efforts.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds</p> <p>Timetable: Review coordination efforts annually, coordination ongoing</p>	<p>The County works with the Imperial Valley Housing Authority and has an ongoing partnership to promote development of a variety of housing types, with an emphasis on creating and maintaining affordable housing units. As part of this maintenance, the County coordinates services for a mobile home in a park owned by the housing authority. Due to limited funding, the County has been unable to assist in the construction of additional affordable housing in recent years.</p>	<p>Modified. Covered under new program 4.</p>
<p>Program 7.1.4 Coordinate with regional employers to determine appropriate housing types for employees that live in Imperial County.</p>	<p>Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County coordinates with employers in the region, with a special focus on large projects, to encourage local employment of residents that are already housed in the area. The County provides incentives when employers meet a threshold set on a project-by-project basis for how many employees are local residents rather than attracting new workers in need of temporary housing.</p>	<p>Modified. Covered under new program 25.</p>
<p>Program 7.1.5 Continue to support economic development activities coordinated through the Planning and Development Services Department by providing technical support in the form of service area plan updates. These updates contain a record of undeveloped lands through the creation of residential subdivisions, annexation of land to incorporated cities, and the capacities of water and sewer in the unincorporated areas.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>During the previous planning period, the County supported creation of additional housing through annexations of land for the Lotus Ranch and Miller-Burson developments into El Centro and the Russel Court development into Imperial County. In 2018, the Seeley County Water District released an update to their Service Area Plan finding that, in the Seeley service area, wastewater facilities are operating at 45-percent capacity and water facilities are operating at 20-percent capacity.</p> <p>1.</p>	<p>Delete.</p>

Program	Implementation Status	Action
	<p>The following have been completed to date:</p> <ul style="list-style-type: none"> • Winterhaven Public Safety Facility • Subsistence Payments Program • Neighborhood Cleanups • Telemedicine Equipment for Clinicas de Salud del Pueblo • Library Needs Assessment (TA) • Poe Colonia Wastewater Plant Improvements • Palo Verde Water Well #1 Improvements • Seeley Water Line Distribution System Improvements <p>The following projects are in progress:</p> <ul style="list-style-type: none"> • Winterhaven Water Treatment Plant Improvements • Niland Public Safety Facility <p>The 18 CDBG grants were just received a few months ago. The County needs to clear general conditions and get approval from the state before they begin. The County is currently working on general conditions. These projects include:</p> <ul style="list-style-type: none"> • Seeley Fire Station • Palo Verde Water Well #2 Improvements • Heber Housing Rehabilitation • Salton Sea Beach Housing Rehabilitation <p>No projects have been completed under</p>	

Program		Implementation Status	Action
		housing rehabilitation as of yet since the County is still working on conditions to begin the programs.	
<p>Program 8.1.1 Continue to improve the planning permit processing procedures by improving information retrieval capabilities of counter and project staff, continuing pre-application meetings, and providing updated written materials, such as checklists and application forms with fee and standards guidelines to developers. Continue to apply mandatory time frames for application review. The County's updated website features a function that will allow developers to track their projects through the permit processing procedures.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing as projects are submitted to the Planning Department</p>	<p>The County has implemented streamlining for solar (i.e. rooftop solar for on-site consumption) in the Zoning Ordinance, is undergoing a review of permit procedures for industrial development, and intends to complete a review of residential permitting procedures next. During each of these reviews, the County has analyzed input from the public and developers on permit processing procedures as well as reviewed the Zoning Ordinance for constraints on development that may result in delays.</p>	<p>Modified. Covered under new program 27.</p>
<p>Program 8.1.2 The County will consider updating community and urban area plans as staff develops a timeline for completing them.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: 2014-2021</p>	<p>Due to a lack of funding, the County was unable to update community and urban area plans in the previous planning period. However, County contracted a consultant at the end of 2020 to assist with local and regional planning (LEAP/REAP) grant applications and plans to use the funding, if received, to assist with community plan updates.</p>	<p>Modified. Covered under new program 27.</p>
<p>Program 8.1.3 Increase the use of the clustered Planned Residential Development (PRD) approach by lowering the minimum land area required for a PRD project. The PRD usually allows higher densities than conventional subdivisions and, through clustering, can reduce infrastructure costs. This will be achieved through the Specific Plan process so developers can select sites to apply the PRD.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Case-by-case basis; ongoing</p>	<p>The County did not use clustered PRD during the previous planning period, and instead encourages higher density for housing through Specific Plans. Three Specific Plans were processed during the previous planning period: McCabe Ranch, Rancho Los Lagos, and 101 Ranch.</p>	<p>Modified. Covered under new program 12.</p>

Program	Responsible Agency	Implementation Status	Action
<p>Program 8.1.4 Continue to permit landowners to build on lots of record that are currently below the minimum lot size, but only where such construction does not create land use conflicts, such as with existing agricultural operations.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>Chapter 4, Section 90804.01, of Division 8 of the County's Land Use Ordinance (Title 9) specifies that lots smaller than the applicable parcel size can still be developed under specific requirements: the parcel boundaries were determined prior to the establishment of the current minimum parcel size or a subdivider agrees to surrender development rights of a portion of a minor subdivision such that the reduced lot sizes will not result in increased density than otherwise permitted. The Planning Director or Planning Commission may also approve a parcel map of no more than four parcels where one or all parcels are smaller than the applicable minimum parcel size if there are existing small parcels in the same area that meet requirements outlined in Section 90804.01.</p>	<p>Modified. Covered under new program 28.</p>
<p>Program 8.1.5 Continue to use the International Conference of Building Officials (ICBO) to ensure a set of consistent codes. In addition, model codes shall be periodically evaluated for new information on technological advances.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County enforces Title 24, the California Building Standards Code, updated regularly as the State updates the code to ensure new information and technological advances are included and enforced.</p>	<p>Delete.</p>
<p>Program 8.1.6 Review building codes periodically to incorporate the most economical construction alternatives consistent with health and safety.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p>	<p>The County enforces Title 24, the California Building Standards Code. The California Building Standards Codes are updated every three years to ensure consistency with health and safety codes and promote the most economical construction alternative. By enforcing these updated codes, the County ensures their</p>	<p>Modified. Covered under new program 5.</p>

Program	Implementation Status	Action
	<p>Timetable: Review annually</p>	<p>building code addresses construction alternatives, health, and safety.</p>
<p>Program 8.1.7 Encourage projects for special-needs groups and for lower- and moderate-income households by using the appropriate County ordinance to permit reduced lot sizes, reduced site setbacks, and off-street parking, thereby reducing land costs for private-sector housing developments. This will be implemented through ensuring all staff are fully knowledgeable of potential development standard reductions through the monthly staff meeting process.</p>	<p>Responsible Agency: Planning and Development Services Department</p> <p>Funding Source: General Funds (staff time)</p> <p>Timetable: Ongoing</p>	<p>The County works closely with various community organizations, the Board of Supervisors, the Catholic Church, and other interested churches to pursue opportunities for development of new transitional and supportive housing, as well as other housing types for special-needs groups. Many community organizations work directly with Board members to identify sites and incentives necessary to promote development of housing for special needs groups, such as flexibility in development standards. The County and these groups have identified suitable sites, but none have been developed. The County will continue the intent of this program through incentives to encourage special needs housing.</p>

III. Goals, Policies, and Programs

This section of the Housing Element presents Imperial County's goals, policies, and programs relative to the development, improvement, and maintenance of housing within the unincorporated areas of the county, for the planning period of 2021 to 2029.

In general, housing goals are a long-term end in which action is directed. Imperial County's goals are ideals that have been determined by the citizens as desirable and deserving of community time and resources. Policy statements are more specific and shorter range. Programs are action statements and provide well-defined guidelines for decision-making and identify the entity responsible for implementation, funding sources, the time frame for completion, and quantified objectives.

Goal 1: Ensure the availability of a variety of housing types for all income levels throughout the county.

Policies

- 1.1 Provide for an adequate supply of housing in suitable locations and with adequate services that collectively accommodate a range of housing types, sizes, and prices meeting the needs of all economic segments of the county's population.**
- 1.2 The County shall allow housing developments with at least 20-percent affordable housing by-right on lower-income housing sites that have been counted in previous Housing Element cycles, consistent with Assembly Bill 1397. (New policy)**

Programs

- 1. Meeting the Regional Housing Needs Allocation (*Previously Program 1.1.1*).
The County will ensure adequate sites are available at all times throughout the planning period to meet the County Regional Housing Need for each income category capacity consistent with no net loss and identify additional sites as needed consistent with California Government Code Section 65863.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing, throughout the planning period

- 2. Infrastructure Availability and Coordination (*New Program*)
The County shall work with community service districts to identify and overcome constraints to providing water and sewer service for housing, prioritizing improvements for lower-income housing and in low-resource areas to further place-based revitalization efforts. The County will:

- Coordinate every two years with service providers to assess the needs for infrastructure and services and discuss plans for expansion based on future proposed developments.
- Apply for funding from the Community Development Block Grant, Infill Infrastructure Grant Program, or other funding programs, as available, to fund design plans and infrastructure improvements for affordable housing projects.
- Annually explore and pursue funding opportunities for specific plan updates as necessary to promote development within existing communities with active transportation and access to services and amenities.
- Provide a copy of the adopted Housing Element to the various service providers serving the unincorporated communities and provide assistance to providers to facilitate establishing procedures to grant priority service to the development of housing with units affordable to lower-income households.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Identify infrastructure constraints by May 15, 2024; Fund and conduct infrastructure improvements dependent on grant funding availability. Explore Notices of Funding Availability (NOFAs) annually.

3. **Specific Plan Development (Previously Program 1.1.6)**

Continue to encourage planned developments through the Specific Plan development agreement process to achieve innovative housing designs; facilitate the integration of affordable housing and mixed-income settings in new growth Specific Plan areas.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing as Specific Plan applications are processed.

Goal 2: Encourage affordable housing developments by using all available funding sources, offering developer incentives, and allowing a wide range of housing types to serve the housing needs of the county’s labor force, special-needs groups, and families of all income levels.

Policies

2.1 Continue to use existing financing services and to stimulate the development of innovative financial techniques that will reduce housing.

2.2 Facilitate the creation of affordable housing units and offer incentives for developers to create housing for all income levels, to reflect Imperial County’s share of the region’s housing needs.

Programs

4. **Acquisition, Rehabilitation, and Construction of Affordable Housing** *(Previously Program 2.1.1)*
Work with public or private sponsors, as well as the Imperial Valley Housing Authority, to support the acquisition/rehabilitation of existing multifamily units to be converted to affordable housing. Provide technical assistance in funding acquisition, rehabilitation, and/or the construction of affordable housing units by assisting with developing innovative and cost-effective construction methods including the use of solar energy, xeriscaping, and green building materials. The intent of this is to reduce displacement risk for lower-income households by increasing the supply of affordable housing.

Responsible Agency: Planning and Development Services Department; Imperial Valley Housing Authority

Funding Source: HOME and other United States Department of Housing and Urban Development (HUD) and California Department of Housing and Community Development (HCD) grants as they become available, Community Development Block Grant (CDBG), General Fund (staff time)

Timeframe: Annually meet with interested developers.

Quantified Objective: 30 low-income units, encourage 10 of these units to be in areas of concentrated rehabilitation need and 10 in areas of concentrated poverty.

5. **Review County Processes, Procedures, and Development Costs** *(Previously Program 2.2.1)*
Biannually review the County’s building code, zoning ordinance, subdivision ordinance, and processing procedures to identify and modify process requirements, approval of criteria, and/or fees that could create an impediment to the cost of housing. Encourage innovative and cost-effective construction methods to reduce housing costs by providing incentives such as density bonus units, reduction in development standards, and fee waivers/deferrals, and assisting in accessing state and federal subsidies. The County will also continue to contract with outside firms to perform plan check reviews for more complex projects to provide timely development approvals.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Biannually review and update, as necessary.

6. **Update Density Bonus** (*Previously Program 2.2.2*)

The County will amend Division 3 of Title 9 to comply with changes in California's density bonus law (California Government Code Section 65915, as revised) and will promote the use of density bonuses for lower-income units by providing information through a brochure in County buildings and on the County's website.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Amend Division 3 within one year of Housing Element adoption.

Quantified Objective: 30 lower-income units

7. **Development Standards** (*New Program*)

The County will amend the Land Use Ordinance Title 9 to address the following development standards:

- a. **Accessory Dwelling Units.** Allow ADUs by-right in all zones in which single family or multi-family residential uses are permitted, regardless of if the residence is the primary use, in compliance with Government Code Section 65852.2.
- b. **Emergency Shelter Parking.** Allow sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone, in compliance with Government Code Section 65583(a)(4)(A)(ii).
- c. **Manufactured Housing.** Permit manufactured housing in the same manner and same zone as conventional single-family residential dwellings in compliance with Government Code Section 65852.3(a)
- d. **Employee Housing.** Treat employee/farmworker housing that serves six or fewer persons as a single-family structure and permit it in the same manner as other single-family structures of the same type within the same zone across all zones that allow single-family residential uses and treat employee/farmworker housing consisting of no more than 12 units or 36 beds as an agricultural use and permit it in the same manner as other agricultural uses in the same zone, in compliance with Health and Safety Code Sections 17021.5 and 17021.6.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Amend the Land Use Ordinance within one year of Housing Element adoption.

8. **ADU Incentives** *(New Program)*

The County shall promote accessory dwelling units as an affordable housing option and an economic mobility opportunity in Imperial County through the following actions.

- Promote ADUs on existing residential lots by providing information to homeowners about the benefits of accessory dwelling units (ADUs) and/or junior accessory dwelling units (JADUs).
- Provide guidance and educational materials for building ADUs/JADUs on the County’s website and in a brochure available at County buildings, including permitting procedures and construction resources. Additionally, the County shall present homeowner associations with the community and neighborhood benefits of accessory dwelling units, inform them that covenants, conditions, and restrictions (CC&Rs) prohibiting ADUs are contrary to state law, and ask homeowner associations to encourage such uses.
- Explore options for establishing a loan program to help homeowners finance the construction of ADUs. The County shall consider incentives to encourage homeowners to deed restrict ADUs for lower-income households.
- Explore options for establishing a loan program to help homeowners finance the construction of ADUs. The County shall consider incentives to encourage homeowners to deed restrict ADUs for lower-income households.

Responsible Agency: Planning and Development Services Department

Funding Source: General Fund (staff time)

Timeframe: Develop ADU informational materials within two years of Housing Element adoption.

Quantified Objective: 8 lower-income ADUs: 3 in areas of concentrated poverty and 5 in high resource areas

9. **Housing for Special-Needs Groups** *(Previously Program 2.2.3)*

Increase the supply of affordable housing for special-needs groups, including seniors, persons with disabilities, and extremely low-income individuals and families, by providing regulatory incentives such as permitting reduced lot sizes, reduced site setbacks, and off-street parking to lessen land costs for housing development. The County will take subsequent action, as appropriate, to make the development of such units more financially feasible, including supporting the use of federal and state funding resources for local housing needs and programs and providing financial incentives, such as reducing, waiving, and/or deferring fees, where feasible, offering fast-track/priority processing, and density bonuses.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds, Serna, CDBG

Timeframe: Ongoing as applications are received.

Quantified Objective: 50 lower-income units, 30 of which in high resource areas

10. **Farmworker Assistance** (Previously Program 2.2.7)

To provide housing and meet the needs of farmworkers, the County will implement the following:

- Continue to seek funding from the Joe Serna Jr. Farmworker Housing Grant Program (Serna) for the rehabilitation of existing farmworker units and the construction of new units.
- Collaborate with agricultural employers to identify sites and funding sources available through the California Department of Housing and Community Development (HCD) and the United States Department of Agriculture (USDA) Rural Development programs for farmworker housing.
- Complete a farm working survey to better understand the living conditions and daily service needs of the farm worker population to inform place-based revitalization efforts.
- Encourage place-based revitalization and reduce displacement risk by organizing bilingual outreach materials and activities to educate and inform the farm worker community about available rehabilitation programs and resources.
- When funding allows, provide relocation assistance for farmworkers displaced due to rehabilitation efforts.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds, Serna, CDBG

Timeframe: Make bilingual resources available by June 2022; complete the survey by June 2023; apply for funding annually, as NOFAs are released.

Quantified Objective: Rehabilitate 10 farmworker units.

11. **Assistance for Service Providers** (Previously Program 2.2.10)

The County will assist and support local social service agencies in their applications for state and federal funds to provide housing-related services to lower-income households and special-needs groups, particularly those offering supportive housing programs for homeless individuals and families.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing or as requested

Goal 3: Continue to facilitate the provision of housing suited to persons with special housing needs.

Policy

3.1 Provide the appropriate regulatory framework, funding availability, and other necessary services for the creation of housing for persons with special needs, which include large families, farmworkers, the elderly, persons with disabilities and developmental disabilities, single-parent families, extremely low-income households, and the homeless.

Programs

12. Support Affordable Housing Development (*Previously Program 1.1.2*)

The County shall work with housing developers to expand opportunities for affordable lower-income and workforce housing by creating partnerships, providing incentives, and pursuing funding opportunities, with a particular emphasis on developing affordable housing in high resource areas to promote mobility between low and high resource areas. Specifically, the County shall:

- Provide technical assistance with site identification, site acquisition, and permit processing procedures.
- Promote the use of the density bonus ordinance, application processing fee waivers, impact fee waivers, and fee deferrals to encourage affordable housing, with an emphasis on encouraging affordable housing in high resource areas.
- Facilitate the approval process for land divisions, lot line adjustments, and/or specific plans or master plans resulting in parcel sizes that enable affordable housing development and process fee deferrals related to the subdivision for projects affordable to lower-income households.
- Partner with nonprofit and for-profit affordable housing developers and self-help housing providers to provide technical assistance and support their financing applications for state and federal grant programs, tax-exempt bonds (e.g., Mortgage Revenue Bonds), and other programs that become available.
- Pursue federal, state, and private funding for low- and moderate-income housing by applying for state and federal monies for direct support of lower-income housing construction and rehabilitation, specifically for development of housing affordable to extremely low-income households.
- Increase the use of the clustered Planned Residential Development (PRD) approach by lowering the minimum land area required for a PRD project to reduce infrastructure costs through clustering.
- Encourage construction of larger housing units with three or more bedrooms by considering the allowance of parking reduction, fee waivers, and other incentives.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time), California Housing Finance Agency (CHFA), HOME funds, CDBG funds, Technical Assistance grants

Timeframe: Meet with developers annually, apply for funding annually as available.

Quantified Objective: 150 low-income; 150 very low-income; 50 extremely low-income units. Half of these will be in high resource areas to promote access to services and opportunity, the remainder will be in low-resource areas with a shortage of affordable housing.

13. Community Assistance Programs (Previously Program 3.1.1)

Distribute public information regarding local service organizations, homeless and community assistance programs, including the Torres-Martinez Tribal Temporary Assistance for Needy Families (TANF) program, and emergency shelters/transitional housing by maintaining updated information available at the “storefront” locations at the Planning and Development Services offices and on the County’s website.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Review information and update quarterly, distribution ongoing

14. Regional Coordination on Homelessness (Previously Program 3.1.2)

Collaborate with the Imperial Valley Continuum of Care and other nonprofit organizations that provide emergency shelter and other support services to promote community-wide planning and strategic use of resources to address homelessness. Assist emergency shelters/transitional housing providers in acquiring state, federal, and local funding for services for the homeless.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing, throughout the planning period

15. Land Use Ordinance Title 9 Amendments (Previously Program 3.1.3, new)

The County will remove barriers to housing for special-needs groups by amending the Land Use Ordinance Title 9 to address the following:

- a. **Transitional and Supportive Housing.** Allow transitional and supportive housing as a residential use-subject-only to those restrictions that apply to other residential dwellings of the same type in the same zone and to allow supportive housing as a permitted use without discretionary review in zones where multifamily and mixed-use developments are permitted, including nonresidential zones permitting multifamily uses, in compliance with California Government Code Section 65583(c)(3).

- b. **Definition of Family.** Update the definition of family to be “one or more persons living together in a dwelling unit.”
- c. **Residential Care Facilities.** Allow residential care facilities for six or fewer persons in accordance with Health and Safety Code Section 1568.0831 and residential care facilities for seven or more persons with a valid license in the same manner in accordance with the State’s definition of family.
- d. **Low-Barrier Navigation Centers.** Allow low-barrier navigation centers for the homeless by-right in zones that allow for mixed-use and nonresidential zones permitting multifamily uses, per California Government Code Section 65662.
- e. **Domestic Violence Shelters.** Remove use permit requirements for facilities for abused men/women/children in compliance with the definition of supportive housing, in compliance with Health and Safety Code Section 50675.14.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Amend the Land Use Ordinance within one year of Housing Element adoption.

16. **Persons with Disabilities (Previously Program 3.1.5)**

Ensure that persons with disabilities (including persons with developmental disabilities) have increased access/placement in residential units rehabilitated or constructed through County programs by completing the following:

- Continue to ensure new developments are compliant with standards outlined in the Americans with Disabilities Act (ADA) for persons with disabilities.
- Encourage “universal design” features, such as level entries, larger bathrooms, and lower kitchen countertops to accommodate persons with disabilities.
- Encourage multifamily housing developers to designate accessible and/or adaptable units to be affordable to persons with disabilities or persons with special needs.
- Cooperate with nonprofit agencies that provide placement or referral services for persons with disabilities.
- Coordinate with the San Diego Regional Center, particularly the Imperial Valley office, and local hospitals to promote outreach efforts that inform families in the county on housing and services available for persons with developmental disabilities.
- Review the County’s findings for approving reasonable accommodation requests, including, but not limited to, potential impact on surrounding uses, physical attributes of the property and structures, and any other findings that may be potential barriers to housing for persons with disabilities.

Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority

Funding Source: General Funds (staff time)

Timeframe: Ongoing, as projects are processed.

17. **Development of Housing for Extremely Low-Income Households (Previously Program 3.1.7)**
 To address the extremely low-income housing need and to ensure compliance with Assembly Bill (AB) 2634, the County Land Use Ordinance Title 9 will continue to explicitly allow single-room occupancy units (SROs) as permitted uses in the Medium-High Density Residential (R-3), High-Density Residential (R-4), General Commercial (C-2), and Limited Agricultural (A-1) zones. Additionally, the County will encourage the development of housing for extremely low-income households through a variety of activities, such as outreach to housing developers every 12 to 18 months, providing financial assistance (when feasible) or in-kind technical assistance or land write-downs, providing expedited processing, identifying grant and funding opportunities, applying for or supporting applications for funding on an ongoing basis, reviewing and prioritizing local funding at least twice in the planning period, and/or offering additional incentives beyond the density bonus.

Responsible Agency: Planning and Development Services Department, Imperial County Workforce and Economic Development Department

Funding Source: General Fund (staff time), HOME and other HUD and HCD grants as they become available.

Timeframe: Ongoing, as projects are processed, and annual outreach with local developers.

Quantified Objective: 20 extremely low-income units in areas of concentrated poverty

Goal 4: Facilitate the provision of fair housing opportunities for all residents of Imperial County.

Policy

- 4.1 Provide the appropriate regulatory framework, funding availability, and other necessary services for the creation of housing for persons with special needs, which include large families, farmworkers, the elderly, persons with disabilities and developmental disabilities, single-parent families, extremely low-income households, and the homeless.**

Programs

18. Fair Housing Outreach (*Previously Program 4.1.1*)

To reduce any potential for housing discrimination and to improve residents' access to opportunities and programs, the County will:

- Develop bilingual outreach materials to inform the public of available housing opportunities, as well as various assistance programs available to eligible households, to be posted on the County's website and community boards and at gas stations, schools, and other public places.
- Coordinate with local fair housing providers to conduct a public workshop on tenant and landlord rights and responsibilities.
- Work with fair housing providers biannually to review discrimination cases and complaints to identify any trends in the county.

Continue to refer discrimination inquiries to the appropriate fair housing agency, including the Inland Fair Housing and Mediation Board and California Rural Legal Assistance on an ongoing basis.

Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority

Funding Source: General Funds (staff time)

Timeframe: Update and redistribute assistance program information quarterly or as needed, meet biannually with fair housing provider to plan a workshop; refer discrimination cases as received

19. Improve Low-Resource Areas Access to Opportunities (*New Program*)

The County shall improve low-resource areas to increase access to opportunity for lower-income households by conducting the following:

- Meet biannually with Imperial County Transportation Commission, and other transit providers as applicable, to identify unmet transit needs and increase mobility and provide increased transit from unincorporated communities to schools.
- If an unmet transit need is identified while meeting with the Commission, annually apply for funding opportunities for improved transit service, particularly around areas with lower-income sites and communities on the western shore of the Salton Sea.
- Allow for employment centers to be located near housing developments to increase job opportunities.
- Annually distribute materials with utility bills to promote the CalWorks program offered by the County in rural areas of the unincorporated County to improve access to employment training, assistance, and job opportunities; emphasize marketing of this program in areas with higher rates of single-parent households.

- Increase community services in low-resource areas, such as public libraries and parks.
- Review existing zoning within one year of Housing Element adoption to ensure medical services are allowed throughout the County, specifically in low-resource areas.
- Review existing zoning within one year of Housing Element adoption to ensure grocery stores are allowed in low-resource areas.
- Meet annually with the Imperial Valley Environmental Justice Taskforce to identify steps the County can take to improve environmental conditions for all residents.
- Develop a targeted program to connect lower-income residents with affordable homeownership and rental opportunities within the county, provide information on this program to realtors and housing providers.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing, as identified in each bullet.

Quantified Objective: Provide opportunities to low resource areas to assist at least 20 extremely low-income households, 20 very low-income households, 20 low-income households.

Goal 5: Encourage the improvement, rehabilitation, and revitalization/reinvestment of the county’s existing residential neighborhoods.

Policy

5.1 Ensure that the quality, safety, and livability of the housing stock in the county are continually maintained or upgraded and that dilapidated housing that cannot be improved is replaced, where appropriate and necessary.

Programs

20. Housing Rehabilitation (*Previously Program 5.1.1*)

The County will seek appropriate funding through the CallHome Program and the CDBG Program to provide housing rehabilitation loans and weatherization services for extremely low-, very low- and low-income households and for single family, multifamily, and mobile home units. Funds will be available to both owner-occupied units and owners of tenant-occupied units and marketed through multilingual outreach materials to educate and inform all residents on the available rehabilitation programs and resources. When funding allows, the County will also provide relocation assistance for occupants displaced due to rehabilitation work.

Responsible Agency: Planning and Development Services, Imperial Valley Housing Authority

Funding Source: CDBG, HOME, other federal/state sources

Timeframe: Annually apply for funds to support existing owner-occupied rehabilitation program

Quantified Objective: 100 lower-income units, 80 of which in areas of concentrated poverty

21. Code Enforcement (Previously Program 5.1.2)

Continue to implement a proactive code enforcement and building inspection program through the Planning and Development Services Department to identify existing code deficiencies and encourage improvement of existing substandard dwelling units and mobile homes to eliminate substandard conditions and address areas of concentrated rehabilitation need, which could result in repairs and mitigate potential costs, displacement, and relocation impacts on residents. Emphasize enforcing healthy and safety compliance for farmworker and transitional housing. The County will provide brochures in both English and Spanish on the County's website regarding the code enforcement process and available resources to assist with rehabilitation.

Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority

Funding Source: General Funds (staff time)

Timeframe: Make brochures available by July 2022, implement code enforcement process on a proactive basis.

22. At-Risk Properties (Previously Program 5.1.3)

The County will update its list of subsidized rental properties on an annual basis and identify units at risk of converting to market rate. For complexes or units at risk of converting to market rate, the County shall:

- Contact the owner(s) of any identified at-risk units within one year of affordability expiration to discuss the desire to preserve complexes as affordable.
- Reach out to owner(s) to determine their intent to maintain the affordability of the units' interest in selling the property. In addition, the County will coordinate with owners of expiring subsidies to ensure the required notices to tenants are sent out at 3 years, 12 months, and 6 months.
- Reach out to agencies interested in purchasing and/or managing at-risk units.
- Work with property owners to apply for federal, state, and local subsidies to ensure the continued affordability of at-risk units and maintain a list of non-profit organizations that may be interested in the acquisition/rehabilitation of at-risk units.
- Work with tenants to provide education regarding tenant rights and conversion procedures pursuant to California law.

Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority

Funding Source: General Funds (staff time)

Timeframe: Annually monitor and apply for funding as Notices of Funding Availability are released.

Quantified Objective: 24 lower-income units

Goal 6: Promote sustainable development by encouraging the inclusion of energy conservation features in new and existing housing stock.

Policy

6.1 Promote architectural design and orientation of residential developments in a way that promotes energy conservation.

Programs

23. Energy Efficiency and Conservation (Previously Program 6.1.1)

Promote the use of energy efficiency and conservation through measures to weatherize existing homes through informational brochures available at County buildings and continuing to implement Title 24 Energy Conservation Requirements in housing design and rehabilitation efforts.

Responsible Agency: Planning and Development Services Department

Funding Source: CDBG, HOME, General Funds (staff time)

Timeframe: Make information available on the County's website and in brochures in public buildings by December 2022 and implement as applications for new construction and rehabilitation are received.

Goal 7: Encourage and facilitate the regional coordination of public agencies and business organizations to maximize public and private-sector resources that will support a vibrant community.

Policy

7.1 Promote architectural design and orientation of residential developments in a way that promotes energy conservation.

Programs

24. Regional Coordination (Previously Programs 7.1.1 and 7.1.4)

Facilitate regional coordination with employers, housing and service providers, and incorporated cities and unincorporated communities to encourage shared information and experiences and to develop regional plans to address housing needs.

Responsible Agency: Planning and Development Services Department, Imperial Valley Housing Authority

Funding Source: General Funds (staff time)

Timeframe: Invite regional stakeholders to a biannual meeting and facilitate distribution of shared information as available.

Goal 8: Pursue actions to reduce regulatory constraints to housing that impede housing opportunities.

Policy

8.1 Promote architectural design and orientation of residential developments in a way that promotes energy conservation.

Programs

25. Development Streamlining (*Previously Program 8.1.1*)

Review and update policies and requirements of Division 3 of the County’s Land Use Ordinance Title 9 and community design elements of various community and urban area plans to ensure development standards are objective. The County shall only deny a development project based on development standards if such standards are objective, quantifiable, written development standards, conditions, and policies.

Additionally, the County will establish a written policy or procedure and other guidance as appropriate to specify the Senate Bill (SB) 35 streamlining approval process and standards for eligible projects, as set forth under California Government Code Section 65913.4. The County will also continue to improve planning permit processing procedures by improving information retrieval capabilities of counter and project staff, continuing pre-application meetings, applying mandatory time frames for application review, and providing updated written materials such as checklists and application forms with fee and standards guidelines to developers. The County’s updated website features a function that will allow developers to track their projects through the permit processing procedures.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Establish a SB 35 process by December 2022, implement as projects are submitted to the Planning Department

Quantified Objective: 20 low-income units

26. **Small Lot Development** *(Previously Program 8.1.4)*

Continue to permit landowners to build on lots of record that are currently below the minimum lot size, but only where such construction does not create land use conflicts, such as with existing agricultural operations. Additionally, to assist with development of affordable housing, the County will help facilitate lot consolidations to combine small residential lots into larger developable lots by providing information on development opportunities and incentives for lot mergers to accommodate affordable housing units on the County's website and discussing with interested developers. As developers/owners approach the County interested in lot consolidation for the development of affordable housing, the County will offer the following incentives on a project-by-project basis:

- Allow affordable projects to exceed the maximum height limits,
- Lessen setbacks, and/or
- Reduce parking requirements.

The County will also consider offsetting fees (when financially feasible) and concurrent/fast tracking of project application reviews to developers who provide affordable housing.

Responsible Agency: Planning and Development Services Department

Funding Source: General Funds (staff time)

Timeframe: Ongoing, as projects are processed through the Planning and Development Services Department. Annually meet with local developers to discuss development opportunities and incentives for lot consolidation.

Quantified Objectives

State Housing Law requires that each jurisdiction establish the projected number of housing units that will be constructed, rehabilitated, and preserved over the planning period. The Quantified Objectives for the Housing Element reflect the planning period from October 15, 2021, through October 15, 2029. Refer to Table 1.

It is important to note that while the Quantified Objectives are required to be part of the Housing Element and the County will strive to obtain these objectives, the County cannot guarantee that these needs will be met given limited financial and staff resources, the current development climate in the county, and the changing gap in the affordability of housing resources and incomes. Satisfaction of the County’s share of regional housing needs will depend heavily on the cooperation of private funding sources and developers, as well as resources of the state, federal, and County programs that are used to support the needs of the lower-income and special-needs households. Additionally, outside economic forces heavily influence the housing market. Current economic challenges have chilled much of the activity in the new housing market. The Quantified Objectives assume optimum conditions for the production of housing; however, environmental, physical, and market conditions exert influence on the timing, type, and cost of housing production in a community. State law recognizes that a locality may not be able to accommodate its regional fair-share housing need.

**TABLE 1
QUANTIFIED OBJECTIVES, 2021-2029**

Program		Extremely Low	Very Low	Low	Moderate	Above Moderate
RHNA		601	602	596	580	1,922

IV. Public Participation

State law requires cities and counties to make a “diligent effort” to achieve participation by all segments of the community in preparing a Housing Element (California Government Code Section 65583(c)(6)). State law requires cities and counties to take active steps to inform, involve, and solicit input from the public, particularly groups and organizations representing the interests of lower-income and minority households that might otherwise not participate in the process.

To meet the requirements of state law, Imperial County has completed public outreach and encouraged community involvement, as described herein.

Stakeholder Consultations

To ensure that the County was soliciting feedback from all segments of the communities in unincorporated Imperial County, consultations were conducted with service providers and other stakeholders who represent different socio-economic groups. Between January and February 2021, Imperial County reached out to 10 agencies through several attempts. Of these, three responded and consultations were conducted with stakeholders to offer the opportunity for each to provide one-on-one input. The following stakeholders were interviewed:

- Campesinos Unidos – January 26, 2021
- Imperial Valley Housing Authority – February 9, 2021
- Imperial County Department of Social Services – February 12, 2021

In each of the consultations, the stakeholders were asked the following questions:

1. What are the three top opportunities you see for the future of housing in unincorporated Imperial County? What are your three top concerns for the future of housing in unincorporated Imperial County?
2. What types of housing do your clients prefer? Is there adequate rental housing in the unincorporated areas of Imperial County? Are there opportunities for home ownership? Are there accessible rental units for seniors and persons with disabilities?
3. Where have your clients been able to afford housing, if at all? What continues to be a struggle in allowing your clients/people you serve to find and keep affordable, decent housing?
4. What are the biggest barriers to finding affordable, decent housing? Are there specific unmet housing needs in the unincorporated communities?
5. How do you feel about the physical condition of housing in Imperial County? What opportunities do you see to improve housing in the future?

All stakeholders emphasized a shortage of affordable housing units and a great demand for rental assistance, beyond what is currently available. When asked about other concerns, stakeholders reiterated that addressing housing barriers in Imperial County begins with meeting affordability needs and incentivizing this type of housing should be a priority. Stakeholders expressed concern that the shortage of affordable housing presents challenges for residents to access jobs and live in safe, healthy conditions.

Community Workshops

On April 27 and April 28, 2021, the County hosted two online community workshops to introduce the public to the Housing Element update process and state requirements and solicit input on housing needs, preferences, and locations. The County provided advanced notice of these meetings by distributing flyers in both English and Spanish to stakeholder organizations, affordable housing providers, and community organizations. At each meeting, conducted via Zoom, the County offered a Spanish-language breakout room in addition to the English presentation, though no attendees took advantage of this option.

The April 27 meeting was held online over the standard lunch break and had 11 attendees. Participants asked about a potential partnership between the County and San Diego State University to discuss student housing needs at a proposed campus near the City of Brawley and whether family units are being lost as they are converted to farm labor (H2A) housing. The County confirmed that working with the university, if the land is not annexed by the City of Brawley, is a great opportunity to provide affordable housing near educational and employment opportunities. Additionally, the County explained that there has been conversion of farm housing to employee housing but building permits have not shown a conversion, or loss of, family units for H2A housing.

There were two attendees at the April 28 meeting, though no public comment was made.

Noticing of the Draft Housing Element

The County released the Public Review Draft of the 2021-2029 Housing Element on July 8, 2021 for review and comment. The draft was available on the County's website and direct noticing was sent to groups and individuals interested in the Housing Element update process.

Public Comment

This section will be updated after public comment is received.

V. General Plan Consistency

According to State law, a jurisdiction's General Plan and its elements must be integrated, internally consistent, and a compatible statement of policies. The purpose of the Housing Element is to support and identify an adequate supply of housing affordable to lower-income households by providing guidance in the development of future plans, procedures, and programs, and by removing governmental constraints to housing production. The Housing Element has detailed goals, policies, and specific measures. Under State law, the entire General Plan is required to be "internally consistent," meaning that all elements of the General Plan have equal legal status and no policy within the General Plan can directly conflict with another.

Concurrently with this Housing Element update, the Seismic and Public Safety and Environmental Justice Elements, are being reviewed and updated to bring them into compliance with State law. The Land Use Element was reviewed as part of the Housing Element update to ensure consistency between land uses and zoning as well as other General Plan components. The concurrent process has ensured consistency between the Housing Element and other General Plan elements. The County will continue to review and revise the Housing Element, as necessary for consistency, when amendments are made to the General Plan.

Appendix A: Housing Needs Assessment

Data Sources

This chapter analyzes population, housing, employment opportunities, and income characteristics, identifies special housing needs, and evaluates the condition of the housing stock and other important information to support the goals, policies, and programs to meet the needs of the citizens of Imperial County. In preparing this chapter, various sources of information were used. The County relied on the United States (US) Census, American Community Survey (ACS), California Department of Finance (DOF), California Employment Development Department (EDD), and other available local sources.

The US Census, which is completed every 10 years, is an important source of information for the Housing Needs Assessment. It provides the most reliable and in-depth data for demographic characteristics of a locality. The ACS is conducted by the US Census Bureau and provides estimates of numerous housing-related indicators based on samples averaged over a five-year period. The Housing Needs Assessment reflects the 2015-2019 ACS data.

The DOF is another source of valuable data and is more current than the US Census. However, the DOF does not provide the depth of information that can be found in the US Census Bureau reports. The California Employment Development Department provides employee and industry data and projections that are more specific than what is often available through the US Census. Whenever possible, DOF or Employment Development Department data and other local sources were used in the Housing Needs Assessment to provide the most current profile of the community.

Wherever available, the County used data compiled by the Southern California Association of Governments (SCAG). The SCAG dataset primarily consisted of data from the US Census and various ACS datasets. Due to the wide margin of error in ACS data and the variety of sources used, there may be discrepancies between statistics in this analysis. Additionally, where unincorporated county data was not available, data from incorporated cities in the county were summed and subtracted from the overall county total to arrive at an unincorporated county estimate. For instances in which this method was not feasible or appropriate, countywide data is reported. Demographic information for townships was extrapolated from Census-Designated Places (CDP) data and/or from city and total county data.

Because of the difference in data sources, some figures (e.g., population or the number of households) may vary in different sections. Additionally, the sum of data in tables may not total precisely due to rounding.

Unincorporated Townsites

Unincorporated Imperial County consists of 10 townsites: Bombay Beach, Desert Shores, Heber, Niland, Ocotillo/Nomirage, Palo Verde, Salton City/Vista Del Mar, Salton Sea Beach, Seeley, and Winterhaven. These townsites serve as the population centers, and future population growth will be directed to these areas. Table A-1 provides an overview of each townsite, including population, housing units, and location.

TABLE A-1
IMPERIAL COUNTY TOWNSITES

Townsite	Population	Existing Housing Units	Location
Bombay Beach	297	375	East shore of the Salton Sea, south of State Highway 111
Desert Shores	574	520	West shore of the Salton Sea, east of State Highway 86
Heber	3,604	1,097	Between Calexico and El Centro
Niland	631	315	North-central portion of the county, south of the Union Pacific Railroad
Ocotillo/ Nomirage	89	304	Southwestern portion of the county, just north of the United States/Mexico international boundary
Palo Verde	65	175	Northeastern portion of the county, along State Highway 78
Salton City/Vista Del Mar	6,250	2,928	West shore of the Salton Sea
Salton Sea Beach	261	179	Northwest portion of the county on State Highway 86
Seeley	2,010	669	Six miles west of El Centro
Winterhaven	192	215	Southeastern most portion of the county

Source: 2015-2019 ACS

Demographic and Employment Characteristics

Population Trends

According to the DOF, the total population of Imperial County was 188,777 in 2020, an increase of 8.2 percent since 2010. The population of the unincorporated county increased 4.3 percent over the same period, from 37,778 to 39,420.

According to the ACS, Salton City saw the greatest growth, surpassing Heber as the most populated townsite in the unincorporated county, with a population of 6,250 in 2019, a 346-percent increase from 1,400 in 2010. Salton City, Desert Shores, and Seeley were the only unincorporated townsites that experienced growth, all others saw decreases in population ranging from a 1-percent decrease (Bombay Beach) to a 78-percent decrease (Winterhaven). Refer to **Table A-2** for population trends in the unincorporated county and Imperial County as a whole.

TABLE A-2
POPULATION TRENDS

Townsite	2010	2020	Change	
			Number	Percentage
Brawley	24,953	27,349	2,396	9.6%
Calexico	38,572	40,896	2,324	6.0%
Calipatria	7,705	6,843	-862	-11.2%
El Centro	42,598	45,657	3,059	7.2%
Holtville	5,939	6,359	420	7.1%
Imperial	14,758	19,907	5,149	34.9%
Westmorland	2,225	2,346	121	5.4%
Total Incorporated County	136,750	149,357	12,607	9.2%
Total Unincorporated County	37,778	39,420	1,642	4.3%
Total County	174,528	188,777	14,249	8.2%

Source: California DOF, City/County Population and Housing Estimates

Age Characteristics

Current and future housing needs are determined, in part, by the age characteristics of residents. For many, housing needs change based on stage of life. Young professionals, growing families, seniors, and residents with a wide variety of other lifestyles have unique housing preferences and financial situations.

Persons aged 25 to 44 are considered to be in the family-forming age group. According to the 2015-2019 ACS data, this age group represents 24.8 percent of the population in the unincorporated county. Residents

aged 65 and older are considered to be of retirement age and account for 18.1 percent of the population in the unincorporated county. The retirement age group makes up a slightly smaller portion of the population than the family-forming age group. This could suggest that Imperial County has more appeal to the working-age population than to persons of retirement age. Refer to **Table A-3** for a breakdown of the population by age group for the unincorporated county and for Imperial County as a whole.

**TABLE A-3
AGE CHARACTERISTICS, 2019**

Age Group	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
< 5 years	1,179	8.7%	15,080	8.3%
5 to 14 years	1,585	11.7%	28,395	15.7%
15 to 24 years	2,114	15.6%	27,101	15.0%
25 to 34 years	1,683	12.4%	26,562	14.7%
35 to 44 years	1,683	12.4%	22,086	12.2%
45 to 54 years	1,288	9.5%	20,156	11.2%
55 to 64 years	1,580	11.6%	18,480	10.2%
65 to 74 years	1,422	10.5%	12,818	7.1%
75 to 84 years	865	6.4%	7,022	3.9%
85+ years	174	1.3%	3,001	1.7%
Total	13,573	100.0%	180,701	100.0%

Source: 2015-2019 ACS

*Total County includes both incorporated and unincorporated communities.

Race and Ethnicity

According to the 2015-2019 ACS, white residents represented the largest race group in the unincorporated county and Imperial County as a whole, accounting for 70.9 percent and 65.1 percent of residents, respectively. Persons of Hispanic origin, who may identify with any race, made up a significant portion of the population. Approximately 76.2 percent of residents were of Hispanic origin in the unincorporated county and 84.2 percent of the countywide population was Hispanic. Refer to **Table A-4** for detailed figures on race and ethnicity in the unincorporated county and in Imperial County as a whole.

**TABLE A-4
POPULATION BY RACE, 2019**

Race/Ethnicity	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
White alone	9,906	70.9%	117,658	65.1%
Black of African American alone	296	2.1%	4,489	2.5%
American Indian and Alaska Native alone	182	1.3%	1,912	1.1%
Asian alone	81	0.6%	2,680	1.5%
Native Hawaiian and Other Pacific Islander alone	24	0.2%	309	0.2%
Some other race alone	3,189	22.8%	47,139	26.1%
Two or more races	295	2.1%	6,514	3.6%
Total	13,973	100.0%	180,701	100.0%

*Total County includes both incorporated and unincorporated communities.

Household Characteristics

A household is defined as any group of people living together in a residence, whether related or unrelated. Household size and composition information can indicate the type of housing that may be appropriate for county residents. According to the DOF, there were 35,331 households in the unincorporated county in 2020, an increase of approximately 9.1 percent since 2010. The household population increased by approximately 10.1 percent for the county as a whole for the same period.

Table A-5 shows household growth trends in the unincorporated county and in Imperial County as a whole from 2010 to 2020.

**TABLE A-5
HOUSEHOLD GROWTH TRENDS, 2010-2020**

Area	2010	2020	Change	
			Number	Percentage
Unincorporated County	32,379	35,331	2,952	9.1%
Total County	163,844	180,378	16,534	10.1%

Source: California DOF, City/County Population and Housing Estimates

Household Size

According to the 2015-2019 ACS, the average household in Imperial County was 3.81 persons (countywide) as of 2019. Approximately 63.4 percent of households in the unincorporated county were one- or two-person households, 16.1 percent were three-person, and 20.4 percent were households with four or more persons. Owner-occupied households had a higher percentage of smaller, one- or two-person households.

In the county as a whole, approximately 46.6 percent of households were one- or two-person, 17.5 percent were three-person, and 36.0 percent were households with four or more persons. Refer to **Table A-6** for household size by tenure in the unincorporated county and in Imperial County as a whole.

**TABLE A-6
HOUSEHOLD SIZE BY TENURE**

Household Size	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
Owner-occupied	3,155	68.5%	26,156	58.3%
1-person	1,285	40.7%	5,022	19.2%
2-person	1,008	31.9%	7,579	29.0%

*Total County includes both incorporated and unincorporated communities.

Income Characteristics

The California Department of Housing and Community Development (HCD) publishes annual income limits for each county that are used to determine eligibility for assisted housing programs. Income levels are described in the following categories:

- Extremely low-income: Earns up to 30 percent of the area median income (AMI)
- Very low-income: Earns between 31 and 50 percent of the AMI
- Low-income: Earns between 51 and 80 percent of the AMI

- Moderate-income: Earns between 81 and 120 percent of the AMI
- Above-moderate-income: Earns more than 120 percent of the AMI

Limits for each income category are based on a percentage of the county’s median income. For Imperial County, the median income for a household of four was \$70,700 in 2020. The income limits by household size for 2020 are provided in Table A-7.

**TABLE A-7
IMPERIAL COUNTY INCOME LIMITS, 2020**

Income Category	Number of Persons in Household							
	1	2	3	4	5	6	7	8
Extremely Low	\$14,700	\$17,240	\$21,720	\$26,200	\$30,680	\$35,160	\$39,640	\$44,120
Very Low	\$24,500	\$28,000	\$31,500	\$34,950	\$37,750	\$40,550	\$43,350	\$46,150
Low	\$39,150	\$44,750	\$50,350	\$55,900	\$60,400	\$64,850	\$69,350	\$73,800
Median	\$49,500	\$56,550	\$63,650	\$70,700	\$76,350	\$82,000	\$87,650	\$93,300
Moderate	\$59,400	\$67,900	\$76,350	\$84,850	\$91,650	\$98,450	\$105,200	\$112,000

Source: HCD 2020 State Income Limits

Table A-8 provides a summary of households in the unincorporated county and county as a whole according to the 2015-2019 ACS. Approximately 75.1 percent of households in the unincorporated county were considered lower income, earning less than 80 percent of the AMI.

**TABLE A-8
HOUSEHOLDS BY INCOME CATEGORY (4-PERSON HOUSEHOLDS)**

Income Category	Unincorporated County		Total County*

**The income breaks reported by the ACS vary slightly from the income category breaks determined by HCD; therefore, the numbers reported here are estimates based on the comparison of these data sources.

Employment

According to 2015-2019 ACS estimates, there were 4,958 jobs in the unincorporated area of Imperial County in 2019. The largest industries of employment were education, health, and social services (922 employees); arts, entertainment, recreation, and accommodation and food services (790 employees); and agriculture, forestry, fishing and hunting, and mining (711 employees). Refer to **Table A-9** for the number of jobs by industry type in the unincorporated county.

**TABLE A-9
EMPLOYMENT BY INDUSTRY, UNINCORPORATED COUNTY**

Area	Number	Percentage

*Projected

Special Needs Groups

This section identifies special needs households in Imperial County. This assessment is essential because a major part of the County's role in providing opportunities for affordable housing is to preclude barriers to residents whose needs are not normally met by the private sector. This segment of the county's population is constrained by the housing market not only because of lower incomes but also because of the lack of housing that is suitable to their special needs.

Extremely Low-Income Households

Extremely low-income households are those earning 30 percent or less of the AMI. In 2020, the upper limit of this income category was \$26,200 for a family of four in Imperial County. Those with the lowest incomes may experience the greatest challenges in finding suitable, affordable housing. Extremely low-income households often have a combination of housing challenges related to income, credit status, disability or mobility status, family size, household characteristics, supportive service needs, or a lack of affordable housing opportunities. These households typically include seniors on Social Security, individuals with disabilities, single parents, farmworkers, and low-wage workers. Some extremely low-income individuals and households are homeless.

Many extremely low-income households seek rental housing and most likely face overpayment, overcrowding, or substandard housing condition. Some extremely low-income households could have members with mental or other disabilities and special needs.

According to the 2015-2019 ACS, approximately 41.5 percent of households (or 1,969 households) in unincorporated Imperial County were extremely low-income (Table A-8). Of these households, approximately 66 percent were homeowners. The County relied on ACS data rather than the United States Department of Housing and Urban Development's (HUD's) Comprehensive Housing Affordability Strategy (CHAS) to determine the number of extremely low-income households as CHAS data estimates this number of the whole of Imperial County while estimates for unincorporated Imperial County are available through ACS.

The County has included **Programs 4, 9, 10, 13, 17, and 21** to provide the following that could assist extremely low-income households:

- Support the Imperial Valley Housing Authority with acquiring and rehabilitating existing multifamily units to be converted to affordable housing, affordable to extremely low-, very low-, and low-income households.
- Provide regulatory incentives such as permitting reduced lot sizes, reduced site setbacks, and off-street parking to lessen land costs for housing development to incentivize construction of housing affordable to extremely low-income households. The County will take subsequent action, as appropriate, to make the development of such units more financially feasible, including supporting the use of federal and state funding resources for local housing needs and programs and providing financial incentives, such as reducing, waiving, and/or deferring fees, where feasible, offering fast-track/priority processing, and density bonuses.
- Seek funding to rehabilitate existing farmworker housing and construct new units.
- Distribute public information regarding local service organizations, homeless and community assistance programs, including the Torres-Martinez Tribal Temporary Assistance for Needy Families (TANF) program, and emergency shelters/transitional housing by maintaining updated information available at the "storefront" locations at the Planning and Development Services offices and on the County's website.
- Collaborate with the Imperial Valley Continuum of Care and other nonprofit organizations that provide emergency shelter and other support services to promote community-wide planning and strategic use of resources to address homelessness.
- Encourage the development of housing for extremely low-income households through a variety of activities, such as outreach to housing developers on an annual basis, providing financial assistance (when feasible) or in-kind technical assistance or land write-downs, providing expedited processing, identifying grant and funding opportunities, applying for or supporting applications for funding on an ongoing basis, reviewing and prioritizing local funding at least twice in the planning period, and/or offering additional incentives beyond the density bonus.

- Continue to operate housing rehabilitation and weatherization programs that assist lower-income households occupying housing in need of repair.

Senior Households

Many seniors live on a low, fixed income and have physical disabilities and dependence needs that make it difficult for them to find suitable affordable housing. There are heavy concentrations of senior households in the outlying desert “retirement” communities in the unincorporated county. According to the 2015-2019 ACS, 18.1 percent of the population, or 2,461 persons, in the unincorporated county were 65 years and older, as of 2019 (see Table A-3).

As shown in Table A-11, there were 1,428 senior householders in the unincorporated county as of 2019. Among these householders, approximately 84.7 percent resided in owner-occupied units.

TABLE A-11
SENIOR HOUSEHOLDS BY TENURE, UNINCORPORATED COUNTY

Age	Number	Percentage of Households

Persons with Disabilities

Persons with disabilities have special housing needs because of employment and income challenges; need for accessible, affordable, and appropriate housing; and higher healthcare costs associated with a disability. A disability is defined by the US Census Bureau as a physical, mental, or emotional condition that lasts over a long period of time and makes it difficult to live independently.

Living arrangements of disabled persons depend on severity of disability. Many disabled persons live in their own home, in an independent situation, or with other family members. The US Census collects data for several categories of disability. The ACS defines six aspects of disability: hearing, vision, cognitive, ambulatory, self-care, and independent living.

- Hearing difficulty: Deafness or serious difficulty hearing
- Vision difficulty: Blindness or serious difficulty seeing even when wearing glasses
- Cognitive difficulty: Serious difficulty concentrating, remembering, or making decisions due to a physical, mental, or emotional condition
- Ambulatory difficulty: Serious difficulty walking or climbing stairs
- Self-care difficulty: Difficulty dressing or bathing (Activities of Daily Living [ADL])
- Independent living difficulty: difficulty doing errands alone, such as visiting a doctor’s office or shopping due to a physical, mental, or emotional condition

As shown in Table A-13, approximately 15.1 percent of the unincorporated Imperial County population and 14.4 percent of the county as a whole had some type of disability, according to ACS estimates.

