SECTION 1 INTRODUCTION

A. PURPOSE

This document is a policy-level, project level Initial Study for the evaluation of potential environmental impacts resulting from the proposed Parcel Map #02486 and Variance #20-0001, where the intent of the project is to subdivide the project site to separate an existing house from farmland. The proposed Variance request is to exceed the panhandle dimension requirements pursuant to Title 9 Division 8 Chapter 4, Section 90804.02 M, for the proposed Parcel 1 to have access to County maintained road. For purposes of this document, the abovementioned project will be called the "proposed application". (Refer to Exhibit "A" & "B").

B. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) REQUIREMENTS AND THE IMPERIAL COUNTY'S GUIDELINES FOR IMPLEMENTING CEQA

As defined by Section 15063 of the State California Environmental Quality Act (CEQA) Guidelines and Section 7 of the County's "CEQA Regulations Guidelines for the Implementation of CEQA, as amended", an **Initial Study** is prepared primarily to provide the Lead Agency with information to use as the basis for determining whether an Environmental Impact Report (EIR), Negative Declaration, or Mitigated Negative Declaration would be appropriate for providing the necessary environmental documentation and clearance for any proposed project.

According to Section 15065, an **EIR** is deemed appropriate for a particular proposal if the following conditions occur:

- The proposal has the potential to substantially degrade quality of the environment.
- The proposal has the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals.
- The proposal has possible environmental effects that are individually limited but cumulatively considerable.
- The proposal could cause direct or indirect adverse effects on human beings.

According to Section 15070(a), a **Negative Declaration** is deemed appropriate if the proposal would not result in any significant effect on the environment.

According to Section 15070(b), a **Mitigated Negative Declaration** is deemed appropriate if it is determined that though a proposal could result in a significant effect, mitigation measures are available to reduce these significant effects to insignificant levels.

This Initial Study has determined that the proposed applications will not result in any potentially significant environmental impacts and therefore, a Negative Declaration is deemed as the appropriate document to provide necessary environmental evaluations and clearance as identified hereinafter.

This Initial Study and Negative Declaration are prepared in conformance with the California Environmental Quality Act of 1970, as amended (Public Resources Code, Section 21000 et. seq.); Section 15070 of the State & County of Imperial's Guidelines for Implementation of the California Environmental Quality Act of 1970, as amended (California Code of Regulations, Title 14, Chapter 3, Section 15000, et. seq.); applicable requirements of the County of Imperial; and the regulations, requirements, and procedures of any other responsible public agency or an agency with jurisdiction by law.

Pursuant to the County of Imperial Guidelines for Implementing CEQA, depending on the project scope, the County of Imperial Board of Supervisors, Planning Commission and/or Planning Director is designated the Lead Agency, in accordance with Section 15050 of the CEQA Guidelines. The Lead Agency is the public agency which has the principal responsibility for approving the necessary environmental clearances and analyses for any project in the County.

C. INTENDED USES OF INITIAL STUDY AND NEGATIVE DECLARATION

This Initial Study and Negative Declaration are informational documents which are intended to inform County of Imperial decision makers, other responsible or interested agencies, and the general public of potential environmental effects of the proposed applications. The environmental review process has been established to enable public agencies to evaluate environmental consequences and to examine and implement methods of eliminating or reducing any potentially adverse impacts. While CEQA requires that consideration be given to avoiding environmental damage, the Lead Agency and other responsible public agencies must balance adverse environmental effects against other public objectives, including economic and social goals.

The Initial Study and Negative Declaration, prepared for the project will be circulated for a period of 20 days (*30-days if submitted to the State Clearinghouse for a project of area-wide significance*) for public and agency review and comments. At the conclusion, if comments are received, the County Planning & Development Services Department will prepare a document entitled "Responses to Comments" which will be forwarded to any commenting entity and be made part of the record within 10-days of any project consideration.

D. CONTENTS OF INITIAL STUDY & NEGATIVE DECLARATION

This Initial Study is organized to facilitate a basic understanding of the existing setting and environmental implications of the proposed applications.