**TABLE A-13
PERSONS WITH DISABILITY**

Type of Disability	Age Group			With a Disability	Total Population	Percentage with a Disability
	Under 18 Years	18-64 Years	65+ Years			
Unincorporated Imperial County

Developmental Disabilities

According to Section 4512 of the Welfare and Institutions Code, “developmental disability” means a disability that originates before an individual reaches 18 years of age, continues, or can be expected to continue, indefinitely, and constitutes a substantial disability for that individual. It includes intellectual disabilities, cerebral palsy, epilepsy, and autism. This term also includes disabling conditions found to be closely related to intellectual disability or to require treatment similar to that required for individuals with intellectual disabilities but does not include other conditions that are solely physical in nature.

Many developmentally disabled persons can live and work independently within a conventional housing environment. More severely disabled individuals require a group living environment where supervision is provided. The most severely affected individuals may require an institutional environment where medical attention and physical therapy are provided. Because developmental disabilities exist before adulthood, the first issue in supportive housing for the developmentally disabled is the transition from the person’s living situation as a child to an appropriate level of independence as an adult.

The California Department of Developmental Services (DDS) provides community-based services to approximately 350,000 persons with developmental disabilities and their families through a statewide system of 21 regional centers, 4 developmental centers, and 2 community-based facilities. The San Diego Regional Center is one of 21 regional centers in California that provides point of entry to services for people with developmental disabilities. The San Diego Regional Center has a field office in the City of Imperial, which provides services to all of Imperial County. The center is a private, nonprofit community agency that contracts with local businesses to offer a wide range of services to individuals with developmental disabilities and their families.

According to the DDS, using data compiled from the San Diego Regional Center, in September 2020, the Imperial County field office served approximately 620 developmentally disabled residents in the unincorporated County. Refer to **Table A-14** for an estimate of the number of developmentally disabled residents by age in Imperial County.

Note: These represent available estimates and the "<" denotes potential for error.

There are a number of housing types appropriate for people living with a development disability: rent subsidized homes, licensed and unlicensed single-family homes, low-income housing, Section 8 vouchers, special programs for home purchase, HUD housing, and Senate Bill (SB) 962 homes. The design of housing-accessibility modifications, proximity to services and transit, and availability of group living opportunities represent the types of considerations important in serving this need group. Incorporating 'barrier-free' design in all new multifamily housing (as required by California and Federal Fair Housing laws) is especially important to provide the widest range of choices for disabled residents. Special consideration should also be given to affordability of housing, as people with disabilities may be living on a fixed income. The County has included **Program 16** to coordinate with service providers for individuals with developmental disabilities and ensure there is adequate supportive housing to meet residents' needs.

Large Households

HUD defines a large-family household as one with five or more members. Large-family households require housing units with more bedrooms than housing units needed by smaller households. In general, housing for these households should also provide safe outdoor play areas for children and be located to provide convenient access to schools and childcare facilities. These types of needs can pose problems, particularly for large families that cannot afford to buy or rent single-family houses, as apartment and condominium units are most often developed with childless, smaller households in mind.

According to the 2014-2018 ACS, approximately 13.6 percent of households (1,289 households) in the unincorporated county contained five or more persons. Of these households, 68.7 percent (886 households) were owners and 31.3 percent (403 households) were renters. Data on household size was not reported as part of the 2015-2019 ACS; therefore, the County relied on the 2014-2018 ACS data to estimate the number of large households in unincorporated areas.

According to the 2014-2018 ACS, 61.2 percent of the total housing units in the unincorporated county had three or more bedrooms (4,148 units), while just 1.7 of all housing units have five or more bedrooms (114 units) to accommodate large households without any overcrowding.

Single-Parent and Female-Headed Households

Single-parent households are male- or female-headed households with children under the age of 18 living at home. Single-parent households often have lower incomes than two-parent households and may have special needs relating to childcare, healthcare, and housing. Female-headed households tend to have lower incomes, which limits opportunities to find housing of an adequate size at an affordable price.

According to the 2015-2019 ACS, approximately 8.4 percent, or 388, of County households were single-parent households with a male householder and approximately 12.8 percent, or 590, were single-parent households with a female householder. Refer to **Table A-15** for data regarding single-parent and female-headed households in unincorporated Imperial County.

**TABLE A-15
SINGLE-PARENT AND FEMALE-HEADED HOUSEHOLDS, UNINCORPORATED COUNTY**

Householder	Number	Percentage of Total Households
Male householder, no spouse present	388	8.4%
With own children under 18 years	162	3.5%
Female householder, no spouse present	590	12.8%
With children under 18 years	187	4.1%
Total Single-Parent Households	1,327	100.0%
Total Households (all)	4,607

Native Americans

There are two federally recognized tribal reservations in Imperial County – the Quechan Tribe and the Torres-Martinez Desert Cahuilla Indians. According to the US Bureau of Reclamation, there were 3,870 members of the Quechan Tribe, of whom, 2,022 resided on or adjacent to the reservation in Imperial County in 2018. Based on the 2010 Census, SCAG estimates the Torres-Martinez Desert Cahuilla Indian population consists of approximately 5,594 residents. The Torres-Martinez tribal population resides in Riverside and Imperial Counties.

Native American populations may have special needs due to lower incomes and a lack of access to resources. The Torres-Martinez Tribal Temporary Assistance for Needy Families (TANF) program provides temporary assistance to Native American families with children. The program offers housing-related assistance, as well as social services, including childcare assistance and employment training. Housing

assistance is provided through temporary cash for housing and utilities or emergency shelter expenses. The local TANF office is located in Thermal (66725 Martinez Road).

Farmworkers

Imperial County is located in one of the most productive agricultural regions in the United States. While agriculture is a year-round activity in the county, agricultural activity peaks between November and February and reaches the lowest ebb during the months of July, August, and September. According to SCAG, which calculated unincorporated farming jobs from the 2014-2018 ACS 5-Year Estimates, approximately 945 residents were identified as having a farming occupation.

Many farmworkers earn relatively low wages. According to the California Economic Development Department's occupational profile, agricultural workers in Imperial County earned an average hourly wage of \$14.14 as of the first quarter of 2020. The majority of the farmworkers in the county are of Hispanic descent. Many are migrant, generally residing in the county for four to six months out of the year and moving to other areas for the remainder of the year. This creates a fluctuating demand for rental units, with the highest demand occurring during the winter and spring months.

Imperial County's proximity to Mexicali, Mexico, where a large portion of the farm labor pool resides, affords many farm laborers the ability to continue to live in Mexicali where rents are less than in Imperial County. These farm laborers commute on a daily basis via personal vehicle, carpool, public transportation, or employer-supplied busing, which reduces the overall seasonal housing need usually associated with this type of workforce.

The Imperial Valley Housing Authority (IVHA) operates four farmworker housing complexes. Two are located in the City of El Centro, one with 40 units and the other with 36 units. Complexes are also located in the City of Brawley with 58 units and in Heber with 40 units. These farmworker complexes are regulated by the United States Department of Agriculture's (USDA) Rural Development.

Homeless Persons

Homeless individuals and families have an urgent need for housing resources and services; however, their needs are difficult to meet because of the range and complexity of the factors that lead to homelessness. According to the 2020 Point-in-Time Count conducted by the Imperial Valley Continuum of Care, there were 163 homeless persons in Imperial County. Of these, 42 were sheltered in an emergency shelter and 37 were sheltered in transitional housing, while the remaining 84 were unsheltered.

Services for homeless families and individuals are available mainly in the incorporated cities in Imperial County. **Table A-16** lists homeless assistance programs and service providers in the county.

Housing Characteristics

Unit Type

As of 2019, there were a total of 6,777 housing units in the unincorporated county. Of these, 70.0 percent were detached single-family homes. Mobile homes accounted for 22.6 percent of the housing stock. In Imperial County as a whole, detached single-family homes accounted for 64.5 percent and mobile homes accounted for 10.2 percent of the 57,690 total units. Refer to **Table A-17** for information regarding housing units by type in the unincorporated county and in Imperial County as a whole.

The composition of the housing stock varied greatly among townsites in the unincorporated county. In Heber, Salton City, Seeley, and Winterhaven, most housing units were detached single-family dwellings, whereas in Bombay Beach, Desert Shores, Palo Verde, and Salton Sea Beach, most housing units were mobile homes.

**TABLE A-17
HOUSING UNIT TYPE**

Housing Unit Type	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
Single-Family, Detached	4,742	70.0%	37,202	64.5%

*Total County includes both incorporated and unincorporated communities.

Tenure and Vacancy

Housing tenure refers to the occupancy of a housing unit—whether the unit is owner-occupied or renter-occupied. Housing tenure is influenced by demographic factors such as household composition, income, and age, as well as the cost of housing. According to the 2015-2019 ACS, approximately 68.0 percent of occupied housing units were owner-occupied in unincorporated Imperial County in 2019. This ownership rate is higher than that of the county as a whole, where 38.9 percent of occupied units were owner-occupied. Refer to **Table A-18** for occupancy figures for the unincorporated county and for Imperial County as a whole.

Vacancy rates are an indicator of housing supply and demand. If housing demand is greater than the supply, the vacancy rate is likely to be low and the price of housing increases. A 5- to 6-percent vacancy rate is generally considered healthy. According to the 2015-2019 ACS, there was a vacancy rate of approximately 32.0 percent in the unincorporated county and 11.1 percent in the county as a whole. However, 38.4 percent of the vacant units in the unincorporated county were used for seasonal or recreational use while there is a 1.1 percent vacancy rate for rental units and 1.2 percent vacancy rate for for-sale homes. This suggests that the available supply of housing is well below demand. Refer to **Table A-18** for vacancy information for the unincorporated county and for Imperial County as a whole.

**TABLE A-18
TENURE AND VACANCY**

Tenure and Vacancy Status	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
Occupied Housing Units	4,607	68.0%	44,829	38.9%
Owner-occupied	3,155	46.6%	26,156	22.7%
Renter-occupied	1,452	21.4%	18,673	16.2%
Vacant Housing Units	2,170	32.0%	12,861	11.1%

Housing Conditions

Age is one measure of housing stock conditions and a factor for determining the need for rehabilitation. Without proper maintenance, housing units deteriorate over time. Thus, units that are older are more likely to need major repairs (e.g., a new roof or plumbing). As a general rule of thumb, houses 30 years or older are more likely to need rehabilitation. In addition, older houses may not be built to current standards for fire and earthquake safety.

Table A-19 shows that approximately 35 percent of the housing stock in unincorporated areas is relatively new, 20 years old or less. According to the 2015-2019 ACS, approximately 46 percent of the housing stock in unincorporated Imperial County was built before 1990 (30 years or older). Based on this, it is safe to assume that a majority of these units need some type of rehabilitation.

It should also be noted that nearly 23 percent of all housing units in the unincorporated county are mobile homes (see Table A-17). Experience has shown that these structures age much more rapidly than those of traditional construction; therefore, assumptions regarding housing conditions based solely on age may not be valid for manufactured homes.

According to Imperial County Code Enforcement, at the time of this Housing Element update, there are approximately 153 active condemnation cases and 30 active repair orders. County staff estimates that

approximately 10 to 15 condemnation and repair orders, combined, are received per month, and that approximately 10 percent of the County’s housing stock is in need of repair or rehabilitation.

**TABLE A-19
AGE OF HOUSING STOCK**

Development	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage
2014 or later	20	0.3%	2,755	4.7%
2010 to 2013	10	0.1%	1,489	2.6%
2000 to 2009	2,335	34.6%	10,686	18.3%
1990 to 1999	1,285	19.1%	10,931	18.8%
1980 to 1989	1,167	17.3%	8,365	14.4%
1970 to 1979	650	9.6%	9,741	16.7%

*Total County includes both incorporated and unincorporated communities.

Overcrowding

Overcrowding occurs when there is more than one person per room (excluding bathrooms and kitchens). Overcrowding can affect public facilities and services, reduce the quality of the physical environment, and create conditions that contribute to deterioration. Overcrowding most often occurs when housing costs are high relative to income, forcing more than one family to share a single unit or reside in a smaller unit.

According to the ACS, approximately 7.2 percent of households were living in overcrowded conditions in the unincorporated county as of 2019. Among these overcrowded households, approximately 79.0 percent were renters. The occurrence of overcrowding in the unincorporated county is similar to that in the county as a whole, where approximately 10.7 percent of households were living in overcrowded conditions as of 2019. Refer to **Table A-20** for data regarding overcrowding in the unincorporated county and in the county as a whole.

**TABLE A-20
OVERCROWDED HOUSEHOLDS**

Persons per Room	Unincorporated County		Total County*	
	Number	Percentage	Number	Percentage

Housing Costs and Affordability

TABLE A-21 LISTS 2020 AFFORDABLE RENTAL AND HOME SALE PRICES FOR IMPERIAL COUNTY WITHIN HCD-ESTABLISHED INCOME CATEGORIES (**TABLE A-7**), BASED ON A FOUR-PERSON HOUSEHOLD.

EXTREMELY LOW-INCOME HOUSEHOLDS HAD ANNUAL INCOMES OF \$26,200 AND COULD AFFORD MONTHLY RENTS OF \$655, OR TO PURCHASE A HOME PRICED AT APPROXIMATELY \$163,536. A VERY LOW-INCOME HOUSEHOLD WITH AN ANNUAL INCOME OF \$34,950 COULD AFFORD A MONTHLY RENT OF \$874, OR TO PURCHASE A HOME PRICED AT APPROXIMATELY \$218,152. A LOW-INCOME FOUR-PERSON HOUSEHOLD WITH AN ANNUAL INCOME OF \$55,900 COULD AFFORD A MONTHLY RENT OF \$1,398, OR TO PURCHASE A HOME PRICED AT \$348,918. A MODERATE-INCOME HOUSEHOLD WITH AN ANNUAL INCOME OF \$84,850 COULD AFFORD A MONTHLY RENT OF \$2,121 OR A HOME PURCHASE PRICE OF \$529,619.

**TABLE A-21
AFFORDABLE HOUSING COSTS BY INCOME CATEGORY**

	Income Level (Based on a 4-Person Household)			
	Extremely Low	Very Low	Low	Moderate
Annual Income	\$26,200	\$34,950	\$55,900	\$84,850
Monthly Income	\$2,183	\$2,913	\$4,658	\$7,071
Maximum Monthly Gross Rent ¹	\$655	\$874	\$1,398	\$2,121
Maximum Purchase Price ²	\$163,536	\$218,152	\$348,918	\$529,619

Source: HCD 2020 State Income Limits

1. Affordable cost 30 percent of gross household income spent on housing.
2. Affordable housing sales price is based on conventional 30-year loan at 3-percent interest and a 5% down payment.

Home Prices

Median housing prices in the unincorporated area vary considerably from townsite to townsite. Prices for homes in the areas near the larger incorporated cities are generally higher than are those for the smaller, outlying unincorporated areas. **Table A-22** depicts average home listing and sale prices in January 2021 for Census-designated places in unincorporated communities in the County. The median single-family home prices in the unincorporated areas ranged from a low of \$45,900 in Salton City to a high of \$309,900 in Heber.

**TABLE A-22
MEDIAN HOME SALES PRICES, 2021**

Community	Median Listing Price
Bombay Beach	-
Desert Shores	\$59,000
Heber	\$309,900
Niland	\$52,000
Ocotillo	-
Palo Verde	\$129,000
Salton City	\$45,900
Salton Sea Beach	\$65,000
Seeley	\$105,000
Winterhaven	\$140,000

Source: Realtor.com, January 2021

Note: Not enough homes were listed for sale in Bombay Beach or Ocotillo to calculate a median listing price.

Assuming that the potential homebuyer within each income group has sufficient credit, down payment (5 percent), and maintains affordable housing expenses (i.e., spends no more than 30 percent of their income on mortgage, taxes, and insurance), the maximum affordable home prices can be determined. **Table A-22** demonstrates the purchasing power of the income groups defined above.

Given the median single-family home price in the unincorporated county, homeownership is beyond the reach of most extremely low-income, and some very low-income, households. Low-income households may be able to afford to buy attached or prefabricated units such as townhomes, condominiums, and manufactured homes.

Manufactured Homes

According to Homes Direct, a provider of new manufactured and modular homes in the western states, including the Imperial County region, new manufactured housing in April 2020, the most recent available data, ranged from \$64,500 to \$120,300, on average. There would be an additional cost of preparing the land. Most manufactured housing developed in the county serves cost-constrained families, providing an affordable alternative to traditional stick-built development. **Table A-21** shows that a four-person, extremely low-income household can afford a maximum sales price of \$163,536, a very low-income household can afford a maximum sales price of \$218,152, and a low-income household can afford a maximum sales price of \$348,918, meaning that manufactured housing is affordable to extremely low- to low-income households.

Rental Housing Costs

The maximum amount a household can spend on rent depends primarily on the level of household income. **Table A-21** shows the approximate affordable rent based on income category for 2020. Maximum rent is based on a housing cost of 30 percent or less of monthly income. Maximum rents for households in Imperial County range from \$655 per month for extremely low-income households to \$2,121 for moderate-income households. The price of rental units in Imperial County varies from area to area depending on the neighborhood, style, and maintenance of the unit. Rental costs were generally found to be higher in the incorporated cities and lower in the outlying rural and desert areas. In February 2021, the County conducted a survey of rental housing websites to identify the median price of rental units by the size of the unit in unincorporated areas of the County. However, only six housing units were available to rent during the survey period, confirming the low-vacancy rate in unincorporated areas. Therefore, the median rents identified through this process may not reflect prices overall. The survey identified that the median monthly rent for a two-bedroom unit in the unincorporated county was \$1,011. Based on the income limits shown in **Table A-21**, this would be affordable to low- and moderate-income households. Refer to **Table A-23** for median rental rates in the unincorporated county.

**TABLE A-23
MEDIAN MONTHLY RENT, UNINCORPORATED IMPERIAL COUNTY**

Unit Size	Median Market Rent
1-bedroom	\$375
2-bedroom	\$1,778
3-bedroom	\$1,011
4-bedroom	\$1,350

Overpayment

Cost burden is the fraction of a household’s total gross income spent on housing costs. For renters, housing costs include rent paid by the tenant plus utilities. For owners, housing costs include mortgage payment, taxes, insurance, and utilities. A household with a cost burden greater than 30 percent of household income

is considered to be overpaying for housing. Overpaying households may have to sacrifice other necessities or live in overcrowded conditions.

According to the 2013-2017 CHAS, 9,570 renter households and 6,815 homeowner households were overpaying for housing in the whole of Imperial County (Table A-24). Among both owner and renter households, overpayment was particularly problematic for lower-income households. The largest number of overpaying renters were those with extremely low incomes (4,525 households). Similarly, 61.5 percent of owner households with extremely low incomes (1,375 households) were paying more than 50 percent of their income for housing. Additionally, 1,370 low-income owner households were overpaying for housing, with 61.3 percent, or 840 households, paying more than 50 percent of their income on housing.

This indicates an existing need for more affordable units across the county. Many of the County’s programs are geared toward supporting and assisting in the development of affordable units in the county, particularly the programs listed in Goal 2. Table A-24 describes the extent of overpayment in the county.

TABLE A-24
HOUSING OVERPAYMENT BY INCOME CATEGORY

Percent of Income Spent on Housing	Income Category					Total Households
	Extremely Low	Very Low	Low	Moderate	Above Moderate	
Renters

Housing Authority

Residents of Imperial County are served by the Imperial Valley Housing Authority (IVHA). IVHA provides public housing and administers the Section 8 Housing Choice Voucher Program. IVHA owns and manages 943 consistently occupied rental units for lower-income families, seniors, disabled persons, and farmworkers in locations throughout the county.

The Housing Choice Voucher Program provides recipients the opportunity to rent housing of their choice in the private market. The program provides rent subsidies to private landlords on behalf of participant households.

IVHA administers a total of 1,677 vouchers throughout the county. Between 6,000 and 7,000 applicants are on the Public Housing and Housing Choice Voucher waiting lists.

Preservation of Assisted Units at Risk of Conversion

Overview

State Housing Element law requires an analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years (through 2031) due to expiring subsidies, mortgage prepayments, or expiration of affordability restrictions, and development of programs aimed at their preservation. The following must be included in each Housing Element as part of its preservation analysis:

- An inventory of assisted housing units at risk of converting to market rate within 10 years.
- An analysis of the costs of preserving and/or replacing these units.
- Resources that could be used to preserve the at-risk units.
- Program efforts for preservation of at-risk units.
- Quantified objectives for the number of at-risk units to be preserved during the Housing Element planning period.

Use restrictions, as defined by state law, means any federal, state, or local statute, regulation, ordinance, or contract that, as a condition of receipt of any housing assistance (e.g., rental subsidy, mortgage subsidy, mortgage insurance) to an assisted housing development, establishes maximum limitations on tenant income as a condition of eligibility for occupancy.

Assisted Housing Inventory

Most assisted housing is located in the incorporated cities of the county where necessary services are located. However, as shown in **Table A-25**, eight assisted housing developments provide 367 affordable housing units in unincorporated areas of the county. The County has used a variety of funding sources to provide affordable housing to residents, including Community Development Block Grant (CDBG), HOME, Tax Credits, Rural Development loans, and other HUD assistance.

Affordable units are considered "at risk" if they are eligible to convert to market rate within 10 years. **Table A-25** shows that, while there are no units at risk of expiring by 2031, the loan for Heber Village is eligible to be paid off at any time, thus putting this property at risk of conversion. The County has included **Program 23** to reach out to the owners of Heber Village to express their desire to preserve affordability and complete the appropriate steps if the owners are not interested.

**TABLE A-25
ASSISTED HOUSING DEVELOPMENTS IN UNINCORPORATED IMPERIAL COUNTY**

Development	Location	Total Units	Affordable Units	Funding Source*	Earliest Date of Conversion
QHA Homes II	Fort Yuma Indian Reservation	38	37	LIHTC	2073

* LIHTC = Low-Income Housing Tax Credit; HUD = United States Department of Housing and Urban Development; USDA = United States Department of Agriculture

** The owners can apply to prepay the loan at any time, making this project at high risk of conversion to market rate.

Resources for Preservation

The types of resources needed for preserving at-risk units fall into three categories: (1) financial resources available to purchase existing units or develop replacement units; (2) entities with the intent and ability to purchase and/or manage at-risk units; and (3) programs to provide replacement funding for potentially lost Housing Choice Voucher Program rent subsidies, otherwise known as the Section 8 program.

A variety of federal and state programs are available for potential acquisition, subsidy, or replacement of at-risk units. Due to both the high costs of developing and preserving housing and limitations on the amounts and uses of funds, a variety of funding sources would be required. Several sources of funding are available to Imperial County for preservation of assisted, multifamily rental housing units to assist with purchasing units or providing rental subsidy, including CDBG or HOME funds. For older buildings with expiring affordability, funding for substantial rehabilitation may also give the County an opportunity to

reinstate affordability requirements. HUD may provide Section 8 Tenant Protection Vouchers to subsidize rents for tenants in properties at risk of loss because of expiration due to loss of affordability associated with mortgage pre-payment.

When affordable housing units have the potential to convert to market-rate, due typically to the expiration of an affordable housing agreement or expiration of funding, there is a risk that tenants in those affordable units will be displaced. Certain companies and organizations can be certified as eligible to purchase buildings where a federally assisted mortgage is due to be prepaid. No qualified entities were listed as being interested in purchasing at-risk buildings specifically for Imperial County. The following qualified entities are a portion of those listed as potential purchasers of at-risk units in all counties in California:

- Veritas Urban Properties, LLC
- Catalyst Housing Group, LLC
- JEMCOR Development Partners
- Jonathon Rose Companies
- Preservation Partners Development
- Dawson Holdings, Inc.
- Mesa Realty Advisors
- HCD
- Lincoln Avenue Capitol, LLC
- Eden Housing, Inc.
- GAL Affordable LP
- Highland Property Development, LLC
- American Community Developers, Inc.
- Berkadia
- California Commercial Investment Group
- Colrich Multifamily Investments, LLC

Strategies for Preserving Affordable Housing

Acquisition - For units at risk of conversion, qualified non-profit entities must be offered the opportunity to purchase buildings to maintain affordability.

The factors that must be used to determine the cost of preserving low-income housing include property acquisition, rehabilitation, and financing. Actual acquisition costs depend on several variables, such as condition, size, location, existing financing, and availability of financing (governmental and market). Looking at multifamily buildings throughout the County, prices ranged from \$62,500 per unit for a six-unit building in El Centro to \$175,000 per unit for a quadplex in Calexico. While all of the units listed for sale in May 2021 were in incorporated jurisdictions of Imperial County, purchasing residential units in unincorporated Imperial County will likely have a similar price range depending on where in the county the units are located. If the property needs significant rehabilitation, or financing is difficult to obtain, it is important to consider these factors in the cost analysis.

In addition to the cost of acquisition, the availability of housing presents another challenge for preserving affordable housing. In May 2021, just five multifamily properties were listed for sale in Imperial County.

Preservation - Housing affordability can also be preserved by seeking alternative means of subsidizing rents, such as the Section 8 Housing Choice Voucher program. Under Section 8, HUD pays the difference between what tenants can pay (defined as 30 percent of household income) and what HUD estimates as the fair-market rent on the unit. Based on HUD's fair-market rents, the total cost to subsidize rental costs over 20 years for a very low-income household would be \$36,720 for a two-bedroom home and \$117,840 for a three-bedroom home.

Replacement with New Construction – Another alternative to preserve the overall number of affordable housing units in the county is to construct new units to replace other affordable housing stock that has been converted to market-rate housing. Multifamily replacement property would be constructed with the same number of units, with the same number of bedrooms and amenities as the one removed from the affordable housing stock.

The cost of new affordable housing can vary greatly depending on factors such as location, density, unit sizes, construction materials, type of construction (fair/good), and on- and off-site improvements. Looking at a sample project from loopnet.com in May 2021 with 272 assisted units on 17 acres, the cost for land acquisition is approximately \$12,000 per unit, or \$3,264,000 total. In March 2020, the Turner Center reported that multifamily construction costs average approximately \$222 per square foot; therefore, the cost per unit for construction for 800-square-foot units is \$177,600 per unit, for a total construction cost of \$48,307,000. Based on the total cost of building this development, it can be estimated that the per-unit cost to replace low-income housing would be \$189,600.

Cost of Preservation versus Replacement

The cost to the County of preserving units projected to expire in 2031 is estimated to be less in most cases than replacing the units through new construction. Replacing the units with rehabilitated units may be cost-effective in some instances. Actual costs involved in each option will depend on the rental and real estate market situations at the time the affordability restrictions on these projects expire.

Extending low-income use restrictions to preserve the units as affordable may require financial incentives to the project owners. Other scenarios for preservation would involve purchase of the affordable units by a nonprofit or public agency, or local subsidies to offset the difference between affordable and market rents. Scenarios for preservation depend on the type of project at risk.

Assessment of Fair Housing

Assembly Bill (AB) 686 requires that all Housing Elements due on or after January 1, 2021, must contain an Assessment of Fair Housing (AFH) consistent with the core elements of the analysis required by the federal Affirmatively Furthering Fair Housing (AFFH) Final Rule of July 16, 2015.

Under state law, affirmatively further fair housing means “taking meaningful actions, in addition to combatting discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics.”

AB 686 requires the County, and all jurisdictions in the state, to complete three major requirements as part of the Housing Element update:

1. Conduct an AFH that includes a summary of fair housing issues; an analysis of available federal, state, and local data knowledge to identify patterns of segregation or other barriers to fair housing; and prioritization of contributing factors to fair housing issues.
2. Prepare the Housing Element Land Inventory and identification of sites through the lens of AFFH.
3. Include a program in the Housing Element that affirmatively furthers fair housing and promotes housing opportunities throughout the community for protected classes and addresses contributing factors identified in the AFH (applies to Housing Elements beginning January 1, 2019).

In order to comply with AB 686, the County has completed the following outreach and analysis.

Outreach

As discussed in the “Public Participation” section of the Housing Element in Chapter 1, Introduction, the County held two virtual community workshops, three individual stakeholder consultations, and conducted a brief survey that was paired with a video overview of the Housing Element update for residents and stakeholders to review and respond to. The County offered the presentations at community workshops and flyers in both English and Spanish.

The two community workshops were held online in April 2021 and offered presentations in both English and Spanish. Prior to holding these workshops, the County reached out to several community organizations in an attempt to identify in-person meetings to attend to improve access to the presentation for residents. However, the organizations noted that meetings were not being held regularly and would not align with the Housing Element update schedule; therefore, the County elected to hold the workshops online and provide a video overview that is available on the County’s website on-demand for all residents. At the community workshops, two public comments were received: one was about a potential student housing site to be located outside the City of Brawley, and the other expressed concern regarding the conversion of family units for farm labor (H2A) housing. The County expressed interest in discussing the student

housing further with the organization and confirmed that units are not being lost to conversion to H2A housing. Recordings of the presentation are available on the County's website.

In January and February 2021, the County reached out to 10 community organizations, fair housing advocates, service providers, and other stakeholder groups to solicit one-on-one feedback regarding housing needs in the county. Of these 10 organizations, 3 participated in an individual consultation. The primary concerns identified by these stakeholders were a shortage of affordable housing, a demand for rental assistance that exceeds what is available, and insufficient or inadequate transitional housing for homeless individuals and families. All three stakeholders emphasized a need for housing for homeless and low-income residents throughout the county.

Assessment of Fair Housing Issues

California Government Code Section 65583 (10)(A)(ii) requires Imperial County to analyze areas of segregation, racially or ethnically concentrated areas of poverty, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. Since 2017, the California Tax Allocation Committee (TCAC) and HCD have developed annual maps of access to resources such as high-paying job opportunities; proficient schools; safe and clean neighborhoods; and other healthy economic, social, and environmental indicators in an effort to provide evidence-based research for policy recommendations. This effort has been dubbed "opportunity mapping" and is available to all jurisdictions to assess access to opportunities within their community. Imperial County is unique in that most residents live along the highway corridor in the center of the county in communities that are located north to south from the Salton Sea to the California-Mexico border. Ocotillo, Palo Verde, and Winterhaven are the only communities located outside of this central area.

As shown in **Figure B-1, TCAC/HCD Opportunity Areas**, the 2021 TCAC/HCD Opportunity Areas designated the area surrounding the Salton Sea and adjacent to the California-Mexico border as low-resource. The communities of Desert Shores, Salton Sea Beach, Bombay Beach, Salton City, and Niland are in low-resource areas, Heber is in a moderate resource area, Seeley is in a high-resource area, and Winterhaven is in a highest resource area. There is insufficient data to identify the resource categorization of the communities of Ocotillo or Palo Verde. There are no areas identified as high segregation and poverty in Imperial County. The distribution of resource areas reflects where the greatest concentrations of residents are located in the county.

Some of the indicators identified by TCAC and HCD to determine the access to opportunities include high levels of employment and close proximity to jobs, access to effective educational opportunities for both children and adults, low concentration of poverty, and low levels of environmental pollutants, among others. These indicator scores decrease as the level of designation decreases from higher- to lower-resourced areas. Low-resource areas typically have limited access to education and employment opportunities and may have poor environmental quality. Areas of high segregation and poverty are those that have an overrepresentation of people of color compared to the County as a whole, and at least 30 percent of the population in these areas is below the federal poverty line (\$26,200 annually for a family of four in 2020).

It is important to note that a highest resource area can still have high concentrations of poverty, as is the case in Winterhaven. Resource areas designations are based on a variety of factors, as described above. While Winterhaven has high concentrations of poverty, it also has the best access to proficient educational opportunities in unincorporated Imperial County, is in close proximity to medical centers and hospitals, grocery stores, and large commercial and retail centers that provide employment opportunities. There are also a variety of transit opportunities for residents of Winterhaven, as described in the Access to Opportunity section. Given the context of Winterhaven, it is worth noting that even areas of high opportunity can still have fair housing issues and are included in this assessment.

Patterns of Integration and Segregation

Race and Ethnicity

As shown in **Figure B-2, Predominant Population - Hispanic Majority**, the majority of residents west of the East Highline Canal in Imperial County identify as Hispanic or Latino, with the predominant Hispanic majority surrounding, and south of, the City of El Centro (including Heber) and north of the City of Westmorland (including Niland). Heber has the highest percentage of residents that identify as Hispanic or Latino among the unincorporated communities of Imperial County, reflecting ethnic trends in incorporated jurisdictions in the county. In the southeastern corner of the county, where the community of Winterhaven is located, there is a slim (less than 10 percent) number of residents who identify as Native American. East of the East Highline Canal, with the exception of Winterhaven and the adjacent Fort Yuma Indian Reservation, is predominantly White. While the dominance of non-White, Hispanic residents is more common in SCAG jurisdictions than in many areas of the state, Imperial County has one of the largest areas in the SCAG region where the population predominantly identifies as Hispanic or Latino. Given the county's shared border with Mexico and trends of migrant and day workers crossing the border, this demographic makeup has dominated Imperial County since its inception.

As a result of the range in demographic identities throughout the county, Imperial County scores a diversity index score of over 70 in much of the county, with 100 being perfect diversity, and only the area between El Centro, Holtville, and Calexico, excluding Heber, having a lower diversity index score (**Figure B-3, Diversity Index 2018**). The northeast border of the Salton Sea just south of the Imperial County boundary has been identified as having a significantly lower diversity index score than the rest of the county; however, this area is largely unpopulated and likely does not reflect the area accurately. The high level of diversity in Imperial County has remained relatively constant in recent years, which the only notable change being an increase in diversity in the eastern half of the county. The diversity index scores in unincorporated Imperial County reflect the more rural areas of the SCAG region as a whole, such as eastern Riverside County and eastern San Bernardino County. Imperial County tends to have a higher rate of diversity in both its incorporated and unincorporated communities than urbanized areas of SCAG jurisdictions.

Income

In addition to racial and ethnic variation between the eastern and western portions of the county, Imperial County residents report a higher median income in and around incorporated jurisdictions and the western

half of the county, as seen in **Figure B-4, Median Income (2015-2019)**. In contrast, there is a lower median income near all shores of the Salton Sea, where several unincorporated communities are located. There has been an increase in the areas that report a higher median income, more reflective of areas outside of Imperial County, since 2014, when only the areas between, and including, the cities of El Centro and Brawley had a median income significantly above the poverty line. However, poverty is still a dominant issue in Imperial County. More than 20 percent of residents in all unincorporated communities, had an income below the poverty line in 2019, according to ACS. This was even higher in Winterhaven and the area west of the City of Calipatria, where more than 40 percent of residents had an income below the poverty line. While SCAG jurisdictions, like most jurisdictions in the state, do have some areas of concentrated poverty, Imperial County has a lower median income and higher rates of concentrated poverty than most of the region. As discussed previously in this chapter, a majority of residents of the unincorporated county are lower income, indicating that while segregation based on income in unincorporated Imperial County may not be an issue, access to affordable housing is a fair housing issue in the county. To combat this, the County has included **Program 12** to provide incentives for affordable housing and **Program 4** to work with the Imperial Valley Housing Authority to acquire and rehabilitate affordable multifamily units.

Racially and Ethnically Concentrated Areas of Poverty

While there are no racially and ethnically concentrated areas of poverty (R/ECAPs) in unincorporated Imperial County, there are two in incorporated jurisdictions, one in the City of El Centro and one in the City of Calexico. R/ECAPs, as defined by HUD, are areas in which 50 percent or more of the population identifies as non-White and 40 percent or more of individuals are living below the poverty line. While there are no HUD-designated R/ECAPs in unincorporated communities, the area immediately north of the Imperial County boundary along the shores of the Salton Sea in Riverside County are considered a R/ECAP. While planning for these is not within the jurisdiction of Imperial County, the County has accounted for the presence of these in the analysis of nearby unincorporated communities (Desert Shores and Salton Sea Beach), while reviewing patterns of segregation, access to opportunity, and housing need.

Racially Concentrated Areas of Affluence

Similarly, to R/ECAPs, there are no areas that meet the definition of a racially concentrated area of affluence (RCAA) in unincorporated Imperial County. A RCAA was defined in 2019 in the HUD's Cityscape periodical by Goetz et al. in *Racially Concentrated Areas of Affluence: A Preliminary Investigation* as a census tract in which 80 percent or more of the population is White and has a median income greater than \$125,000 annually. Using this definition, there are no census tracts in Imperial County that can be identified as a RCAA. In the SCAG region, RCAAs are located primarily in coastal communities and jurisdictions, with none in Imperial, Riverside, or San Bernardino counties. All census tracts in unincorporated Imperial County have a median income equal to or less than the State median income of \$87,100, indicating that there are no areas of concentrated affluence.

Familial Status

In most of the populated areas of the county, west of the East Highline Canal, approximately 40 to 50 percent of households were populated by married-couple families with children. However, in the areas

surrounding the City of Westmorland, there is a higher rate of single-parent, female-headed households with children than all other areas of unincorporated Imperial County. Familial trends mirror the SCAG region closely, with higher rates of families with children located near incorporated jurisdictions and more single-adult households in rural areas. The County will promote the CalWorks program to all residents, with a focus on the areas with a higher rate of female-headed households, to ensure all residents, regardless of familial status, have access to housing and services (Program 20).

Persons with Disabilities

According to the 2015-2019 ACS, the communities of Bombay Beach, Ocotillo, Salton City, Winterhaven, Desert Shores, and Salton Sea Beach each have a percent of the population that identifies as having a disability that is greater than the percentage of unincorporated Imperial County as a whole (15.1 percent). However, of these communities, Bombay Beach and Salton Sea Beach have experienced a significant decline in the percentage of the population with a disability since 2014. The communities with the lowest percentage of the population with a disability are those closest to incorporated jurisdictions, including Heber, Niland, and Seeley. Some jurisdictions, such as Palo Verde, has a large senior population, which tend to have higher chances of disability. Across the SCAG region, the percentage of the population with a disability is lower in and near incorporated jurisdictions or more urbanized communities. This may be due to the larger populations in these areas, increasing the number of residents without a disability, or increased number of young persons living near urban centers, which tend to have fewer disabilities than seniors. Overall, Imperial County reflects the disability trend seen across the SCAG region, which has higher rates of disability in rural, unincorporated areas, particularly where agriculture is the dominant industry, and lower rates near incorporated cities such as El Centro.

Access to Opportunity

Employment Opportunities

While there is limited housing in eastern Imperial County due to the geography, there are many jobs in this area. According to HUD's 2017 analysis of proximity to jobs, nearly the whole eastern half of Imperial County is considered close to jobs (Figure B-5, Job Proximity Index [2014-2017]). While the employment opportunities may not be geographically close in eastern Imperial County, they employ a large number of people and are therefore weighted more heavily by HUD. While the map indicates that jobs are concentrated in the eastern half of the county, an analysis of commute types found that the job access varies significantly and is difficult to measure for much of the unincorporated county. The mean commute time to jobs in the county in 2019, according to ACS, was 22.1 minutes. Niland, Salton Sea Beach, and Seeley, all had shorter mean commute times than this (19.1, 10.8, and 17.9 minutes, respectively). Mean commute times were not available for Bombay Beach, Desert Shores, Ocotillo, Palo Verde, or Winterhaven. Due to the high percentage of residents in these communities who are seniors that may no longer work, there is less need for jobs in some of these areas. To assist residents of the county who are seeking work to access job opportunities and improve their economic mobility, the County will promote the CalWorks program to provide assistance for eligible low-income families with children to meet basic needs and enter or re-enter

the workforce (Program 20). The County will also use the meetings with transit agencies to identify any unmet transit demand for access to employment centers (Program 20).

Educational Opportunities

According to the 2016 California Assessment of Student Performance and Progress (CAASPP) test scores listed on School-Ratings.com, only six schools in unincorporated Imperial County were ranked. These were located in Winterhaven (three ranked schools), Niland (one ranked school), Heber (one ranked school), and Seeley (one ranked school). Of these, only the schools in Heber and Niland ranked above the 50th percentile compared to other schools in the state. This ranking, however, is not comprehensive. In addition to these schools, there is one additional school in Winterhaven, six in Heber, and two in Salton City. Bombay Beach, Desert Shores, Ocotillo, Palo Verde, and Salton Sea Beach do not have a school at any level. While the ACS reports that there are no residents under age 18 in Bombay Beach and Palo Verde, according to ACS, Desert Shores, Ocotillo, and Salton Sea Beach do have small youth populations that need school facilities. While it is likely that there are children in both Bombay Beach and Palo Verde, there may not be enough to support a full school. The concentration of schools in communities further from the Salton Sea indicates disproportionate access to education across unincorporated Imperial County. This is further supported by Figure B-6, TCAC/HCD Educational Score, which depicts that the most positive educational outcomes are anticipated in communities near incorporated jurisdictions and in Winterhaven. While Imperial County differs from the rest of the SCAG region in many ways, lack of access to schools in rural and unincorporated communities reflects the trends seen in San Bernardino and Riverside Counties. To improve access to educational opportunities for residents of Imperial County, the County has included Program 20 to coordinate with Imperial County Transportation Commission to ensure that bussing is available for all residents to access schools.

Mobility

Imperial County residents are served by Imperial Valley Transit (IVT), operated by First Transit, Inc., and Yuma County Area Transit (Winterhaven). IVT offers fixed routes, deviated fixed routes, and remote zones routes. The fixed and deviated fixed routes operate primarily between the incorporated jurisdictions, Seeley, Niland, and Heber. Deviated fixed routes allow passengers to request service one day in advance for the communities of Seeley, Ocotillo, and the east side of the Salton Sea. The remote zone route operates once a week from Brawley to Niland and Bombay Beach, and back. There is no transit offered to the communities on the western shore of the Salton Sea, including Salton City, Salton Sea Beach, and Desert Shores. To better meet the needs of residents, the Imperial County Transportation Commission conducted an unmet Transit Needs Survey between March and April 2021. The County will work with the Transportation Commission to review unmet needs and assist with applying for funding to expand routes to improve mobility for residents, as necessary (Program 20). Residents of Winterhaven are served by Yuma County Area Transit, which provides connections to El Centro and Yuma, Arizona. Service to El Centro is offered four days per week, twice per day.

Access to Disability Services

To meet the needs of residents with disabilities, First Transit, Inc. operates IVT MedTrans, a non-emergency transit service offered between Imperial Valley and San Diego County to connect residents with medical facilities and doctors' offices. Additionally, First Transit, Inc. also operates IVT Access, an advanced reservation curb-to-curb transportation service. IVT Access includes vehicles with wheelchair lifts and is intended to serve individuals with physical or cognitive disabilities that are unable to use the standard routes offered by IVT.

Environmental Health

In February 2021, the California Office for Environmental Health Hazard Assessment (COEHHA) released the fourth version of CalEnviroScreen, a tool that uses environmental, health, and socioeconomic indicators to map and compare community's environmental scores. A community with a high score, is one with higher levels of pollution and other negative environmental indicators. As shown in **Figure B-7**, Imperial County has high pollution levels throughout much of the County, with the exception of Winterhaven and the tract east of the Niland. The areas with the poorest environmental health are those surrounding urban centers, such as the cities of El Centro, Brawley, and Westmorland, likely due to increased traffic emissions and industrial uses. Environmental conditions in Imperial County are similar to dense, urban cores in the SCAG region (e.g. cities of Riverside, Los Angeles, Pomona, etc.), where traffic and other factors decrease the level of environmental health.

The Imperial Valley Environmental Justice Taskforce comprises of residents, environmental enforcement officers, and community leaders in Imperial County. The members of the taskforce, which does not include County staff, meet monthly to discuss environmental monitoring and identify areas of concern. The County will meet with the Taskforce to identify steps the County can take to improve environmental conditions for residents (**Program 20**). Additionally, concurrently with the Housing Element update, the County is updating the Environmental Justice Element of the General Plan to identify communities that are disproportionately affected by pollution and other hazards that contribute to negative health effects, exposure, and environmental degradation to inform policies and programs to be included in the Environmental Justice Element.

Other Relevant Factors

The geographic conditions in Imperial County postponed the start of development until after 1901, when the Imperial Canal was first opened to bring water from the Colorado River to the Imperial Valley. Bordered by desert and mountains, much of the county is not conducive to habitation and for much of Imperial County's history, population growth has been tied to water supply and agricultural success. With the introduction of the Imperial Canal provided water for irrigation, which spurred an agricultural economy that brought farmers to the valley, and ultimately resulted in transportation connections to San Diego and railway lines that previously hadn't existed. This change further connected Imperial County to surrounding areas, stimulating growth. However, large-scale flooding and degrading soil quality stalled development in the early 1900s in Imperial County. It wasn't until 1940 when the All American Canal brought a stable water

supply, and power, back to the County did farming and other local economies growth once again. The history of Imperial County has been tied closely to the terrain and limitations it presented and most development did not begin in the county until after national segregation trends such as redlining. There is no history of redlining in Imperial County, a practice in which federal home mortgage loans were systematically denied to minority households, and the industry in Imperial County draws workers from neighboring communities in Mexico, just across the border. As a result, while Imperial County has a higher poverty rate and lower median income than surrounding jurisdictions, many patterns identified in this assessment of fair housing are not related to county policies such as exclusionary zoning or racial covenants. The primary driver of segregation in Imperial County is access to economic opportunity and healthy neighborhoods, as described throughout this assessment.

Disproportionate Need and Displacement Risk

Overcrowding and Overpayment

As discussed previously in this chapter under the “Housing Characteristics” section, overcrowding is a more significant problem among renters in unincorporated Imperial County than owners. While 7.2 percent of all households in the unincorporated county are overcrowded, 18.1 percent of renters are overcrowded, while approximately 2.2 percent of owners are living in overcrowded situations. The highest rate of overcrowding among renters is present in the communities of Heber (32.4 percent) and Salton City (23.3 percent), and the highest rate of overcrowding among renters is in Desert Shores (10.2 percent). Overcrowding is also present, at a lesser rate, in Bombay Beach, Niland, and Seeley; no overcrowding is reported in Ocotillo, Palo Verde, or Salton Sea Beach. The trends of overcrowding in Imperial County reflect the region, with higher concentrations of overcrowding in areas with higher poverty. The higher rate of overcrowding typically means that either appropriately sized housing is unaffordable to current residents, or that the type of housing available does not meet the community’s need. In either case, overcrowding means there is a disproportionate need for affordable, larger housing units in these areas. The County will meet with the developers to identify barriers to constructing larger housing (**Program 12**) and has included several other programs to incentivize development of affordable housing.

In addition to overcrowding, overpayment is also a significant issue in Imperial County. As shown in **Figure B-8, Overpayment by Renters (2015-2019)**, renter households overpaying for housing is a chronic issue across the developed areas of Imperial County and the region. Approximately 48 percent of all renter households in Imperial County are overpaying for housing, with 52 percent of those severely overpaying. Additionally, approximately 36 percent of owners are overpaying for housing, with 42 percent of those severely overpaying. This issue has been present in recent years, though the areas with the greatest rate of overpayment have shifted along with the increase in poverty, as shown in **Figures B-8 through B-11**. Renters overpaying for housing have concentrated in the center of the county, as shown in **Figure B-8**, while owners overpaying have shifted from the western to the eastern areas of the county (**Figure B-10, Overpayment by Homeowners [2015-2019]**). The shift in concentration of overpayment reflects changes in poverty distribution in Imperial County. Overpayment increases the risk of displacing residents who are no longer able to afford their housing costs. To address displacement risks due to overpayment, the County will provide incentives to encourage affordable development and will develop a targeted program to connect

lower-income residents with affordable homeownership and rental opportunities within the county (Program 20).

The shortage of housing in Imperial County may further both overcrowding and overpayment as residents may have to “double up” due to lack of housing options or to be able to afford the housing that is available. In 2019, the vacancy rate for rental units was 1.1 percent and 1.2 percent for ownership units. These vacancy rates are typically considered low as they do not provide enough availability for residents to easily relocate due to any circumstances that may arise, such as a change in job, income, or growing family. The County has included Program 12 to incentivize development to increase the supply and enable mobility for residents with a disproportionate risk for displacement in Imperial County.

Housing Condition

Housing condition presents another issue in Imperial County that may increase displacement risk for residents. Approximately 56 percent of housing in the unincorporated areas of the county are older than 30 years, which is typically the age at which housing units begin to need repairs or rehabilitation to meet current standards or fix features that have begun to degrade. Additionally, 23 percent of the housing stock in Imperial County is manufactured homes, which often need more frequent maintenance to remain in good condition or may be unpermitted and in substandard condition (see “Housing Stock Conditions” of the Community Profile). California Rural Legal Assistance and other stakeholders also emphasized the poor conditions of housing for farm workers. Given the state of existing housing, especially for lower-income households, the County will promote available rehabilitation programs to assist homeowners with rehabilitation or repair and, when funding permits, will provide relocation assistance for tenants who are temporarily or permanently displaced as a result of rehabilitation efforts (Programs 10 and 21). Enforcement and Outreach Capacity

The County enforces fair housing and complies with fair housing laws and regulations through a twofold process: review of County policies and code for compliance with State law and referring fair housing complaints to appropriate agencies.

The County reviewed and amended Division 5 of Title 9 (the Zoning Ordinance) to ensure compliance with fair housing law, and continues to examine land use policies, permitting practices, and building codes to comply with state and federal fair housing laws. Periodic reviews of the zoning code and policies confirm that, as the county changes, it continues to ensure and enforce that all persons have access to sound and affordable housing. The County has also included Programs 7 and 15 to amend the Zoning Ordinance to reflect new changes to State law and Program 22 to develop a proactive code enforcement program to connect lower-income households in areas of concentrated rehabilitation need with rehabilitation assistance.

In addition to assessing fair housing issues related to development standards, fair housing issues can include housing conditions and discriminatory behaviors by landlords. Imperial County complies with fair housing law regarding complaints by internally reviewing and responding to fair housing complaints and distributing fair housing information to the real estate industry and posting information in public buildings. To date, no fair housing complaints have been made to the County. Residents of Imperial County also have access to services provided by the California Rural Legal Assistance (CRLA), HUD's Department of Fair Housing and Equal Opportunity (FHEO), and the California Department of Fair Employment and Housing (DFEH).

CRLA serves low-income individuals and provides services for farmworkers in Imperial County. In December 2020, CRLA shared that complaints they receive regarding fair housing can range from housing discrimination against farmworkers, issues with landlords, to administrative complaints. They emphasized that housing issues such as discrimination by landlords or land use compatibility issues have resulted in undesirable housing conditions for farmworkers and substandard housing conditions due to lack of access to water or basic infrastructure for some low-income residents. The shortage of housing for extremely low-income individuals and short-term housing for migrant workers are two of the largest barriers to fair housing for residents that CRLA works with in Imperial County. To address the housing conditions concerns, the County has included **Programs 10 and 22** and to address safety concerns in farmworker and transitional housing and **Program 21** to provide rehabilitation assistance, when feasible.

In its 2019 Annual Report, the DFEH reported that it did not receive any housing complaints from residents of Imperial County. As part of the Fair Housing Assistance Program (FHAP), DFEH dual-files fair housing cases with HUD's Region IX FHEO, which is able to identify the specific jurisdiction from which a complaint originates. According to HUD's Region IX FHEO, one fair housing discrimination case was filed with and accepted by HUD from an unincorporated area (Salton City) of Imperial County from January 1, 2013, through March 31, 2021. The case alleged discrimination based on race and color; however, the case was closed after HUD made a finding of no cause. In addition to this case, two inquiries with unknown reasons for the alleged discrimination were sent to HUD to determine their validity. In reviewing these cases, one was closed after the claimant did not respond to HUD's follow up and one was found to not be a valid issue. As in all jurisdictions, the number of cases reported to local, state, and federal fair housing organizations may not capture the full extent of discrimination issues as some individuals may choose not to report an incident.

CRLA and DFEH were unable to provide specific location information for cases either because they do not track the geographic origin of complaints or due to confidentiality concerns. Therefore, the County was unable to conduct a complete spatial analysis of fair housing cases to identify any patterns or concentrations of fair housing issues in the county. **Program 19** has been included to work with fair housing enforcement organizations and agencies to track issues and identify patterns in the county.

Sites Inventory

The location of housing in relation to resources and opportunities is integral to addressing disparities in housing needs and opportunity and to fostering inclusive communities where all residents have access to opportunity. This is particularly important for lower-income households. AB 686 added a new requirement

for housing elements to analyze the location of lower-income sites in relation to areas of high opportunity. The California Tax Credit Allocation Committee (TCAC) and HCD prepared opportunity maps that identify resource areas. Areas of high or highest resource have increased access to public services, educational and employment opportunities, medical services, and other daily services (e.g., grocery, pharmacy).

Figure B-1 shows the distribution of resource categorization throughout the County, as defined by TCAC/HCD. As shown in Figures C-1 and C-2 the sites identified to accommodate the County’s lower-income RHNA are located in Heber and the 101 Ranch and Rancho Los Lagos specific plans south of the City of Brawley. Heber is considered a moderate resource area and the specific plan areas are both considered high resource. The sites identified in the inventory are located near regular transit routes, employment, services, and schools to ensure that residents have access to opportunities and resources. However, in order to further improve access to resources in low resource areas and encourage economic mobility for all residents, the County has included Program 2 to expand public water and sewer capacity in unincorporated areas, Program 21 to assist with rehabilitation and repair of housing for low-income households, and Program 28 to facilitate lot consolidation for specific plans. Additionally, the County will work with transit agencies to assess demand to expand their routes to connect residents to resources (Program 20).

The County’s strategies to promote affordable housing in moderate and high resource areas while also expanding infrastructure and services into underserved unincorporated communities will affirmatively further fair housing by addressing both housing need and improving access to resources.

Contributing Factors

Through discussions with stakeholders, fair housing advocates, and this assessment of fair housing issues, the County identified factors that contribute to fair housing issues in Imperial County, as shown in Table A-26.

**TABLE A-26
FACTORS THAT CONTRIBUTE TO FAIR HOUSING ISSUES IN IMPERIAL COUNTY**

AFH Identified Fair Housing Issues	Contributing Factors	Meaningful Actions
Displacement of residents due to economic pressures.	Shortage of affordable housing. Cost of repairs and rehabilitation. Dominance of manufactured homes as the affordable option, which does not provide much opportunity for economic mobility.	Integrate affordable housing into Specific Plan developments (Program 3). Assist with acquisition, rehab, and construction of affordable housing (Program 4). Incentivize construction of ADUs (Program 9). Provide technical assistance, streamlining, and incentives to

AFH Identified Fair Housing Issues	Contributing Factors	Meaningful Actions
		<p>support affordable housing development (Program 13).</p> <p>Allow SROs without a use permit (Program 18).</p> <p>Promote CalWorks in rural areas of the county (Program 20).</p> <p>Provide rehabilitation and weatherization loans for lower-income households (Program 21).</p> <p>Work with affordable housing providers to preserve units (Program 23).</p> <p>Facilitate lot consolidation to support affordable housing developments (Program 29).</p>
Displacement of farmworkers.	<p>Shortage of short-term rental units for migrant worker housing.</p> <p>Shortage of extremely low-income housing.</p> <p>Poor conditions in transitional housing options.</p>	<p>Provide regulatory incentives to encourage construction of housing for special-needs groups (Program 10).</p> <p>Collaborate with agricultural employers to identify opportunities for farmworker housing (Program 11).</p> <p>Conduct a survey of farm worker housing conditions (Program 11).</p>
Access to services.	<p>Limited and infrequent transit routes to unincorporated communities.</p> <p>Lack of schools in communities surrounding the Salton Sea.</p> <p>Size of student body needed to support construction of a school.</p>	<p>Work with service districts to increase capacity (Program 2).</p> <p>Support social service agencies secure funding to provide housing-related services (Program 12).</p> <p>Distribute information on homeless and community assistance programs (Program 14).</p> <p>Ensure residents with disabilities have access to services or referral programs (Program 17).</p> <p>Work with transit agencies to increase mobility and routes to schools during the school year, as needed (Program 20).</p>

AFH Identified Fair Housing Issues	Contributing Factors	Meaningful Actions
		Promote employment services, community services, and medical services in low-resource areas (Program 20).
Displacement of residents due to overcrowding.	Shortage of larger affordable housing units. Low-vacancy rate due to insufficient housing supply.	Identify and address barriers to constructing units with three or more bedrooms (Program 12). Provide technical assistance, streamlining, and incentives to support affordable housing development and expand supply (Program 13).

Areas with limited access to services and education or with poor housing conditions are most likely to experience fair housing issues. Given that these issues are present throughout Imperial County, the County has identified the above as contributing factors and barriers to fair housing and has included implementation strategies throughout the goals, policies, and actions in this Housing Element to further fair housing and address historical patterns of segregation and poverty beyond just the program required to satisfy AB 686 (Program 20).

Housing Resources and Opportunities

Regional Housing Needs

State law (California Government Code Section 65580 et seq.) requires the California Department of Housing and Community Development (HCD) to project statewide housing needs and allocate the anticipated need to each region in the state. For much of Southern California, including Imperial County, HCD provides the regional need to the Southern California Association of Governments (SCAG), which then distributes the Regional Housing Needs Allocation (RHNA) to the cities and counties within the SCAG region. SCAG allocates housing production goals for cities and counties based on their projected share of the region’s household growth, the state of the local housing market and vacancies, and the jurisdiction’s housing replacement needs.

Imperial County’s share of the 2021 to 2029 RHNA planning period is 4,301 units for the unincorporated areas. Refer to Table A-27 for a breakdown of units by income category.

**TABLE A-27
UNINCORPORATED IMPERIAL COUNTY REGIONAL HOUSING NEED, 2021-2029**

Income Category	2021-2029 RHNA	Percent of Total
Extremely Low Income*	601	14.0%
Very Low Income	602	14.0%
Low Income	596	13.9%
Moderate Income	580	13.4%
Above Moderate Income	1,922	44.7%
Total	4,301	100.0%

Source: SCAG 6th Cycle Final RHNA Allocation Plan, March 2021

**Note: It is assumed that the extremely low-income unit need is 50 percent of the very low-income allocation.*

Local governments can employ a variety of strategies to meet RHNA housing production goals, as provided in California Government Code Section 65583(c)(1), including vacant land zoned for residential uses, development of accessory dwelling units, and the potential for redevelopment of underutilized sites. As described in the Availability of Land section that follows, Imperial County has vacant land zoned for residential development at a range of densities to exceed the RHNA for all income categories.

Availability of Land

State Housing Element law emphasizes the importance of adequate land for housing and requires that each Housing Element “...identify adequate sites... to facilitate and encourage the development of a variety of housing types for all income levels...” (California Government Code Section 65583(c)(1)). To allow for an adequate supply of new housing, land must be zoned at a variety of densities to ensure that development is feasible for a wide range of income levels. The identified land must also have access to appropriate

services and infrastructure, such as water, wastewater, and roads. The sites listed in **Table A-29** are currently available and will allow for the development of a variety of housing types that will potentially meet the needs of all income groups allocated by SCAG for the 2021-2029 planning period.

Sites Identified in Previous Housing Element

Pursuant to California Government Code Section 65583.2(c), a non-vacant site identified in the previous planning period and a vacant site that has been included in two or more previous consecutive planning periods cannot be used to accommodate the lower-income RHNA unless the site is subject to a program in the Housing Element requiring rezoning within three years of the beginning of the planning period to allow residential use by-right for housing developments in which at least 20 percent of the units are affordable to lower-income households.

Table A-29 indicates (denoted in bold) whether inventoried sites are subject to California Government Code Section 65583.2(c). Most sites included in the inventory for lower-income housing have been identified in previous Housing Elements. While the sites included in the lower-income inventory already allow housing by-right, the Housing Element includes Policy 1.2 to ensure housing developments in which at least 20 percent of the units are affordable to lower-income households will be allowed by-right.

Sites Appropriate for Lower-Income Housing

Housing element law requires jurisdictions to provide a requisite analysis showing that zones identified for lower-income households are sufficient to encourage such development. The law provides two options for preparing the analysis: (1) describe market demand and trends, financial feasibility, and recent development experience; or (2) utilize default density standards deemed adequate to meet the appropriate zoning test. According to state law (California Government Code Section 65583.2(c)(3)(B)), the default density standard for Imperial County is 20 dwelling units per acre.

Realistic Capacity

Imperial County has vacant land zoned for residential development at a range of densities up to 29 units per acre, with a total capacity for 13,524 units of which 3,412 units are in higher-density zones (20 to 29 units per acre), well in excess of the lower-income RHNA of 1,799.

All sites allow for at least the required default density for Imperial County of 20 dwelling units per acre. The County considered and evaluated the implementation of its current development standards and on-site improvement requirements (e.g., setbacks, building height, parking, and open space requirements) as well as, looked at a recent proposed project (see **Table A-30**) to determine a realistic unit capacity for all vacant sites outside of specific plans. Specific Plans relied on the approved unit counts for each plan.

Realistic capacity for vacant residential sites was determined by multiplying the number of acres by the maximum density for the site; a factor of 80 percent of the maximum density was applied to account for site and regulatory constraints that may limit each site from being built to 100-percent density. The County also relied on a current project to determine the realistic capacity. The project is planned for 320 units on

16.2 acres, providing for 76 percent realistic capacity. This further supports the assumption that 80 percent realistic capacity is appropriate.

Identified vacant sites range in size and include smaller single-family parcels and large parcels in Specific Plan areas. Many higher-density sites (zoned R-3 and R-4) are between 1 and 2 acres and are located adjacent to one another, allowing for potential development in a variety of sizes. A detailed inventory of vacant residential sites is provided in **Table A-29**.

Vacant sites zoned for low- and medium-density residential are assumed to be appropriate for market-rate housing, affordable to households with moderate- and above-moderate incomes. Imperial County can accommodate market-rate housing well beyond the needs projected in the RHNA. Refer to **Table A-28** for a comparison of the RHNA to realistic capacities for each income category.

Sites in the vacant land inventory are located in existing townsites in the unincorporated county and in Specific Plan areas, including 101 Ranch, McCabe Ranch II, and Rancho Los Lagos. Imperial County's Specific Plans are described in greater detail later in this chapter.

Proposed Project

In March 2021, Chelsea Investment Corporation submitted to the County a Tentative Tract Map for a 320-unit affordable housing project on 16.2 acres located in Heber at the southwest corner of the intersection of E. Correll Road and Pitzer Road (Table A-30). Chelsea Investment Corporation has confirmed their intent to construct and signalize the intersection, construct a sidewalk to a nearby elementary school, and other improvements to facilitate an accessible environment for residents.

Site #	APN	Zoning	General Plan Land Use	Acreage	Allowed Density	Proposed Units
11	054-604-016	R-3	Urban Area	16.2	29	320

Accessory Dwelling Unit Potential

The County considers Accessory Dwelling Units (ADUs) appropriate for low-income households as either a primary residence or as farmworker housing. Currently, there is no available data for ADU rental rates in the County. Therefore, the County relied on median monthly rental rates for one-bedroom units identified in Table A-22 as a proxy for ADU rental rates. The average monthly rent for a one-bedroom unit in Imperial County varies significantly depending on its location within the county. Low-income households can afford between \$979 (one-person) and \$1,398 (four-person) in monthly housing costs without being cost burdened. Comparing the rental rates with the affordability of low-income households shows that ADUs are appropriate to credit toward the County’s lower-income RHNA.

Between 2019 to 2020, the County permitted six ADUs, an average of three per year. The County projects that the annual average will double during the 2021-2029 planning period as a result of increased efforts to promote and encourage construction of ADUs. Therefore, the County projects that 48 ADUs will be constructed over the course of the planning period. According to SCAG’s Regional Accessory Dwelling Unit Affordability Analysis released in December 2020, approximately 15.0 percent of second units in Imperial County are affordable to extremely low-income households, 7.7 percent are affordable to very low-income households, 34.8 percent are affordable to low-income households, 34.8 percent are affordable to moderate-income households, and 7.7 percent are affordable to above moderate-income households. Using this analysis of affordability, the County projects that 58 percent of ADUs, or 28 units, will be affordable to lower-income households, 35 percent, or 17 units, will be affordable to moderate income households, and 8 percent or, or 4 units, will be affordable to above moderate-income households.

Manufactured Home Potential

As discussed in Chapter 3, Housing Needs Assessment, of the Housing Element, Homes Direct reported that in April 2020, the most recent available data, new manufactured housing ranged in price from \$64,500 to \$120,300, on average. Most manufactured housing developed in the county serves cost-constrained families, providing an affordable alternative to traditional stick-built development. **Table A-21** shows that a four-person, extremely low-income household can afford a maximum sales price of \$163,536, a very low-income household can afford a maximum sales price of \$218,152, and a low-income household can afford a maximum sales price of \$348,918, meaning that manufactured housing is affordable to extremely low- to low-income households.

Between 2014 and 2020, there was an average of 20 mobile/manufactured homes added to the County's housing stock per year. Projecting these 20 units over the RHNA period (eight years) gives the County a projected capacity of 160 manufactured/mobile homes.

Specific Plans

Much of the planned residential development in unincorporated Imperial County is located within Specific Plan areas, including 101 Ranch, McCabe Ranch II, and Rancho Los Lagos. Adopted Specific Plans have undergone environmental review and identify how adequate infrastructure, including water and sewer, will be provided. The Specific Plan descriptions herein provide an overview of the general character of each plan area and highlight development standards unique to the plan. Unless otherwise noted, standards align with those in the County's General Plan.

101 Ranch Specific Plan

The 101 Ranch Specific Plan, adopted in 2012, encompasses 1,894 acres of land located between the cities of Brawley and Imperial. The plan provides for 7,481 residential units ranging from entry-level duplex homes on 4,000-square-foot lots to "move-up" homes on 8,000-square-foot lots.

Units in the Low-Density Residential (R-1) and Medium-Density Residential (R-2) zones will likely accommodate above moderate-income households, while other housing types, such as the garden courts and townhomes in the Multifamily/Attached Residential (R-3) areas allowing up to 20 units per acre (1,387 units), will be developed on smaller lots (as small as 2,500 square feet) and will be appropriate for low-income households. Note that the R-1, R-2, and R-3 designations in this Specific Plan differ from those of the County's General Plan.

Development standards in the 101 Ranch Specific Plan allow for a variety of lot configurations with required and optional development standards. Options vary by zone but typically allow trade-offs between setbacks and parking requirements. 101 Ranch is expected to be developed in three stages, beginning with the West Community, then the East Community, and finally the Central Community. Refer to **Table A-31** for a summary of the size, density, and planned units in each of the three communities.

Water, wastewater, and other services for the 101 Ranch area will be financed and constructed by the developer. Services will likely be located outside of the plan area and constructed within the Mesquite Lake County Service Area to serve the 101 Ranch, Rancho Los Lagos, and other planned development.

TABLE A-31 RANCH SPECIFIC PLAN RESIDENTIAL UNIT POTENTIAL

Area/Zone	Maximum Density (units per acre)	Acres	Units ¹
West Community		665.7	3,229
R-1	5	303.9	1,268
R-2	8	361.8	1,961

East Community ²		426.3–439.4	2,278–2,396
R-1	5	154.9	649
R-2	8	203	1,081
R-3	20	68.4	548
CCMU ²	20	13.1	118
Total		1,303.3–1,316.4	6,986–7,104

Source: 101 Ranch Specific Plan, 2011

1. Units planned are from 45% to 80% of the maximum density.

2. The plan allows for flexibility in the Community/Commercial Mixed Use (CCMU) area; these sites may be developed with community-serving commercial or up to 118 residential units or some mix thereof.

McCabe Ranch II Specific Plan

The McCabe Ranch II Specific Plan, adopted in 2010, describes development planned for a site of approximately 457 acres located near the townsite of Heber in the unincorporated county, south of the City of El Centro. The plan includes four main components: a conventional residential community, a gated residential community, a business park/commercial area, and a village commercial area. In addition, the plan calls for uses including parks, schools, and public facilities.

The plan provides for a maximum of 2,300 housing units. Housing options include attached and detached single-family homes on a variety of lot sizes, as well as multifamily units at a density of up to 24 units per acre. It is assumed that the High-Density Multifamily (718 units) is appropriate to accommodate the County's lower income RHNA based on the assumed density. Refer to Table A-32 for a summary of the unit types, densities, and total units in the specific plan area.

There are no specific timing or phasing requirements, construction will depend on market conditions and demand. The plan allows for flexibility in the specific type of housing constructed and mix of commercial uses to allow for changing demand.

Development in the McCabe Ranch II area will connect to the Heber Public Utility District. The Specific Plan anticipates upgrades and expansions to the Heber Public Utility District systems to accommodate the new development. McCabe Ranch II developers will contribute to infrastructure expansion financing.

TABLE A-32 MCCABE RANCH II SPECIFIC PLAN RESIDENTIAL UNIT POTENTIAL

Residential Type	Max. Density (units per acre)	Acres	Units
Traditional Lot, Single-Family	5	83.9	420
Small Lot, Single-Family	7	31.6	221

Low-Density, Single-Family	n/a (1 SF dwelling per site, min. lot size 6,000 sf)	33.4	167
High-Density Multifamily	24	8.6	131
Total		293.6	2,300

Source: McCabe Ranch II Specific Plan, June 2010

Rancho Los Lagos Specific Plan

The Rancho Los Lagos Specific Plan, adopted in 2012, provides for 3,830 housing units in a 1,076-acre mixed-use, walkable community. The plan establishes four community areas: conventional residential, active adult residential, golf course, and business park. Development timing will be based on market conditions, and each area may be developed over several phases, with associated infrastructure and community facilities provided concurrently.

High Density Multifamily areas will accommodate 1,016 units at densities between 12 and 24 units per acre and are appropriate to meet the County’s lower income RHNA based on allowable density. Medium-Density Single-Family areas will accommodate 1,501 units in duplexes and detached single-family dwellings and cluster single-family dwellings (shared driveway) on lots under 5,000 square feet. Low-Density Single-Family areas will accommodate 1,313 single-family residences on lots over 5,000 square feet.

The Rancho Los Lagos Plan includes provisions for 939 units in an “active adult” community that would be age restricted to residents 55 years and older. Homes at low and medium densities are planned to meet the needs of seniors at a wide range of income levels. The area would be served by a homeowner’s association recreation complex as well as by community-wide parks, lakes, and a golf course.

Refer to **Table A-33** for a summary of land and unit potential by residential development type.

According to the Rancho Los Lagos Environmental Impact Report, development in the Rancho Los Lagos area will connect to planned water and wastewater services facilities to be provided in the Keystone County Service Area. In the event that construction at Rancho Los Lagos commences before the service facilities are completed, the Keystone County Service Area will provide a temporary water treatment plant.

TABLE A-33 RANCHO LOS LAGOS SPECIFIC PLAN RESIDENTIAL UNIT POTENTIAL

Medium-Density	n/a ²	77	510
Total		540	3,830

Source: Rancho Los Lagos Specific Plan, 2011

1. One unit per lot, minimum lot size of 5,000 square feet.

2. Detached single-family dwellings on lots ranging from 3,500 to 4,999 square feet; cluster detached single-family dwelling units (4 to 6 units sharing a common driveway) on lots ranging from 2,900 to 4,999 square feet; and duplex units on lots ranging from 3,200 to 4,999 square feet.

Sites Analysis Summary

Based on the land analysis, the County has sufficient land to accommodate 6th Cycle RHNA, shown in **Table A-28**. Moderate- and above moderate-income unit allocations are met through specific plans, and projected ADUs. Lower income unit allocations are met through vacant sites, specific plans, the Chelsea Investment Corporation projected project and through projected ADUs and manufactured homes.

As shown in **Table A-28**, the County has a surplus of 2,084 lower-income units, 4,592 moderate-income units, and 3,039 above moderate-income units. The available capacity far exceeds the County’s RHNA.

**TABLE A-28
2021-2029 RHNA ANALYSIS**

Income Group	2021-2029 RHNA	Vacant Site Capacity	Pending Project	Projected ADUs	Projected Manufactured Homes	Unit Surplus
Very Low	1,203	3,375	320	28	160	2,084
Low	596					
Moderate	580	5,155	-	17		4,592
Above Moderate	1,922	4,957	-	4		3,039
Total	4,301	13,487	320	48	315	9,714

Environmental Constraints and Infrastructure

Though fault lines and floodplains are present in the Imperial Valley, the ample availability of land in the county allowed for the identification of potential sites that are not subject to environmental factors that would present a constraint to housing development. All sites listed in the inventory are within the Heber Public Utilities District (HPUD) or have identified adequate infrastructure improvements and financing as part of a Specific Plan. Additionally, the County has included **Program 2** to assist with Infrastructure Availability and Coordination —to work with community service districts to identify and overcome constraints to providing water and sewer service for housing, prioritizing improvements for lower-income housing and in low-resource areas to further place-based revitalization efforts.

Housing Constraints

The availability, cost, and quality of housing are influenced by factors including economic and housing market conditions, the availability of financing, governmental practices and processes, and public and private attitudes toward housing for local residents. This chapter addresses potential governmental, non-governmental, and infrastructure constraints to affordable housing development, as well as opportunities for energy conservation.

Non-Governmental Constraints

Construction Costs

Construction costs vary widely based on the type of development, with multifamily housing generally less expensive to construct than single-family homes on a per-unit basis. Variables such as unit size and the number and quality of amenities, such as fireplaces, swimming pools, and interior fixtures create wide cost variations within each construction type.

In addition to construction costs, the price of land is one of the primary components of housing development costs. Land costs vary depending on whether the site is vacant or has an existing use that must be removed. Similarly, site constraints such as environmental issues (e.g., steep slopes, soil stability, seismic hazards, or flooding) can impact the cost of land. Other costs may stem from professional services such as land surveying and engineering, soils engineering/analysis, site design, landscape and architectural design, and permit processing.

According to construction cost data provided by the Craftsman Book Company, a wood-framed single-story four-cornered home in Imperial County is estimated to cost approximately \$262,787 to build, excluding the cost of buying land. This cost estimate is based on a 2,000-square-foot house of good quality construction including a two-car garage and forced air heating and cooling. **Table A-34** summarizes the projected construction costs.

If labor or material costs increase, the cost of construction in Imperial County could rise to a level that impacts the price of new construction and rehabilitation. Therefore, increased construction costs have the potential to constrain new housing construction and the rehabilitation of existing housing. The County will do its part in reducing development processing times and providing a more streamlined review process by continuing to implement **Program 27** described in the Goals, Policies, and Programs section.

**TABLE A-34
CONSTRUCTION COSTS**

Item Name	Materials	Labor	Equipment	Total
Direct Job Costs (e.g., foundation, plumbing, materials)	\$112,203	\$96,980	\$5,109	\$214,292
Indirect Job Costs (e.g., insurance, plans and specifications)	\$16,844	\$1,650	-	\$18,494
Contractor Markup	\$30,001	-	-	\$30,001
Total Cost	\$159,048	\$98,630	\$5,109	\$262,787

Source: Building-Cost.net, accessed February 2021

Land Costs

Land costs are one of the major components of housing development costs. Land prices vary to such an extent that it is difficult to give average prices, even within small geographic regions. Factors affecting the costs of land include overall availability within a given subregion; environmental site conditions and constraints; public service and infrastructure availability; aesthetic considerations, such as views, terrain, and vegetation; the proximity to urban areas; and parcel size. Generally, more remote areas have less expensive land available and in larger tracts. Smaller and more expensive parcels are closer to urbanized areas.

Land costs in the unincorporated county typically reflect their location within the county, availability or presence of infrastructure, and are similar to incorporated jurisdictions nearby. Table A-35 shows average land costs in unincorporated communities of Imperial County where land is listed for sale as of May 2021. Residential land prices of all sites surveyed ranged from \$792 per acre for a site in Palo Verde to \$207,143 per acre for a site in Salton City.

**TABLE A-35

Availability of Financing

The cost of borrowing money to finance the construction of housing or to purchase a unit affects the availability and affordability of housing in Imperial County. Fluctuating interest rates can eliminate many potential homebuyers from the housing market or render a housing project that could have been developed at lower interest rates infeasible. When interest rates decline, sales increase. The reverse has been true when interest rates increase. The recent economic downturn had a significant impact on the housing market and housing financing. In the years following the downturn, financing has become more difficult to obtain, especially for low- and middle-income households. This could be a constraint to homeownership for lower-income families. At the same time, post-economic downturn interest rates have been historically low. These historically low rates could provide opportunity for low- and middle-income families to experience homeownership.

The fixed interest rate mortgage remains the preferred type of loan, especially during the periods of low, stable interest rates that are currently occurring. Table A-36 illustrates interest rates as of February 2021. The table presents both the interest rate and the annual percentage rate (APR) for different types of home loans. The interest rate is the percentage of an amount of money that is paid for its use for a specified time, and the APR is the yearly percentage rate that expresses the total finance charge on a loan over its entire term. The APR includes the interest rate, fees, points, and mortgage insurance and is therefore a more complete measure of a loan’s cost than the interest rate alone. However, the loan’s interest rate, not its APR, is used to calculate the monthly principal and interest payment.

**TABLE A-36
INTEREST RATES**

Loan Type	Interest	APR
30-year fixed	3.00%	3.09%
30-year fixed Veterans Administration	2.75%	3.00%
20-year fixed	2.75%	2.88%
15-year fixed	2.25%	2.43%
7/6-Month Adjustable-Rate Mortgage (ARM)	2.13%	2.57%
5/6-Month ARM	2.00%	2.58%
Jumbo		

Loan Type	Interest	APR
30-year fixed	3.00%	3.05%
15-year fixed	2.75%	2.87%
7/6-month ARM	2.50%	2.68%
10/6-month ARM	2.63%	2.73%

Source: wells Fargo.com, February 2021

The availability of financing also affects a person’s ability to purchase or improve a home. Under the Home Mortgage Disclosure Act (HMDA), lending institutions are required to disclose information on the disposition of loan applications by the income, gender, and race of the applicants. This applies to all loan applications for home purchases, improvements and refinancing, whether financed at market rate or with government assistance.

Table A-37 summarizes the disposition of loan applications submitted to financial institutions for home purchase, refinance, and home improvement loans in Imperial County in 2019. Included is information on loan applications that were approved and originated, approved but not accepted by the applicant, denied, withdrawn by the applicant, or incomplete. An originated application is one that is approved by the lender and accepted by the applicant.

TABLE A-37
HOME MORTGAGE ORIGINATIONS, EL CENTRO MSA, 2019

Disposition	Home Purchase				Refinance		Home Improvement	
	Government-Backed		Conventional		Number	Percentage	Number	Percentage

Energy Conservation

Although the County of Imperial implements various housing programs, affordable housing is not less expensive to live in merely because the development costs are minimized. Ongoing expenses related to housing are also a factor of affordability.

The cost of housing includes not only the rent, but also utility costs. Higher utility expenses reduce affordability. Building “affordable” homes is not the same as making homes affordable to live in. Cheaply built homes invite callbacks, complaints, and discomfort and waste energy. Therefore, additional first costs to improve energy efficiency do not make housing less affordable in the long run. Energy efficiency in affordable housing, more than any other building sector, makes a critical impact on the lives of tenants. According to United States Department of Housing and Urban Development (HUD), “utility bills burden the poor and can cause homelessness.” The County supports energy conservation in new and existing housing through application of California residential building standards that establish energy performance criteria for new residential buildings (Title 24 of the California Administrative Code) and through appropriate land use policies and development standards that reduce energy consumption.

Southern California Edison and Imperial Irrigation District offer a variety of energy conservation services and participate in energy assistance programs for lower-income households. Southern California Edison offers several programs for energy efficiency, including the Home Energy Efficiency Rebate (HEER) Program, Comprehensive Manufactured Homes Program (CMHP), and the Multifamily Energy Efficiency Rebate Program. Imperial Irrigation District offers a refrigerator recycling program and an Energy Rewards Program. A full list of the energy conservation and assistance programs available to residents of Imperial County can be found in **Table A-38**.

TABLE A-38
ENERGY CONSERVATION PROGRAMS

Program	Provider	Summary
Energy Rewards Program	Imperial Irrigation District	Offers rebates for energy efficiency measures to increase efficiency while reducing cost. Rebates can be applied to energy-efficient refrigerators, clothes washers, shade screens, attic insulation, and more.
Refrigerator Recycling Program	Imperial Irrigation District	Pays participants \$50 to have Imperial Irrigation District haul away old refrigerators and freezers for responsible disposal.
Home Energy Efficiency Rebate (HEER) Program	Southern California Edison	Offers rebates on heat pump water heaters, power stations, smart thermostats, and electric vehicles to improve energy efficiency.
Residential Energy Efficiency Loan (REEL) Program	Southern California Edison	Provides financing to owners and tenants of single-family and other low-density homes for energy-efficiency upgrades
Energy Savings Assistance (ESA)	Southern California Edison	Covers the costs of purchasing and installing energy-efficient appliances for low-income customers.
Comprehensive Manufactured Homes Program (CMHP)	Southern California Edison and Synergy Companies	Provides energy-efficient products, such as light fixtures and low-flow showerheads for mobile and manufactured homeowners.
Multifamily Energy Efficiency Rebate Program	Southern California Edison	Provides rebates to increase multifamily complexes energy efficiency and is available to senior housing, single-room occupancy units, condominiums, mobile home parks, and single-family Homeowner Association (HOA) communities in addition to multifamily complexes with two or more dwellings.
Affordable Multifamily Financing (AMF) Program	Southern California Edison	Offers financing for energy-efficiency upgrades for deed-restricted multifamily properties.

Infrastructure

Dry Utilities

Electricity is available for most areas of the county through the Imperial Irrigation District or Southern California Edison.

Dry utilities, including electricity and telephone service, are available to all populated areas within the county. The extension of power and gas to service new residential development has not been identified as a constraint. Service providers are as follows:

- Electricity: Imperial Irrigation District, Southern California Edison
- Telephone: AT&T
- Internet: AT&T, Spectrum, Time Warner

Water and Wastewater

In the unincorporated areas of the county, water and sewer services are generally limited to parcels within or immediately adjacent to established communities or incorporated cities. Modest residential development can usually be accommodated, but larger subdivisions generally require costly facility expansions. Financing for expansions is available from state and federal sources but may take several years to obtain. Those communities that have recently been expanded, including Heber, have the most potential for short-term growth.

Residential developments that are built adjacent to cities and plan to "plug into" their service systems are subject to available capacities and Local Agency Formation Commission (LAFCo) regulations. Although local cities are under no obligation to provide services, in the past they have typically allowed the connection via an extension of city services or assisted in the annexation of the proposed development. Both approaches are subject to LAFCo regulations.

Outside established communities, where urban services cannot be extended or an individual water well cannot be provided, water is available through a canal system for uses other than drinking and through commercial drinking water companies. Sewage is treated by individual septic systems. Larger developments may require state-approved sewer or water treatment systems or may have to connect to special districts. All sites identified to meet the County's Regional Housing Needs Allocation (RHNA) are located in either the Heber Public Utilities District (HPUD) or have planned infrastructure expansions through the Specific Plan development process.

HPUD owns, operates, and maintains a wastewater treatment system that serves the Heber community and surrounding areas. The treatment plant was rehabilitated and expanded in 2013 to increase capacity to 1.2 million gallons per day but is currently operating at 50 percent capacity with approximately 1,600 active connections resulting in an average daily flow of 5 million gallons. HPUD also operates a water treatment system to provide water to the community of Heber as well as the McCabe Cove and Magnolia Gate

communities within the City of El Centro’s Sphere of Influence. The water treatment plant was expanded in 2017 to increase capacity to 4 million gallons per day and distributes water to 1,632 service connections, using approximately 50 percent of its current capacity. HPUD has sufficient capacity to accommodate the water and wastewater needs of projected development during the planning period within its service area.

The 101 Ranch, McCabe Ranch II, and Rancho Los Lagos specific plans each address infrastructure improvements and expansions needed to meet the demand of final build-out of each project. The McCabe Ranch II Specific Plan is located within HPUD’s service area and demand for this plan area will be met by the capacity expansions that were completed in 2013 (wastewater) and 2017 (water); the plan includes adding water lines as an early stage of development. The 101 Rancho and Rancho Los Lagos identify the developer’s responsibility to provide sufficient infrastructure to meet the needs of the plan area.

Table A-39 lists the water districts that provide service to the townsites in the unincorporated areas of Imperial County. In accordance with Senate Bill (SB) 1087, the adopted Housing Element will be forwarded to all water and sewer providers serving Imperial County.

**TABLE A-39
IMPERIAL COUNTY WATER DISTRICTS (UNINCORPORATED COUNTY)**

Townsite	Water District
Bombay Beach	Coachella Valley Water District
Desert Shores	Coachella Valley Water District
Heber	Heber Public Utilities District

Governmental Constraints

Local policies and regulations can impact the price and availability of housing. Land use controls, site improvement requirements, fees and exactions, permit processing procedures, and various other issues can constrain the development and improvement of housing.

Land Use Controls

The Imperial County General Plan establishes policies that guide residential development. These policies, along with zoning regulations, control the amount and distribution of land allocated for a wide variety of uses in the county. Housing supply and costs are affected by the amount of land designated for residential use, the density at which residential development is permitted, and the standards that govern the character of development. Refer to **Table A-40** for a description of Imperial County General Plan land use classifications that allow for residential development. Most opportunities for new residential development are located in areas in the Urban Area and Specific Plan classifications.

Policies set forth in the General Plan are implemented by the development regulations in Title 9, the Land Use Ordinance for Imperial County, as well as in adopted Specific Plans.

**TABLE A-40
GENERAL PLAN LAND USE DESIGNATIONS**

Designation	Intent
Agriculture	Preserve lands for agricultural production and related industries, including aquaculture, ranging from light to heavy agriculture. Where this designation is applied, agriculture shall be promoted as the principal and dominant use to which all others shall be subordinate. Allows very low-density residential uses with not more than one single family dwelling per 40 acres or per legal parcel.
Community Area	Land uses associated with the unincorporated communities of Hot Mineral Spa/Bombay Beach, Ocotillo/Nomirage, and Palo Verde. Primarily low-density accessory dwelling units and retirement dwellings and recreational services. Higher densities may be allowed pursuant to an approved Master Plan for the overall Community Area where adequate public infrastructure exists.
Industry	Heavy manufacturing land uses located away from conflicting existing or planned land uses. Residential land uses are limited to one single-family dwelling unit if appurtenant to a permitted industrial or commercial use and occupied by a caretaker, custodian, or night watchman with a conditional-use permit.
Recreation/ Open Space	The maximum allowed residential density of one residence per acre. Greater densities may be permitted by a Specific Plan encompassing at least 160 acres for appropriate recreation-oriented residential development.

Designation	Intent
Specific Plan	Application of the Specific Plan designation shall be accompanied by adoption of objectives and policies for the design, development, and use of such areas. This may include residential, commercial, industrial, agricultural, recreational, open space, and public uses.
Urban Area	Includes areas surrounding the seven incorporated cities and the unincorporated communities of Niland, Heber, Seeley, Winterhaven, and West Shores/Salton City, Bombay Beach and Palo Verde. These areas are characterized by a full level of urban services, including public water and sewer systems. Residential building intensity is determined by available public facilities and services and physical or environmental factors that may affect the site.

Residential Development Standards

Zoning regulations are designed to protect and promote the health, safety, and general welfare of residents as well as to implement the policies of the General Plan. Title 9, the County’s Land Use Ordinance, also serves to preserve the character and integrity of existing neighborhoods. Residential uses are allowed in a variety of zones, including agriculture, residential, commercial, and open space. Table A-41 shows specific zones that permit residential uses as well as allowed densities and development standards.

**TABLE A-41
LAND USE ZONES AND DEVELOPMENT STANDARDS**

Zone	Max. Units Per Acre	Min. Lot Area/ Dwelling Unit	Setback ¹			Building Height
			Front Yard	Side Yard*	Rear Yard	
Limited Agriculture (A-1)	2	0.5 acres; 1 acre minimum if an OWTS will be used.	25	5	5 ²	40 feet (ft) or 3 stories, whichever is less; detached accessory structures shall not exceed 2 stories or 30 ft
General Agricultural Rural (A-2)	up to two (2) residences per legal parcel. The ADU subject to a CUP	40 acre minimum. 1 acre per dwelling unit (for 1 st unit) except with a CUP, which shall be a minimum of 30,000 square feet (sf) for additional unit. When an OWTS is proposed, the minimum area is 2.5 acres	30	5	10	40 ft or 3 stories, whichever is less
Heavy Agriculture (A-3)	One residence per legal parcel	40 acres gross	30	10	10	
Low-Density Residential (R-1)	5 per acre (net)	6,000 sf/4,500 sf/unit	25**	5	25**	40 ft or 3 stories, whichever is less; detached accessory structures shall not exceed 2 stories or 25 ft
Medium-Density Residential (R-2)	10	6,000 sf minimum for the first unit. And 3,000 sf ² for lots after	25	5	25	40 ft or 3 stories, whichever is less; detached accessory structures shall not exceed 2 stories or 25 ft

Zone	Max. Units Per Acre	Min. Lot Area/ Dwelling Unit	Setback ¹			Building Height
			Front Yard	Side Yard*	Rear Yard	
Medium-/High-Density Residential (R-3)	29	2,000 sf ² provided that the basic lot minimum is 6,000 sq ft for the first unit	20	5	15	80 ft or 6 stories; detached accessory structures shall not exceed 2 stories or 25 ft
High-Density Residential & Mobile Home Park/ Subdivision (R-4)	7	6,000 sf except lots within a designated mobile home park zone (1 dwelling unit per legal lot in R-4 zone)	20	5/10 ³	15	30 ft or 2 stories, whichever is less
Light Commercial (C-1)	1 unit subject to Division 4 ADU	1,500 sq ft of lot area per dwelling unit in addition to the minimum lot size (8,000 sq ft)	20	5	15	50 ft or 5 stories, whichever is less
Open Space/ Recreational (S-1)	One residence per legal parcel and one subject to a CUP but will change to reflect current state law (by right)	1 acre	25	10	10	35 ft
Open Space/ Preservation (S-2)	One residence per legal parcel	20 acres net; 1 acre of lot/dwelling unit	30	20	20	40 ft

Source: Imperial County Land Use Ordinance Title 9, 2019

1. Reports the most restrictive standards for a common lot. For a full listing of additional setback options and requirements, see Imperial County Land Use Ordinance, Title 9.
2. Except in the case of through lots, where the designated rear yard shall be equal to the front yard setback.
3. No lot in an R-2 zone shall be less than 6,000 square feet and shall provide a minimum of 3,000 square feet/dwelling for multiple dwellings.
4. No lot in an R-3 zone shall be less than 6,000 square feet and shall provide a minimum of 2,000 square feet/dwelling for multiple dwellings.

*Except on a corner lot, which may require 15-to-30-foot setback distances.

**See options pursuant to section 90502.06

Typical Densities for Development

The typical built densities for past residential projects in the county have ranged from 1 to 14.5 dwelling units per acre, because typical development has been single-family residential with one dwelling unit per legal parcel based on the zone district. Recently the county received a proposal that reflects a significantly higher density than usual. The Heber del Sol Family Apartments is a 100 percent affordable housing project with 47 units located in the R-3 zone in the Heber community. This multi-family project is proposed at 104 percent of the allowable density on this site and received parking waivers from the County, indicating the County's commitment to approving affordable housing in unincorporated communities.

The typical density for recent single-family development in the county is 4 to 8 dwelling units per acre, with an average of 5 dwelling units per acre. The Heber del Sol project is the only recent multifamily project proposed in unincorporated Imperial County but will be developed at approximately 29 units per acre. Projects that propose a density lower than the minimum density require a General Plan Amendment and a rezone, with no guarantee that one or both will be approved. The county did not receive any requests to approve a project listed on the sites inventory table at a lower than the required density during the 5th cycle planning period. If a request were made for approval of a project that was lower than the required density, it is important to note that the Planning Department would require an appropriate land use designation to match the proposed density. A general plan amendment would be required in this circumstance.

Parking Requirements

Parking standards for single-family homes, duplexes, condominiums, and mobile or manufactured homes require a minimum of two parking spaces per unit and an additional half space for each additional bedroom in excess of three bedrooms. In addition, multifamily developments and mobile home parks are required to provide one guest space for every five units in the project. The parking requirement for accessory dwelling units with zero or one bedroom is one parking space. Accessory dwelling units with two or more bedrooms are subject to the same parking requirements as single-family dwelling units. The County has included **Program 7** to amend Title 9 of the Land Use Ordinance to allow ADUs in compliance with Government Code Section 65852.2. Refer to **Table A-42** for parking requirements by zone.

Parking requirements for single- and multifamily units do not present a constraint for development in Imperial County. Requirements for multifamily development are less than those for single-family residences.

In addition, the County adheres to the state density bonus law, which allows developers to opt for less parking requirements as an incentive for building a certain percentage of affordable units.

**TABLE A-42
RESIDENTIAL PARKING REQUIREMENTS**

Type of Residential Development	Required Parking Spaces	Comments
Low-Density Residential	2 spaces/unit; plus 0.5 for each additional bedroom	Single-family dwelling, a duplex dwelling, a condominium, or a mobile home (manufactured) unit
Medium- to High-Density	Same requirement as low-density residential; plus 1 guest space for every 5 units	Multifamily projects
High-Density Residential & Mobile Home Park	Same requirement as medium density; plus 1 guest space for every 5 mobile homes	2 spaces per mobile home
Accessory Dwelling Unit Zero to 1 bedroom 2+ bedrooms	1 space/unit Same requirement as low density residential	Parking may be provided as tandem parking, on an existing driveway.

Source: Imperial County Land Use Ordinance, Division 4

Note: The County has included **Program 7** to amend the Land Use Ordinance to allow sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone, in compliance with Government Code Section 65583(a)(4)(A)(ii).

Density Bonus

Under current state law (California Government Code Section 65915), cities and counties must provide a density increase of up to 80 percent over the otherwise maximum allowable residential density under the Municipal Code and the Land Use Element of the General Plan (or bonuses of equivalent financial value) when builders agree to construct housing developments with 100 percent of units affordable to low- or very low-income households. The County of Imperial allows a density bonus of 20 percent for residential projects with 50 or more units in the medium-density residential (R-2) zone, high-density residential (R-3) zone, or the mobile home park (R-4) zone if the project provides full-time on-site daycare facilities. A 20-percent density bonus is allowed for residential projects of 20 or more units in the low-density residential (R-1), R-2, R-3, or R-4 zones, if the project provides complete public infrastructure improvements. A density bonus of 20 percent is allowed for any residential project or condominium conversion containing 10 or more units in the R-1, R-2, R-3, or R-4 zones if 30 percent of the units are affordable to lower moderate-income families. The County has included **Program 6** to comply with current density bonus law, as defined in California Government Code Section 65915.

Provision for a Variety of Housing

The Housing Element must identify housing opportunities at a range of types and sizes to ensure that options are available to meet the needs of all segments of the population. The Imperial County Land Use Ordinance provides for a variety of housing types, including single-family dwellings, duplexes, guest dwellings, mobile homes, group residential homes, multiple-unit dwellings, convalescent homes, accessory structures, supportive housing, and single-room occupancy units (SROs). Table A-43 summarizes the housing types permitted and conditionally permitted by zone.

**TABLE A-43

Source: Imperial County Land Use Ordinance (Title 9)

P= Permitted, C = Conditional-Use Permit

1. The County has included **Program 7** to amend the Land Use Ordinance to allow Accessory Dwelling Units (ADUs) in all residential and non-residential zones that permit single-family or multifamily uses, in accordance with California Government Code Section 65852.150.
2. The County will amend the Land Use Ordinance to allow and permit manufactured housing in the same manner and same zone as conventional single-family residential dwellings in compliance with California Government Code Section 65852.3(a) (**Program 7**).
3. The County will amend the Land Use Ordinance to allow residential care facilities for 6 or fewer persons in accordance with Health and Safety Code Section 1568.0831 and residential care facilities for 7 or more persons with a valid license in the same manner in accordance with the State's definition of family (**Program 15**).
4. Emergency shelters are also permitted by right in the M-1 zone. The County will amend the Land Use Ordinance to allow low-barrier navigation centers for the homeless by-right in zones that allow for mixed-use and non-residential zones permitting multifamily uses, per California Government Code Section 65662 (**Program 15**).
5. The County has included **Program 7** to amend the Land Use Ordinance to treat employee/farm labor housing that serves six or fewer persons as a single-family structure and permit it in the same manner as other single-family structures of the same type within the same zone across all zones that allow single-family residential uses. Additionally, the County will amend the Land Use Ordinance to treat employee/farm labor housing consisting of no more than 12 units or 36 beds as an agricultural use and permit it in the same manner as other agricultural uses in the same zone, in compliance with the California Employee Housing Act (Health and Safety Code Sections 17021.5 and 17021.6).
6. Transitional housing is also a permitted use in the M-1 zone. The County will amend the Land Use Ordinance to allow transitional and supportive housing as a residential use subject only to those restrictions that apply to other residential dwellings of the same type in the same zone and to allow supportive housing as a permitted use without discretionary review in zones where multifamily and mixed-use developments are permitted, including non-residential zones permitting multifamily uses, in compliance with California Government Code Section 65583(c)(3) (**Program 15**).

Housing for Persons with Disabilities

According to state law (California Government Code Section 65583 (a)(4)), the Housing Element must analyze constraints upon the development, maintenance, and improvement of housing for persons with disabilities. Health and Safety Code Section 1568.0831 requires residential care facilities for six or fewer persons be considered a residential use of property and be permitted in the same manner as other single-family structures of the same type within the same zone. Additionally, State law defines a family as "one or more persons living together in a dwelling unit," which, under fair housing law, means that residential care facilities for seven or more persons must be treated as a residential use and a jurisdiction cannot regulate how many unrelated persons live together.

Current permitting requirements for residential care facilities act as a constraint to the development of housing for persons with disabilities by limiting where they may be developed in unincorporated areas of Imperial County. Residential care facilities for less than five people are permitted by-right in the following zones: A-2, R-1, R-2, R-3, and R-4. Residential care facilities with more than five people are conditionally permitted in the R-1 and R-2 zones. Additionally, the A-1 zone allows residential care facilities serving six or less people. The County has included **Program 15** to amend the Land Use Ordinance to allow residential care facilities for six or fewer persons, in accordance with Health and Safety Code Section 1568.0831 and residential care facilities for seven or more persons with a valid license in the same manner in accordance with the State's definition of family.

Reasonable Accommodations

California Government Code Section 65583 requires that the Housing Element analyze potential and actual constraints upon the development, maintenance, and improvement of housing for persons with disabilities and demonstrate local efforts to remove governmental constraints that hinder the locality from meeting the need for housing for persons with disabilities (California Government Code Section 65583(a)(4)). As part of the required constraints program, the element must include programs that remove constraints or provide reasonable accommodations for housing designed for persons with disabilities (California Government Code Section 65583(c)(3)).

The County's reasonable accommodation procedures are included in the Title 9 Land Use Ordinance, Division 3, Chapter 7. Chapter 7 describes procedures to facilitate requests for variations in the enforcement of development standards to accommodate special requirements resulting from a disability. In compliance with SB 520, a complete evaluation of the County's zoning laws, practices, and policies was done as part of the Housing Element update process.

- **Reasonable accommodations** - In 2013, the County amended Ordinance 1487 to provide a procedure to request reasonable accommodation for persons with disabilities seeking equal access to housing under the Federal Fair Housing Act and the California Fair Employment and Housing Act. The findings to approve, deny, or approve with conditions a reasonable accommodation request are as follows:

- Whether the housing in the request will be used by an individual considered disabled under the acts.
 - Whether the request for reasonable accommodation is necessary to make specific housing available to an individual considered disabled under the acts.
 - Whether the requested reasonable accommodation would impose an undue financial or administrative burden on the county.
 - Whether the requested reasonable accommodation would require a fundamental alteration in the nature of a county program or law, including but not limited to, land use and zoning.
 - Potential impact on surrounding uses.
 - Physical attributes of the property and structures.
 - Other reasonable accommodations that may provide an equivalent level of benefit.
- **Separation requirements** - The County's Land Use Ordinance does not impose any separation requirements between supportive housing or residential care facilities.
 - **Site planning requirements** - The site planning requirements for group homes and residential care facilities are no different than for other residential uses in the same zone.
 - **Definition of family** - To ensure the County does not have any practices that could discriminate against persons with disabilities and impede the availability of such housing for these individuals, the County has included **Program 15** to include a definition of family that does not limit family by size or relation.

Emergency Shelters

The California Health and Safety Code (Section 50801) defines an emergency shelter as "housing with minimal supportive services for homeless persons that is limited to occupancy of six months or less by a homeless person. No individual or households may be denied emergency shelter because of an inability to pay."

California Government Code Section 65583(a)(4)(A) requires jurisdictions to allow emergency shelters in at least one zone with adequate vacant land without a conditional-use permit. The Imperial County Land Use Ordinance allows emergency shelters by-right in the C-2 (General Commercial) and M-1 (Light Industrial) zones. Emergency shelters with a conditional use permit are allowed in the A-1 zone. Much of the vacant land in these zones is located near existing urban areas and incorporated cities, where transportation and other services could reasonably be expected to be extended in the future. There are approximately 3,000 vacant acres of General Commercial (C-2), Light Industrial (M-1), and Medium Industrial (M-2) zoned land across unincorporated areas of the County.

Vacant sites in the M-1, M-2, and C-2 zones are at a wide range of sizes, suitable to accommodate shelters of various sizes. Within the M-1 and C-2 zones, there are over 1,000 vacant parcels under 1 acre, 96 that are from 1 to 5 acres, 9 that are 5 to 10 acres, and 11 that are 20 acres or more.

Transitional and Supportive Housing

Transitional housing is defined in Section 50675.2 of the Health and Safety Code as rental housing for stays of at least six months but where the units are recirculated to another program recipient after a set period. It may be designated for a homeless individual or family transitioning to permanent housing. This housing can take many structural forms, such as group housing and multifamily units and may include supportive services to allow individuals to gain necessary life skills in support of independent living. California Government Code Section 65583(c)(3) requires that jurisdictions consider transitional housing a residential use and only require the same restrictions as those applied to other residential dwellings of the same type in the same zone.

Supportive housing is defined by Section 50675.14 of the Health and Safety Code as housing with linked on-site or off-site services with no limit on the length of stay and occupied by a target population, as defined in Health and Safety Code Section 53260 (i.e., low-income person with mental disabilities, AIDS, substance abuse or chronic health conditions, or persons whose disabilities originated before the age of 18). Services linked to supportive housing usually focus on retaining housing, living and working in the community, and/or health improvement. State law (California Government Code Section 65583(c)(3)) requires supportive housing be "considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone;" additionally, supportive housing must be permitted by-right in all residential and non-residential zones where multifamily and mixed-uses are permitted.

Transitional housing is currently permitted without a conditional-use permit in zones R-3, R-4, C-2, and A-1 and supportive housing is permitted without a conditional-use permit in zones R-3 and R-4. The County has included **Program 15** to amend the Land Use Ordinance to treat transitional and supportive housing as a residential use type and subject only to the same regulations as any other use in the same zoning district. Additionally, the County will amend the Land Use Ordinance to allow supportive housing in any zone district that allows multifamily, in compliance with Government Code Section 65650.

Extremely Low-Income Households

Extremely low-income households typically comprise persons with special housing needs, including, but not limited to, persons experiencing homelessness or at risk of homelessness, persons with substance abuse problems, and farmworkers. AB 2634 (Lieber 2006) requires the quantification and analysis of existing and projected housing needs of extremely low-income households. Housing Elements must also identify zoning to encourage and facilitate supportive housing and single-room occupancy units.

The County has identified single-room occupancy units (SROs) and boarding or rooming houses as units that can serve as an affordable housing option for lower-income households and those with special housing needs, including persons who are homeless or near-homeless, persons with substance abuse problems, and farmworkers. The County defines SROs as "a single room that is the primary residence of its occupant. The unit may contain food preparation or sanitary facilities" allows them as a permitted use (without a

conditional-use permit) in the R-3, R-4, A-1, C-1, and C-2 zones, in compliance with Government Code Section 65583.

Accessory Dwelling Units

Accessory Dwelling Units (ADU) provide opportunities for affordable units. Government Code Section 65852.2 requires that ADUs be permitted ministerially in any residential zone or non-residential zone that permits residential uses. In Imperial County, ADUs are currently permitted by-right in the R-1, R-2, C-1, A-1, AM-1, and AM-2 zone districts. ADUs are conditionally permitted in the A-2, A-3, and S-1 zone districts. ADUs offer an opportunity for homeowners to earn additional income and provide an opportunity for affordable housing units. Section 90405.08 of Title 9, Division 4 of the County's Land Use Ordinance, property owners must submit a signed affidavit that they currently reside on the property on which an ADU is proposed and will continue to occupy either the primary or accessory dwelling unit.

The County has included **Program 7** to allow ADUs in all residential and non-residential zones that permit residential uses, in compliance with Government Code Section 65852.

Manufactured Housing and Mobile Homes

Under California Government Code Section 65852.3(a) jurisdictions must allow certified manufactured homes on all lots zoned for conventional, stick-built single-family dwellings. The only difference in regulation between manufactured homes and conventional single-family dwellings may be with respect to architectural requirements. The Imperial County Land Use Ordinance currently allows manufactured homes as a permitted use in the R-1, R-2, R-4, and A-1 zone districts. To remove barriers to the development of a potential affordable housing option, the County will amend the Land Use Ordinance to allow and permit manufactured housing in the same manner and same zone as conventional single-family residential dwellings, in compliance with State law (**Program 7**).

Farmworker Housing

Under State law, jurisdictions must treat employee housing that serves six or fewer persons as a single-family structure and permit it in the same manner as other single-family structures of the same type within the same zone across all zones that allow single-family residential uses. Additionally, employee housing consisting of no more than 12 units or 36 beds treated as an agricultural use must be permitted in the same manner as other agricultural uses in the same zone.

The Imperial Valley Housing Authority provides housing for permanent farmworkers that is regulated through the United States Department of Agriculture's (USDA's) Rural Development office. The County permits employee housing/farm labor housing by-right in the A-1, A-3, and AM-2 zones and conditionally in the A-2 and AM-1 zones. No additional special conditions are described in the Land Use Ordinance for any type of farm labor housing. These structures are treated the same as any other residential and residential accessory building. The County will amend the Land Use Ordinance to remove reference to farm

labor housing and will allow employee housing in compliance with Health and Safety Code Sections 17021.5 and 17021.6 (Program 7).

Processing and Permit Procedures

Design Review

The County established reasonable and necessary development standards for residential uses to ensure that development includes the appropriate public improvements and is compatible with surrounding land uses. All residential developments in the R-1, R-2, R-3, and R-4 zones must comply with developmental standards stated in Division 3 of the county's Land Use Ordinance. Landscaping standards are also established for mobile homes and RV parks, multi-unit residential, and single-unit residential.

All residential developments in the R-1, R-2, R-3, or R-4 zones must comply with the following:

- Street and road dedication shall be made to the County in the manner described by the Imperial County Public Works Department for all existing or proposed local, secondary, or collector highways. The required dedication shall be 30 feet from the centerline for local streets, 45 feet from the centerline for secondary streets, 55 feet from the centerline for collector highways, or as required by adopted, official or Specific Plans. In the case where a street is on the boundary of a development, a minimum of 40 feet shall be dedicated to the County.
- Development in all areas shall provide road or street improvements to County standards. Such street improvements shall include the required base and pavement to tie existing pavement to proposed entrances, exits, etc. Existing pavement shall be soft cut at a match point. If the project site abuts a state highway, road improvements shall be provided as required by the California Department of Transportation.
- Obstructions within street rights-of-way shall be removed as specified by Imperial County Public Works Department.
- Curbs, gutters, and sidewalks shall be constructed as required by County standards.
- All new on-site utility services shall be placed underground unless the utility supplier requests otherwise.
- Prior to the issuance of any Building Permits for new projects, plans for the management and disposal of all surface drainage water(s) originating on-site shall be approved by the Imperial County Department of Public Works in coordination with the Imperial County Public Health Department, Division of Environmental Health, as needed. All necessary easements, rights-of-way, or grant deeds shall be granted to the County for drainage purpose or access thereto as reviewed and approved by the Department of Public Works.
- Prior to issuance of any Building Permits, the methods of water supply and sewage disposal shall meet the requirements of and be approved by one or more of the following agencies: Imperial

County Division of Environmental Health Services, California Department of Public Health, Regional Water Quality Control Board (Colorado River Basin) of the California Environmental Protection Agency.

- Fire protection facilities and access ways shall meet the requirements of and be approved by the Imperial County Fire Department /Office of Emergency Services.
- When adjacent to property zoned for non-residential purposes, a seven-foot-high solid masonry wall shall be constructed between the proposed development and the adjacent property. The wall height shall be reduced to 30 inches if the fence is obscured and 42 inches if translucent within the required front-yard setback area. The proposed wall design and materials shall be approved by the Planning and Development Services Department.
- All exterior lighting shall be directed away from adjacent properties, and away from or shielded from public roads.
- All trash receptacles shall be screened so that they are not visually obtrusive from any off-site location. The location and method of screening for all trash receptacles shall also minimize potential for nuisance, be consistent with ease of solid waste removal, and shall be approved by the Planning Director.
- Architectural design of all proposed structures shall be compatible with the surrounding neighborhood.
- For developments with 10 or more dwellings, a minimum of 5 percent of the net total parcel area shall be designated and developed as useable open space provided; however, no less than 400 square feet of useable area shall be designated and developed. The required useable area may be divided into more than one location, provided no single location is less than 400 square feet.
- During all on-site grading and construction activities, adequate measures shall be implemented to control fugitive dust emissions.

Imperial County's mixed-use flexibility zone (C-1, Light Commercial, and C-2, General Commercial) provides development opportunities for integrated, complementary residential and commercial development in the same areas. A wide range of uses is permitted, and it is the intent of the mixed-use flexibility zone to foster a mixture of product types. Development solely as commercial or residential districts is strongly discouraged. Design and development standards are directed toward encouraging pedestrian activity and ensuring that mixed commercial and residential uses are designed to be compatible both within the development and with other surrounding areas. All development in the C-0, C-1, C-2, C-3, M-1, M-2, and M-3 zones shall comply with the following:

- Street and road dedications shall be made to the County in a manner prescribed by Imperial County Public Works Department, for all existing or proposed local, secondary or collector highways. The required dedication shall be 30 feet from centerline for local streets, 45 feet from centerline for secondary streets, 55 feet from centerline for collector streets.

- All developments shall provide road or street improvements as required by the Department of Public Works, and to the standards contained within the Land Use Ordinance (Title 9).
- Obstruction within street right-of-ways shall be removed as specified by Title 9.
- Curbs, gutters and sidewalks shall be constructed as required by Title 9 when required as part of the street improvement.
- All access driveways, parking areas and vehicular maneuvering areas shall be surfaced with a minimum of three (3) inches of asphaltic concrete paving or higher quality material.
- All new on-site utility services shall be placed underground.
- Prior to the issuance of Building Permits, a plan for the disposal of all surface drainage water originating on site shall be approved by the Department of Public Works in coordination with the Imperial County Public Health Department, Environmental Health Division, as needed. Easements or right-of-way deeds shall be granted to the County of Imperial for drainage purposes.
- Prior to the issuance of any Building Permit, the method of water supply and sewage disposal shall be as required and approved by one or more of the following agencies: Imperial County Environmental Health Services Division, California Department of Public Health, Regional Water Quality Control Board (Colorado River Basin) of the California Environmental Protection Agency.
- Fire protection facilities and access ways shall be as required and approved by the Imperial County Fire Department.
- When adjacent to property zoned for single family residential use, a seven (7) foot high masonry wall shall be constructed between the proposed development and the adjacent property.
- All exterior lighting shall be shielded and directed away from adjacent properties and away from or shielded from public roads.
- All trash receptacles shall be screened in such a manner so that they are not visually obtrusive from any off-site location. The location and method of screening for all trash receptacles shall also minimize potential for nuisance, be consistent with ease of solid waste removal, and shall be approved by the Planning Director.
- Architectural design of proposed buildings shall be compatible with the surrounding neighborhood.
- For industrial or commercial developments utilizing outside storage, the areas devoted to outside storage shall be treated with a dust binder or other dust control measures, as approved by the APCD.
- During all on-site grading and construction activities, adequate measures shall be implemented to control fugitive dust.

New development in the Mixed Use Overlay – Light Commercial (C1-MU) and General Commercial Use (C2-MU) zones is subject to a Site Plan Review Permit, in accordance with Division 3 of the Land Use

Ordinance. The Planning and Development Services Department may approve a Site Plan Review Permit for new development in the C1-MU and C2-MU Zones upon making the following findings:

1. The proposed development is consistent with the General Plan, any applicable Specific Plans, and the intent and purpose of the mixed-use overlay.
2. The proposed development, as conditioned, will not have substantial adverse effects on the surrounding property or uses, and will be compatible with the existing and planned land use character of the surrounding area.
3. The proposed development is appropriate for the site and location by fostering a mixture and variety of land uses within the zone and the general vicinity and contributing to a synergistic relationship between uses.
4. The proposed development is harmonious with its surrounding environment. Buildings within a mixed-use development project must also be compatible with each other and be designed as an integrated, unified project.

All proposed developments must meet the design standards and guidelines in Division 3 (Site and Design Standards). Innovative project design, particularly involving infill development and reuse of existing structures, is required. The Imperial County Planning and Development Services Department has final review authority and may waive any of the above listed requirements for the residential, commercial, and industrial zones where a documented hardship not involving economics exists, or where there are unusual circumstances that prevent compliance with the required development standards listed above. However, the County offers pre-application reviews (PAR) as an optional procedure for development proposals to provide direction for applicants by assessing whether a prospective proposal is consistent with County standards and requirements before a formal application submittal. PARs also aid in shortening processing time for development proposals once they are submitted by limiting requests to those findings made in the PAR letter. Request forms for a pre-application review are available on the County's website. The County has also included **Program 27** to review and update development standards to be objective and quantifiable.

Conditional-Use Permits

A Conditional-Use Permit (CUP) provides a process for reviewing uses and activities that may be appropriate in the applicable zoning district, but whose effect on the site and surrounding uses cannot be determined before being proposed for a specific site. Imperial County has three types of conditional use permits: minor, intermediate, and major. A minor conditional-use permit (CUP-1) typically allows for a accessory dwelling unit, facilities for abused men/women/children for up to five users, temporary real estate during construction, and other non-residential uses. An intermediate conditional-use permit (CUP-2) allows for facilities for abused men/women/children for in excess of five users and other non-residential uses. A major conditional-use permit (CUP-3) is for projects whose total developed value is greater than \$1,000,000. Minor conditional-use permits may be approved or denied by the Planning Director or may be forwarded to the Planning Commission, while intermediate and major conditional-use permits shall be approved or denied by the Planning Commission. Appeals may be made to the Board of Supervisors. The County has included

Program 15 to remove conditional-use permit requirements for second units (now accessory dwelling units) and domestic violence shelters.

The following findings must be made for the Planning Director or Planning Commission to approve an application for a conditional-use permit:

1. The proposed project is consistent with the General Plan.
2. The project is consistent with Title 9 of the Imperial County Land Use Ordinance.
3. The Director of Public Works, the Director of Air Pollution Control District, the Director of Environmental Health (EH), the Director of Fire/Office of Emergency Services (OES), the Agriculture Commissioner, and the Sheriff have reviewed the proposed project and approved the project.
4. Public opposition has been considered and all impacts have been mitigated.
5. The applicant agrees to all conditions and standards required for the project.

Findings

The findings required to authorize a conditional-use permit do not constrain the development of affordable housing. The following list does not contain any language that calls out any special conditions for affordable housing types. Any use permitted with a conditional-use permit must satisfy all of the following criteria:

- The proposed use is consistent with the goals and policies of the adopted County General Plan.
- The proposed use is consistent with the purpose of the zone within which the use will be located.
- The proposed use is listed as a use within the zone or sub-zone or is found to be similar to a listed conditional use.
- The proposed use meets the minimum requirements of the Land Use Ordinance applicable to the use and complies with all applicable laws, ordinances, and regulations of the County of Imperial and the State of California.
- The proposed use will not be detrimental to the health, safety, and welfare of the public or to the property and residents in the vicinity.
- The proposed use does not violate any other law or ordinance.
- The proposed use is not granting a special privilege.

Local Processing and Permit Procedures

The County strives to perform thorough but expedient permit processing, with average processing times equal to or less than those of similar jurisdictions. Permit processing time varies based on the type and specifics of development applications. The approximate permit processing times for all types of permits is shown in **Tables A-44** and **A-45**. The typical permit processing time for residential development greatly depends on whether the proposed development is a permitted use or if a rezone or conditional-use permit is required.

After the County approves a project, such as at Planning Commission or Board of Supervisors hearing, it becomes the applicant's responsibility to initiate the steps to secure building permits and approvals and begin construction as per approved plans. These steps include obtaining additional County clearances and paying fees as outlined in a project's conditions of approval. Other necessary actions include:

- Completing construction drawings
- Recording subdivision (final) maps (applies to ownership projects)
- Retaining contractors
- Obtaining utility approvals, required easements and rights of entry

The length of time between a project's approval and building permit issuance in many cases is determined by the applicant. Once a project begins the construction plan review process, the following general timelines can be achieved with responsive applicants:

- Land Use Entitlement Procedures may state at 3-6 months but if they are considered major projects, the process could take up to a year or more
- Building permit approval: 1-3 months

Senate Bill 330 Processing Procedure

Senate Bill 330, the Housing Crisis Act of 2019, established specific requirements and limitations on development application procedures. Consistent with SB 330, housing developments for which a preliminary application is submitted that complies with applicable General Plan and zoning standards are subject only to the development standards and fees that were applicable at the time of submittal. This applies to all projects unless the project square footage or unit count changes by more than 20 percent after the preliminary application is submitted. The developer must submit a full application for the development project within 180 days of submitting the preliminary application.

Imperial County offers pre-application meetings to anyone with a proposed project prior to submission of formal applications to better define the information needed to review a project. Pre-application meetings have helped to shorten the review process and allow for better communication between applicants and

County departments. The County currently defers to HCD for the required application process but will consider creating a County specific process during the planning period.

Senate Bill 35 Approvals

Senate Bill 35 requires jurisdictions that have failed to meet their RHNA to provide streamlined, ministerial entitlement process for housing developments that incorporate affordable housing. Imperial County will also establish a written policy or procedure and other guidance as appropriate to specify the Senate Bill (SB) 35 streamlining approval process and standards for eligible projects, as set forth under California Government Code Section 65913.4 (Program 27).

**TABLE A-44
PROCESSING REQUIREMENTS AND FEES SCHEDULE**

Project Type	INITIAL REVIEW AND COMMENT PERIOD			CEQA PROCESS	
	Application Review for Completeness and Consistency	Responsible Agency Comment Period	Preparation of Environmental Checklist (Initial Study)	Project Exempt from CEQA	Environmental Evaluation Committee Hearing

1. The project acceptance, agency review, initial study preparation or exempt for CEQA, are all done concurrently with one another typically within the first 30 days of receiving the project.
2. Some projects are subject to public hearings. If that is the case, County staff sends the project packages to the Commission members (all hearings levels) within 10 days of next scheduled hearing. The Environmental Evaluation Committee and the Planning Commission each meet twice a month and the Board of Supervisors four times a month.

**TABLE A-45
AVERAGE DISCRETIONARY PERMIT PROCESSING TIMES**

Project Type	CEQA PROCESS (continued)			PROJECT APPROVAL PROCESS	
	Neg. Dec.	Mit. Neg. Dec.	EIR	Appeal of EEC Determination to Planning Commission	Planning Commission Hearing

3. Processing Time

Review of Local Ordinances

The County does not have any locally adopted ordinances that hinder the development of housing.

Development Fees

Planning and Building fees vary greatly depending on the type of development. A developer proposing a multifamily project will submit building plans to the Building Department and pay the corresponding building permit and development fees (see **Table A-46**). The proposal is then forwarded to the Planning Department for site plan review, zoning review is included in the building permit fees. The same is true for single-family developments if the proposed site is already mapped. If not mapped, the applicant would be charged for a minor or major subdivision, depending on the size of the development. New construction building fees are based on a *Nexus Methodology Study* conducted in November 2004 and adopted by the Board of Supervisors. These fees are based on actual processing costs and 100-percent cost recovery and do not present a constraint to development. Concurrently with this Housing Element update, the County is updating building fees and will ensure new fees do not constrain development.

Development impact fees are a potential constraint to affordable housing development. The County charges impact fees for sheriff, general government, fire, parks and recreation, and libraries. Impact fees for unincorporated areas total \$4,673 per unit for a single-family dwelling, \$3,662 per unit for multifamily housing, and \$3,205 per mobile home unit. The County Board of Supervisors approved these development fees as well as an exemption for residential units in projects constructed as housing for lower-income households, as such households are defined pursuant to Section 50079.5 of the Health and Safety Code. Additionally, developers of senior citizen residential units are only required to pay 60 percent of the total impact fee amount per unit.

Development fees may be reduced through the application of the state density bonus law, which allows developers that provide certain percentages of a project's total units affordable to lower-income households to receive a density bonus or other incentive or concession. The County abides by the state density bonus law and works with developers that request reductions in development standards or fee waivers.

The County's development standards and fees are available on the County's website.

**TABLE A-46
IMPERIAL COUNTY LAND USE FEES**

Process	Total Fee
Application/Process Types	
Appeal (Director to P.C.)	\$650
Time Extension by Director	\$400
Time Extension by P.C./BOS	\$800
Zoning Review - Building Permit	\$150

On-and Off-Site Improvements

Developers of multifamily projects and single-family housing tracts are generally responsible for on- and off-site improvements, including curbs, gutters, and sidewalks, and, depending on the location, extension of sewer and water services. This requirement is necessary because it is the only way to provide infrastructure to developments and does not present a constraint to development.

Residential developments in the R-1, R-2, R-3, and R-4 zones are subject to the following site improvement requirements and standards:

- Dedicate streets and roads to the County. The required dedication is 30 feet from the centerline for local streets, 45 feet from the centerline for secondary streets, and 55 feet from the centerline for collector highways.
- Connect proposed exits and entrances to existing pavements.
- Provide curbs, gutters, and sidewalks.
- New on-site utility services must be placed underground unless the utility supplier requests otherwise.
- Plans for management and disposal of surface drainage water(s) originating on-site.
- Adequate drainage, potable water, and sewage disposal.
- Provide fire protection facilities and access ways that meet requirements of Imperial County Fire Department/Office of Emergency Services.
- When adjacent to property zoned for non-residential purposes, construct a seven-foot-high solid masonry wall.
- A lighting plan, exterior lighting shall be directed away from adjacent properties and public roads.
- Developments of 10 or more dwellings must provide a minimum 5 percent of the net area as usable open space.

Residential development is also subject to landscaping requirements based on the residential use, as follows:

- Mobile Home/R.V. Parks
 - A minimum of 10 percent of the developed lot area must be landscaped. Ornamental or landscaping rock and gravel areas, artificial turf, or other artificial materials shall be considered hard surface and not qualify as part of the 10 percent.
 - Setback areas must be landscaped. Within these areas, trees must be planted no further than 50 feet apart and no closer than 5 feet from the edge of the sidewalk. No material that will grow to a height of more than 12 inches shall be planted between the curb edge and sidewalk.
 - Within the interior of the mobile home park/R.V. park, at least one tree per space must be provided.
 - Within each planter or landscaped area, an irrigation system and live landscaping shall be provided and continually maintained.
 - Landscaping materials, including trees, shrubs, and ground cover should be the type suitable for the climatic conditions of the County of Imperial and shall be low volume water-use plants.
 - Minimum tree size or shrub size to be planted for any new development shall be of the five gallon capacity or larger.
- Multi-unit residential
 - A minimum of 15 percent of the total developed area must be landscaped (in addition to any required park or open space area).
 - Setback areas, excluding driveways, sidewalks, and maneuvering areas, must be landscaped. Within these areas, trees must be planted no further than 30 feet apart and no closer than 5 feet from the sidewalk. No material that will grow to a height of more than 12 inches shall be planted between the curb edge and sidewalk.
 - A minimum of 10 percent of off-street parking areas must be planters and landscaped areas.
 - All interior open space area shall be landscaped with live landscaping.
- Single-unit residential
 - A minimum of 20 percent of the total developed lot area must be landscaped.
 - The setback areas, excluding driveway entrances and public walkways, must be landscaped. Within these areas, trees must be planted no further than 30 feet apart and no closer than 5 feet from the sidewalk. No material that will grow to a height of more than 12 inches shall be planted between the curb edge and sidewalk.

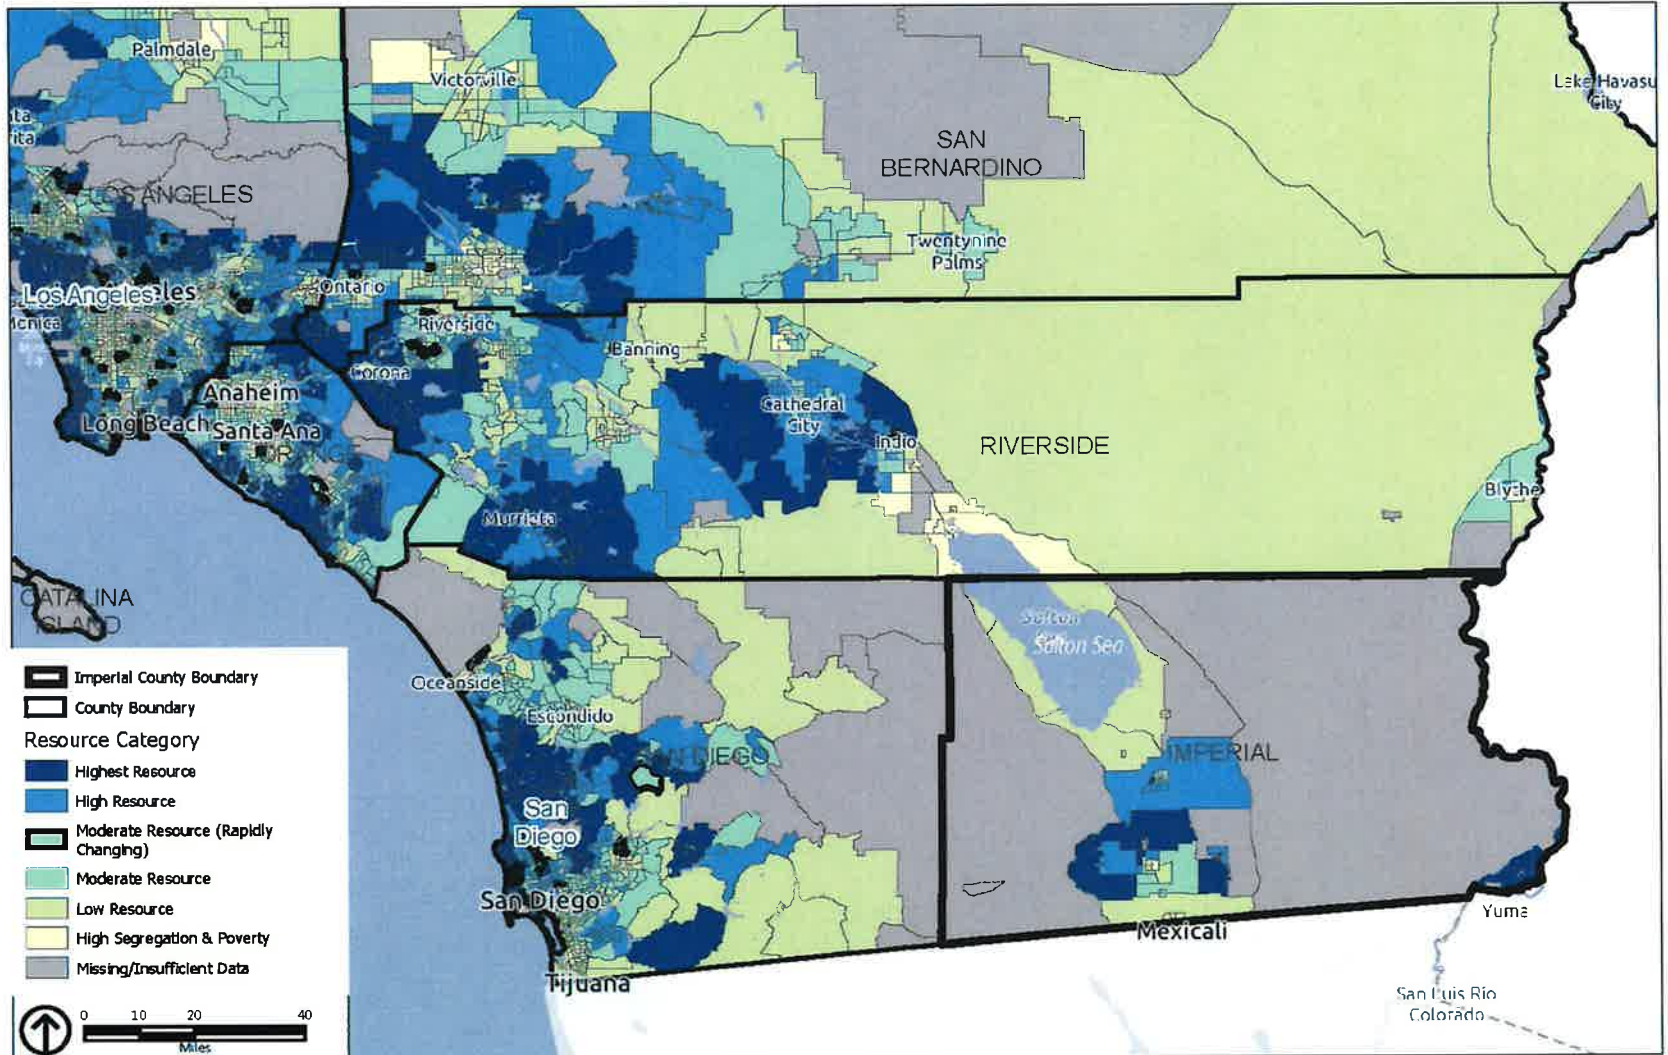

Building Codes and Enforcement

The County has adopted the 2019 California Building Code, which regulates the construction of all physical structures in the county. This code is widely used throughout California, and its implementation in Imperial County does not impose additional or unusual constraints to housing development. Use of this standardized code, rather than a locally prepared building code, may reduce costs, as developers are not burdened with learning the detailed regulations of a unique code. The County has not made any local amendments to the Building Code.

The County has active code enforcement and building inspection programs that work to uphold adopted codes and encourage the improvement of substandard dwelling units. Violations are primarily identified on a complaint basis or through the general observation of Building Code officers.

HOUSING SITES INVENTORY, COUNTYWIDE

Appendix D: Glossary of Terms

The following definitions are commonly used terms in the Housing Element:

Above Moderate-Income: Above moderate-income households are defined as households with incomes over 120 percent of the county median.

Accessory Dwelling Unit: A dwelling unit that is a separate living quarter from the principal dwelling unit and has its own kitchen and bathroom. Also referred to as "granny" or "in-law apartments."

Affordability: Annual housing costs are considered affordable when they do not exceed 30 percent of gross annual household income. For homeowners, this cost includes principal and interest payments. For renters, this includes monthly rent and utilities.

Affordability Covenant: A property title agreement that places resale or rental restrictions on a housing unit; also known as a deed restriction.

Affordable Housing: Refers to the relationship between the price of housing in a region (sale price or rent) and household income. Affordable housing is that which is affordable to households of very low, low, and moderate incomes. For housing to be affordable, shelter costs must not exceed 30 percent of the gross annual income of the household.

Assisted Housing: A unit that rents or sells for less than the prevailing market rate due to governmental monetary intervention or contribution. The terms "assisted" and "subsidized" are often used interchangeably.

At-Risk Housing: Existing subsidized below-market-rate rental housing units that are threatened with conversion to market-rate rents because of the impending termination of use restrictions due to expiration or non-renewal of subsidy arrangements.

Below-Market-Rate (BMR) Unit: A housing unit that sells or rents for less than the going market rate. It is typically used in reference to housing units that are directly or indirectly subsidized or have other restrictions in order to make them affordable to very low-, low-, or moderate-income households.

Community Development Block Grant (CDBG): The State CDBG program was established by the federal Housing and Community Development Act of 1974, as amended (42 USC 5301, et seq.). The primary objective of the CDBG program is to facilitate the development of viable urban communities by providing decent housing and a suitable living environment and by expanding economic opportunities, principally for persons of low and moderate income. "Persons of low and moderate income" or the "targeted income group" (TIG) are defined as families, households, and individuals whose incomes do not exceed 80 percent of the county median income, with adjustments for family or household size.

Condominium: A building or group of buildings in which units are owned individually, but the structure, common areas, and facilities are owned by all owners on a proportional, undivided basis.

Continuum of Care: An approach that helps communities plan for and provide a full range of emergency, transitional, and permanent housing and service resources to address the various needs of homeless persons at the point in time that they need them. The approach is based on the understanding that homelessness is not caused merely by a lack of shelter, but involves a variety of underlying, unmet needs – physical, economic, and social. Designed to encourage localities to develop a coordinated and comprehensive long-term approach to homelessness, the Continuum of Care consolidates the planning, application, and reporting documents for the US Department of Housing and Urban Development’s Shelter Plus Care, Section 8 Moderate Rehabilitation Single-Room Occupancy Dwellings (SRO) Program, and Supportive Housing Program (US House Bill 2163).

Decennial Census: Every ten years, the US Census Bureau conducts a national household survey, producing the richest source of nationally available small-area data. Article I of the Constitution requires that a census be taken every ten years for the purpose of reapportioning the US House of Representatives. The federal government uses decennial census data for apportioning congressional seats, for identifying distressed areas, and for many other activities. Census data is collected using two survey forms: the short form and the long form. Short-form information is collected on every person and includes basic characteristics, such as age, sex, and race. The long form is sent to one out of every six households and collects more detailed information, such as income, housing characteristics, and employment. Most of the indicators in DataPlace are from the long form and are thus estimates based on the sample of households. These values may differ considerably from the same indicators based on the short-form data, particularly for small areas.

Density: The number of housing units on a unit of land (e.g., 10 units per acre).

Density Bonus Programs: Allows an increase to the zoned maximum density of a proposed residential development, if the developer makes a specified amount of units affordable to lower-income households.

Development Impact Fee: A fee or charge imposed on developers to pay for a jurisdiction’s costs of providing services to new development.

Development Right: The right granted to a landowner or other authorized party to improve a property. Such right is usually expressed in terms of a use and intensity allowed under existing zoning regulation.

Disability: A long-lasting physical, mental, or emotional condition. This condition can make it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering. This condition can also impede a person from being able to go outside the home alone or to work at a job or business.

Down Payment Assistance: The most popular loans for these programs are with the Federal Housing Administration (FHA). FHA allows 100 percent gift funds for the down payment and some allowable closing costs. The gift can be from any relative or can be collected through charitable organizations like Neighborhood Gold/The Buyer Fund. Another popular tactic, which can be used in a broader range of loan

programs, is to borrow from a 401K. A withdrawal can be made without a penalty and paid back over a specified period.

Dwelling Unit: Any residential structure, whether or not attached to real property, including condominium and cooperative units and mobile or manufactured homes. It includes both one to four-family and multi-family structures. Vacation or second homes and rental properties are also included.

Elderly Units: Specific units in a development restricted to residents over a certain age (as young as 55 years). Persons with disabilities may share certain developments with the elderly.

Element: A division or chapter of the General Plan, Master Plan, or Comprehensive Plan.

Emergency Shelter (per Health and Safety Code 50801): Housing with minimal supportive services for homeless persons that is limited to occupancy of six months or less by a homeless person. No individual or household may be denied emergency shelter because of an inability to pay

Emergency Shelter Grants (ESG): A grant program administered by the US Department of Housing and Urban Development (HUD) provided on a formula basis to large entitlement jurisdictions.

Entitlement City: A city, which based on its population, is entitled to receive funding directly from HUD. Examples of entitlement programs include CDBG, HOME, and ESG.

Extremely Low-Income Limit: The upper limit for the extremely low-income category, set at 30 percent of the HUD area median family income. This is not an official program eligibility income limit, except when associated with a specific family size (e.g., "single person," "family of two," "family of three," etc.).

Fair Market Rent (FMR): Freely set rental rates defined by HUD as the median gross rents charged for available standard units in a county or Standard Metropolitan Statistical Area (SMSA). Fair market rents are used for the Section 8 Housing Choice Voucher Program and other HUD programs and are published annually by HUD.

Family Households: A household in which the householder lives with one or more individuals related to him or her by birth, marriage, or adoption.

Family Income: In decennial census data, family income includes the incomes of all household members 15 years old and over related to the householder. Although the family income statistics from each census cover the preceding calendar year, the characteristics of individuals and the composition of families refer to the time of enumeration (April 1 of the respective census years). Thus, the income of the family does not include amounts received by individuals who were members of the family during all or part of the calendar year prior to the census if these individuals no longer resided with the family at the time of census enumeration. Similarly, income amounts reported by individuals who did not reside with the family during the calendar year prior to the census but who were members of the family at the time of enumeration are included. However, the composition of most families was the same during the preceding calendar year as at the time of enumeration.

Fannie Mae: Established in 1938 by the federal government and becoming a private company in 1968, Fannie Mae operates under a congressional charter that directs it to channel their efforts into increasing the availability and affordability of homeownership for low-, moderate-, and middle-income Americans. Fannie Mae receives no government funding or backing and is one of the nation's largest taxpayers. Fannie Mae does not lend money directly to homebuyers. Instead, it works with lenders to make sure they don't run out of mortgage funds, so more people can achieve their goal of homeownership.

Farm Labor Housing (Farmworker): Units for migrant farmworkers that can be available for transitional housing for the homeless when not occupied by migrant farmworkers.

FHA-Insured: The Federal Housing Administration insures mortgages so that lower- and moderate-income people can obtain financing for homeownership.

First-Time Homebuyer Program: Provides low-income first-time homebuyers down- payment assistance in the form of a second mortgage loan to serve as "gap financing." These loans can be up to \$40,000, depending on the amount of assistance required by the individual homebuyer.

General Plan: A legal document, adopted by the legislative body of a city or county, setting forth policies regarding long-term development.

Group Quarters: A facility that houses groups of unrelated persons not living in households such as dormitories, institutions, and prisons.

Habitable (room): A space in a structure for living, sleeping, eating, or cooking. Bathrooms, toilet compartments, closets, storage or utility space, and similar areas are not considered habitable space.

Habitat for Humanity: A nonprofit, ecumenical Christian housing ministry that seeks to eliminate poverty housing and homelessness from the world and to make decent shelter a matter of conscience and action. Through volunteer labor and donations of money and materials, Habitat builds and rehabilitates simple, decent houses with the help of the homeowner (partner) families. Habitat houses are sold to partner families at no profit, financed with affordable, no-interest loans. The homeowners' monthly mortgage payments are used to build still more Habitat houses.

Handicap Accessible Units: Indicates certain units or all units in the property are wheelchair accessible or can be made wheelchair accessible. Accessible units also may include those that are accessible to people with sensory impairments or can be made accessible for people with sensory impairments.

Hispanic or Latino: In decennial census data, Hispanics or Latinos are those who classify themselves in one of the specific Hispanic or Latino categories listed on the US Census questionnaire—"Mexican," "Puerto Rican," or "Cuban"—as well as those who indicate that they are "other Spanish, Hispanic, or Latino." People who do not identify with one of the specific origins listed on the questionnaire but indicate that they are "other Spanish, Hispanic, or Latino" are those whose origins are from Spain, the Spanish-speaking countries of Central or South America, the Dominican Republic, or people identifying themselves generally as Spanish, Spanish-American, Hispanic, Hispano, Latino, and so on. People who are Hispanic or Latino may be of any

race. There were two important changes to the Hispanic origin question for Census 2000. First, the sequence of the race and Hispanic origin questions for Census 2000 differed from that in 1990; in 1990, the race question preceded the Hispanic origin question. Second, there was an instruction preceding the Hispanic origin question in 2000 indicating that respondents should answer both the Hispanic origin and the race questions. This instruction was added to give emphasis to the distinct concepts of the Hispanic origin and race questions and to emphasize the need for both pieces of information.

Home Investment Partnership Program (HOME): HOME provides formula grants to states and localities that communities use—often in partnership with local nonprofit groups—to fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership or provide direct rental assistance to low-income people.

Homeless Person: An individual living outside or in a building not meant for human habitation, or which they have no legal right to occupy, in an emergency shelter, or in a temporary housing program which may include a transitional and supportive housing program if habitation time limits exist. This definition includes substance abusers, mentally ill people, and sex offenders who are homeless (US House Bill 2163).

Household: A household is made up of all persons living in a dwelling unit whether or not they are related by blood, birth, or marriage.

Housing Authority: An organization established under state law to provide housing for low- and moderate-income persons. Commissioners are appointed by the local governing body of the jurisdiction in which they operate. Many housing authorities own their own housing or operate public housing funded by HUD.

Housing Choice Voucher Program: The program (formerly known as Section 8) is a subsidy program funded by the federal government and overseen by the Imperial Valley Housing Authority to provide low rents and/or housing payment contributions for very low- and low-income households.

HUD: The United States Department of Housing and Urban Development is a cabinet-level department of the federal government that oversees program and funding for affordable housing laws, development, and federally funded financial assistance.

HUD Area Median Family Income: HUD is required by law to set income limits that determine the eligibility of applicants for HUD's assisted housing programs. Income limits are calculated annually for metropolitan areas and non-metropolitan counties in the United States. They are based on HUD estimates of median family income, with adjustments for family size. Adjustments are also made for areas that have unusually high or low income to housing cost relationships.

Income Categories: The federal and state governments require that local jurisdictions consider the housing needs of households in various income categories, which are determined by the median household income at the local level.

Large Family or Household: A household or family with five or more members.

Low-Income Housing: Housing that is made available at prices lower than market rates. These lower prices are achieved through various financial mechanisms employed by state and local government authorities.

Low-Income Housing Tax Credit (LIHTC): The LIHTC program is an indirect federal subsidy used to finance the development of affordable rental housing for low-income households. The LIHTC program may seem complicated, but many local housing and community development agencies are effectively using these tax credits to increase the supply of affordable housing in their communities. This topic is designed to provide a basic introduction to the LIHTC program.

Low-Income Limit: Low-income households are defined as households with incomes between 50 percent and 80 percent of the area median household income.

Manufactured Home: Housing that is constructed of manufactured components, assembled partly at the site rather than totally at the site. Also referred to as modular housing.

Market-Rate Housing: Housing that is not built or maintained with the help of government subsidy. The prices of market rate homes are determined by the market and are subject to the laws of supply and demand.

McKinney-Vento Act: The primary federal response targeted to assisting homeless individuals and families. The scope of the act includes outreach, emergency food and shelter, transitional and permanent housing, primary health care services, mental health, alcohol and drug abuse treatment, education, job training, and childcare. There are nine titles under the McKinney-Vento Act that are administered by several different federal agencies, including the US Department of Housing and Urban Development (HUD). McKinney-Vento Act Programs administered by HUD include the Emergency Shelter Grant Program Supportive Housing Program, Section 8 Moderate Rehabilitation for Single-Room Occupancy Dwellings, Supplemental Assistance to Facilities to Assist the Homeless, and Single-Family Property Disposition Initiative (US House Bill 2163).

Median Income: Each year, the federal government calculates the median income for communities across the country to use as guidelines for federal housing programs. Area median incomes are set according family size.

Mental Illness: A serious and persistent mental or emotional impairment that significantly limits a person's ability to live independently.

Mixed Use: This refers to different types of development (e.g., residential, retail, office) occurring on the same lot or in close proximity to each other. Cities and counties sometimes allows mixed use in commercial zones, with housing typically located above primary commercial uses on the premises.

Mobile Home: A type of manufactured housing. A structure movable in one or more sections, which is at least 8 feet in width and 32 feet in length, is built on a permanent chassis and designed to be used as a dwelling unit when connected to the required utilities, either with or without a permanent foundation.

Mobile Home Park: A parcel or tract of land having as its principal use the rental, leasing, or occupancy of space by two or more mobile homes on a permanent or semi- permanent basis, including accessory buildings or uses customarily incidental thereto.

Mobile Home Subdivision: A subdivision of land, platted in conformance to NRS Chapter 278 and applicable city ordinances, for the purpose of providing mobile home lots.

Moderate Income: Moderate-income households are defined as households with incomes between 80 percent and 120 percent of the county median.

Mortgage Credit Certificate Program (MCCs): A Federal Income Tax Credit Program. An MCC increases the loan amount for which an applicant qualifies and it increases an applicant's take-home pay. The MCC entitles applicants to take a federal income tax credit of 20 percent of the annual interest they pay on their home mortgage. Because the MCC reduces an applicant's federal income taxes and increases their net earnings, it helps homebuyers qualify for a first home mortgage. The MCC is registered with the IRS, and it continues to decrease federal income taxes each year for as long as an applicant lives in the home.

Mortgage Revenue Bond: A state, county or city program providing financing for the development of housing through the sale of tax-exempt bonds.

Multi-Family Dwelling: A structure containing two or more dwelling units for the use of individual households; an apartment or condominium building is an example of this dwelling unit type.

Non-Hispanic: In decennial census data and in Home Mortgage Disclosure Act data after 2003, non-Hispanics are those who indicate that they are not Spanish/Hispanic/Latino.

Permanent Housing: Housing which is intended to be the tenant's home for as long as they choose. In the supportive housing model, services are available to the tenant, but accepting services cannot be required of tenants or in any way impact their tenancy. Tenants of permanent housing sign legal lease documents (US House Bill 2163).

Permanent Supportive Housing: Long-term community-based housing and supportive services for homeless persons with disabilities. The intent of this type of supportive housing is to enable this special needs population to live as independently as possible in a permanent setting. The supportive services may be provided by the organization managing the housing or provided by other public or private service agencies. There is no definite length of stay (US House Bill 2163).

Persons with a Disability: HUD's Housing Choice Voucher (formerly Section 8) program defines a "person with a disability" as: a person who is determined to (1) have a physical, mental, or emotional impairment that is expected to be of continued and indefinite duration, substantially impedes his or her ability to live independently, and is of such a nature that the ability could be improved by more suitable housing conditions; or (2) have a developmental disability, as defined in the Developmental Disabilities Assistance and Bill of Rights Act (US House Bill 2163).

Project-Based Rental Assistance: Rental assistance provided for a project, not for a specific tenant. A tenant receiving project-based rental assistance gives up the right to that assistance upon moving from the project.

Public Housing: The US Department of Housing and Urban Development (HUD) administers federal aid to local housing agencies that manage the housing for low- income residents at rents they can afford. HUD furnishes technical and professional assistance in planning, developing and managing these developments. It provides decent and safe rental housing for eligible low-income families, the elderly, and persons with disabilities. Public housing can be in the form of high-rise apartments or scattered- site single-family homes.

Rehabilitation: The upgrading of a building previously in a dilapidated or substandard condition for human habitation.

Rental Assistance: A rental subsidy for eligible low- and very low-income tenants. This assistance provides the share of the monthly rent that exceeds 30 percent of the tenants' adjusted monthly income.

Rent-to-Own: A development is financed so that at a certain point in time, the rental units are available for purchase based on certain restrictions and qualifications.

Rural Housing Service (RHA): A part of the US Department of Agriculture's Rural Development. The RHA offers financial aid to low-income residents of rural areas.

Section 8: Section 8, now known as the Housing Choice Voucher Program, is a subsidy program funded by the federal government and overseen by the Imperial Valley Housing Authority to provide low rents and/or housing payment contributions for very low- and low-income households.

Service Needs: The particular services required by special populations, typically including needs such as transportation, personal care, housekeeping, counseling, meals, case management, personal emergency response, and other services preventing premature institutionalization and assisting individuals to continue living independently.

Single-Room Occupancy Dwelling (SRO): SRO housing contains units for occupancy by one person. These units may contain food preparation or sanitary facilities or both.

Special Needs Projects: Housing for a designated group of people who desire special accommodations, such as services, in addition to the housing. Services may or may not be provided as part of the rental project. Examples of special needs populations are people with physical disabilities, developmental disabilities, mental illness, or those who need assisted living. It also includes healthcare facilities.

Subsidized Housing: Typically refers to housing that rents for less than the market rate due to a direct financial contribution from the government. There are two general types of housing subsidies. The first is most commonly referred to as "project-based" where the subsidy is linked with a particular unit or development, and the other is known as "tenant-based" where the subsidy is linked to the low-income individual or family. The terms "assisted" and "subsidized" are often used interchangeably.

Substandard Housing: Housing where major repair or replacement may be needed to make it structurally sound, weatherproof, and habitable.

Supportive Housing (per Health and Safety Code 50675.14(b)): Housing with no limit on length of stay, that is occupied by the target population as defined in subdivision (d) of Section 53260 and that is linked to on- or off-site services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community.

Supportive Services: Services provided to residents of supportive housing for the purpose of facilitating the independence of residents. Some examples are case management, medical or psychological counseling and supervision, child care, transportation, and job training.

Transitional Housing: Housing for people recovering from substance abuse issues or transitioning from homelessness. Transitional housing provides longer-term accommodations to homeless families and individuals than emergency shelter housing. Transitional housing provides a stable living environment for the period of time necessary to learn new skills, find employment, and/or develop a financial base with which to re-enter the housing market.

VA-Guaranteed: VA guaranteed loans are made by private lenders to eligible veterans for the purchase of a home which must be for their own personal occupancy. To get a loan, a veteran must apply to a lender. If the loan is approved, VA will guarantee a portion of it to the lender. This guarantee protects the lender against loss up to the amount guaranteed and allows a veteran to obtain favorable financing terms.

Very Low-Income Limit: Very low-income households are defined as households with incomes less than 50 percent of the area median household income.

Veteran: Anyone who has been discharged from the military generally after at least two years of service whether they served on active duty in a conflict or not (US House Bill 2163).

Workforce Housing: Refers to housing that is meant for residents earning low, moderate, to above moderate area median income. Some programs focus on employers providing assistance to their employees; some are instituting inclusionary programs, while others give preference to this group in their homeownership programs. Some jurisdictions have programs for specific segments of the workforce that are vital for the everyday function of the community such as teachers, police officers, and other public employees.

Zoning: Zoning is an activity undertaken by local jurisdictions to direct and shape land development activities. The intent of zoning is to protect the public health, safety, and welfare by ensuring that incompatible land uses (e.g., residential vs. heavy industrial) are not located next to each other. Zoning also impacts land values, creating and taking away "capital" for and from property owners. For example, a lot that is zoned for commercial development is more valuable (in financial terms) than a lot that is zoned for open space. Typically, lots that are zoned for higher densities have greater value on the market than lots that are zoned for lower densities. Zoning is one of the most important regulatory functions performed by local jurisdictions.

US Census Terms

Children: The term "children," as used in tables on living arrangements of children under 18, refers to all persons under 18 years, excluding people who maintain households, families, or subfamilies as a reference person or spouse.

Own Children: Sons and daughters, including stepchildren and adopted children, of the householder. Similarly, "own" children in a subfamily are sons and daughters of the married couple or parent in the subfamily. (All children shown as members of related subfamilies are own children of the person(s) maintaining the subfamily.) For each type of family unit identified in the CPS, the count of "own children under 18 years old" is limited to never-married children; however, "own children under 25" and "own children of any age," as the terms are used here, include all children regardless of marital status. The counts include never-married children living away from home in college dormitories.

Related Children: Includes all people in a household under the age of 18, regardless of marital status, who are related to the householder. It does not include the householder's spouse or foster children, regardless of age.

Ethnic Origin: People of Hispanic origin were identified by a question that asked for self-identification of the persons' origin or descent. Respondents were asked to select their origin (and the origin of other household members) from a "flash card" listing ethnic origins. People of Hispanic origin in particular, were those who indicated that their origin was Mexican, Puerto Rican, Cuban, Central or South American, or some other Hispanic origin. Note that people of Hispanic origin may be of any race.

Family: A group of two or more people who reside together and who are related by birth, marriage, or adoption.

Family Household (Family): A family includes a householder and one or more people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder's family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may comprise a group of unrelated people or one person living alone.

Family Size: Refers to the number of people in a family.

Family Type: Refers to how the members of a family are related to one another and the householder. Families may be a "Married-Couple Family," "Single-Parent Family," "Stepfamily," or "Subfamily."

Household: A household includes all the people who occupy a housing unit as their usual place of residence.

Householder: The person, or one of the people, in whose name the home is owned, being bought, or rented. If there is no such person present, any household member 15 years old and over can serve as the householder for the purposes of the census. Two types of householders are distinguished: a family householder and a non-family householder. A family householder is a householder living with one or more people related to him or her by birth, marriage, or adoption. The householder and all people in the household related to him are family members. A non-family householder is a householder living alone or with non-relatives only.

Household Income: The total income of all the persons living in a household. A household is usually described as very low income, low income, moderate income, and above moderate income based on household size and income, relative to regional median income.

Household Size: The total number of people living in a housing unit.

Household Type and Relationship: Households are classified by type according to the sex of the householder and the presence of relatives. Examples include married- couple family; male householder, no wife present; female householder, no husband present; spouse (husband/wife); child; and other relatives.

Housing Unit: A house, an apartment, a mobile home or trailer, a group of rooms, or a single room occupied as separate living quarters, or if vacant, intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have direct access from outside the building or through a common hall. For vacant units, the criteria of separateness and direct access are applied to the intended occupants whenever possible.

Median: This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of data values. The median divides the total frequency distribution into two equal parts: one-half of the cases fall below the median and one-half of the cases exceed the median.

Median Age: This measure divides the age distribution in a stated area into two equal parts: one-half of the population falling below the median value and one-half above the median value.

Median Income: The median income divides the income distribution into two equal groups: one has incomes above the median and the other has incomes below the median.

Occupied Housing Unit: A housing unit is classified as occupied if it is the usual place of residence of the person or group of people living in it at the time of enumeration, or if the occupants are only temporarily absent; that is, away on vacation or a business trip. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Overcrowded Units: Overcrowded units are occupied housing units that have more than one person per room.

Per Capita Income: Average obtained by dividing aggregate income by total population of an area.

Population Estimate (Population Estimates Program): The Census Bureau's Population Estimates Program (PEP) produces July 1 estimates for years after the last published decennial census, as well as for past decades. Existing data series, such as births, deaths, federal tax returns, Medicare enrollment, and immigration, are used to update the decennial census base counts. POP estimates are used in federal funding allocations, in setting the levels of national surveys, and in monitoring recent demographic changes.

Population Projections: Estimates of the population for future dates. They illustrate plausible courses of future population change based on assumptions about future births, deaths, international migration, and domestic migration. Projections are based on an estimated population consistent with the most recent decennial census as enumerated. While projections and estimates may appear similar, there are some distinct differences between the two measures. Estimates usually are for the past, while projections typically are for future dates. Estimates generally use existing data, while projections must assume what demographic trends will be in the future.

Poverty: Following the Office of Management and Budget's Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to detect who is poor. If the total income for a family or unrelated individual falls below the relevant poverty threshold, then the family or unrelated individual is classified as being "below the poverty level."

Poverty Rate: The percentage of people (or families) who are below poverty.

Race: The race of individuals was identified by a question that asked for self-identification of the person's race. Respondents were asked to select their race from a "flashcard" listing racial groups.

Severely Overcrowded: Are occupied housing units with 1.51 or more persons per room.

Single-Family Attached Housing: A one-unit residential structure that has one or more walls extending from ground to roof separating it from adjoining structures. This category includes row houses, townhouses, and houses attached to nonresidential structures.

Single-Family Detached Home: A one-unit residential structure detached from any other house (i.e., with open space on all four sides). A house is considered detached even if it has an adjoining shed or garage.

Tenure: Refers to the distinction between owner-occupied and renter-occupied housing units. A housing unit is "owned" if the owner or co-owner lives in the unit, even if it is mortgaged or not fully paid for. A cooperative or condominium unit is owned only if the owner or co-owner lives in it. All other occupied units are classified as rented, including units rented for cash rent and those occupied without payment of cash rent.

Transitional Housing (per Health and Safety Code 50675.2(h)): Buildings configured as rental housing developments, but operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six months.

Two-Family Buildings: These dwellings may also be referred to as single-family attached because a duplex with a shared wall would qualify in both categories. Other two-family buildings would include older single-family homes that have been converted into two separate living spaces or “flats” that do not share walls, but do share a floor/ceiling.

Unemployed: All civilians 16 years old and over are classified as unemployed if they (1) were neither "at work" nor "with a job but not at work" during the reference week, and (2) were actively looking for work during the last four weeks, and (3) were available to accept a job. Also included as unemployed are civilians who did not work at all during the reference week, were waiting to be called back to a job from which they had been laid off, and were available for work except for temporary illness.

Unemployment Rate: The proportion of the civilian labor force that is unemployed, expressed as a percentage.

Units in Structure: A structure is a separate building that either has open spaces on all sides or is separated from other structures by dividing walls that extend from ground to roof. In determining the number of units in a structure, all housing units, both occupied and vacant, are counted.

Vacancy Rate: The housing vacancy rate is the proportion of the housing inventory that is available for sale or for rent. It is computed by dividing the number of available units by the sum of occupied units and available units, and then multiplying by 100.

Vacant Housing Unit: A housing unit is vacant if no one is living in it at the time of enumeration unless its occupants are only temporarily absent. Units temporarily occupied at the time of enumeration entirely by people who have a usual residence elsewhere are also classified as vacant. New units not yet occupied are classified as vacant housing units if construction has reached a point where all exterior windows and doors are installed, and final usable floors are in place. Vacant units are excluded from the housing inventory if they are open to the elements; that is, the roof, walls, windows, and/or doors no longer protect the interior from the elements. Also excluded are vacant units with a sign that they are condemned, or they are to be demolished.

White: In decennial census data, the White category includes persons having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicate their race as “White” or report entries such as Irish, German, Italian, Lebanese, Near Easterner, Arab, or Polish. The “alone” designation, as used with decennial census data, indicates that the person reported only one race.

Year Structure (housing unit) Built: Year structure built refers to when the building was first constructed, not when it was remodeled, added to, or converted. For mobile homes, houseboats, recreational vehicles, etc., the manufacturer’s model year was assumed to be the year built. The data relate to the number of units built during the specified periods that were still in existence at the time of enumeration.

IMPERIAL COUNTY
PLANNING & DEVELOPMENT SERVICES

Mr. Jim Minnick
Planning and Development Services Director
801 Main Street
El Centro, CA 92243

SUBJECT: County of Imperial 2014-2021 Housing Element

Dear Mr. Minnick:

The Imperial County Air Pollution Control District ("Air District") appreciates the opportunity to review and comment on the County of Imperial 2014-2021 Housing Element which is one of the ten components of the County's General Plan.

The Air District reviews projects of this nature not for technical perfection but rather for adequacy, completeness and consistency with Air District rules, regulations and programs that work to keep the quality of air in Imperial County from declining. These policies, in conjunction with the California Environmental Quality Act (CEQA), the most current CEQA Air Quality Handbook for Imperial County (CEQA Handbook), and the Air District's State Implementation Plans (SIP's) for Ozone, PM2.5 and PM10, work together to assure that air quality improves or does not degrade. Currently, the non-attainment status of "moderate" for ozone, "moderate" for PM2.5 and the maintenance requirements for PM10 are the driving criteria in establishing the thresholds for NOx, ROG, PM10, SOx and CO found in the CEQA Handbook.

Critical to the approval and implementation of a SIP is the assurance that transportation budgets will "conform" to the purpose of the SIP. That is, transportation emissions will not cause new air quality violations, worsen existing violations, or delay attainment of the relevant National Ambient Air Quality Standards (NAAQS) pertinent to the SIP. This assurance rests on consistency of data used in both Imperial County's SIP(s) and the Housing Element. In this instance, population growth projections from the Southern California Association of Governments (SCAG) Regional Transportation Plan/Sustainable Growth Strategy (RTP/SGS). Upon reviewing the Housing Element, Air District staff identified *Table A-3—Population Projections, 2020 and 2035* was based

on SCAG's 2012 RTP/SGS, while Imperial County's 2018 PM₁₀ and 2018 PM_{2.5} SIPs projections were based on SCAG's 2016 RTP/SCS. To ensure compatibility and adequacy with the aforementioned SIPs, *Table A-3* must also be based on the SCAG's 2016 RTP/SCS.

Two new rules which were not in existence during 2013 are relevant to **Goal 6** of the Housing Element, which promotes sustainable development by encouraging the inclusion of energy conservation features in new and existing housing stock. **Rule 400.6** limits oxides of nitrogen emissions from natural gas-fired Water Heaters. This rule applies to manufacturers, distributors, retailers, and installers of natural gas-fired Water Heaters with heat input less than 75,000 British Thermal Units per hour. **Rule 428** limits emissions of particulate matter from wood burning appliances. This rule applies to any person who manufactures, sells, offers for sale, or operates a permanently installed, indoor or outdoor, wood burning appliance within the Imperial County PM_{2.5} Nonattainment Area, and; any person who installs a wood burning appliance in any residential or commercial, single or multi-building unit within the Imperial County PM_{2.5} Nonattainment Area. Current and future development must adhere to these rules. As discussed in Appendix A, various amenities directly influence the cost of construction. The elimination of wood-burning fireplaces and the installation of cleaner, more fuel-efficient water heaters will provide tangible savings in construction costs.

Finally, a major impact to air quality within Imperial County comes from fugitive dust (PM₁₀). *Table-41* provides a summary of vacant parcels within Imperial County. During wind events open spaces (vacant lots) can be a potential source of dust. In the spirit of **Goal 7**, encouraging coordination of public agencies, the Air District points out that **Rule 804 of Regulation VIII** makes landowners responsible for the mitigation of fugitive dust.

For your convenience, the Air District's rules and regulations are available via the web at <https://apcd.imperialcounty.org>. Please feel free to call should you have questions at (442) 265-1800.

Respectfully,

Curtis Blondell