SECTION 1

I. INTRODUCTION presents an introduction to the entire report. This section discusses the environmental process, scope of environmental review, and incorporation by reference documents.

SECTION 2

II. ENVIRONMENTAL CHECKLIST FORM contains the County's Environmental Checklist Form. The checklist form presents results of the environmental evaluation for the proposed applications and those issue areas that would have either a significant impact, potentially significant impact, or no impact.

PROJECT SUMMARY, LOCATION AND ENVIRONMENTAL SETTINGS describes the proposed project entitlements and required applications. A description of discretionary approvals and permits required for project implementation is also included. It also identifies the location of the project and a general description of the surrounding environmental settings.

ENVIRONMENTAL ANALYSIS evaluates each response provided in the environmental checklist form. Each response checked in the checklist form is discussed and supported with sufficient data and analysis as necessary. As appropriate, each response discussion describes and identifies specific impacts anticipated with project implementation.

SECTION 3

III. MANDATORY FINDINGS presents Mandatory Findings of Significance in accordance with Section 15065 of

the CEQA Guidelines.

IV. PERSONS AND ORGANIZATIONS CONSULTED identifies those persons consulted and involved in preparation of this Initial Study and Negative Declaration.

V. REFERENCES lists bibliographical materials used in preparation of this document.

VI. NEGATIVE DECLARATION – COUNTY OF IMPERIAL

VII. FINDINGS

SECTION 4

VIII. RESPONSE TO COMMENTS (IF ANY)

IX. MITIGATION MONITORING & REPORTING PROGRAM (MMRP) (IF ANY)

E. SCOPE OF ENVIRONMENTAL ANALYSIS

For evaluation of environmental impacts, each question from the Environmental Checklist Form is summarized and responses are provided according to the analysis undertaken as part of the Initial Study. Impacts and effects will be evaluated and quantified, when appropriate. To each question, there are four possible responses, including:

1. **No Impact:** A “No Impact” response is adequately supported if the impact simply does not apply to the proposed applications.
2. **Less Than Significant Impact:** The proposed applications will have the potential to impact the environment. These impacts, however, will be less than significant; no additional analysis is required.
3. **Potentially Significant Unless Mitigation Incorporated:** This applies where incorporation of mitigation measures has reduced an effect from “Potentially Significant Impact” to a “Less Than Significant Impact”.
4. **Potentially Significant Impact:** The proposed applications could have impacts that are considered significant. Additional analyses and possibly an EIR could be required to identify mitigation measures that could reduce these impacts to less than significant levels.

F. POLICY-LEVEL or PROJECT LEVEL ENVIRONMENTAL ANALYSIS

This Initial Study and Negative Declaration will be conducted under a policy-level, project level analysis. Regarding mitigation measures, it is not the intent of this document to “overlap” or restate conditions of approval that are commonly established for future known projects or the proposed applications. Additionally, those other standard requirements and regulations that any development must comply with, that are outside the County’s jurisdiction, are also not considered mitigation measures and therefore, will not be identified in this document.

G. TIERED DOCUMENTS AND INCORPORATION BY REFERENCE

Information, findings, and conclusions contained in this document are based on incorporation by reference of tiered documentation, which are discussed in the following section.

1. Tiered Documents

As permitted in Section 15152(a) of the CEQA Guidelines, information and discussions from other documents

can be included into this document. Tiering is defined as follows:

"Tiering refers to using the analysis of general matters contained in a broader EIR (such as the one prepared for a general plan or policy statement) with later EIRs and negative declarations on narrower projects; incorporating by reference the general discussions from the broader EIR; and concentrating the later EIR or negative declaration solely on the issues specific to the later project."

Tiering also allows this document to comply with Section 15152(b) of the CEQA Guidelines, which discourages redundant analyses, as follows:

"Agencies are encouraged to tier the environmental analyses which they prepare for separate but related projects including the general plans, zoning changes, and development projects. This approach can eliminate repetitive discussion of the same issues and focus the later EIR or negative declaration on the actual issues ripe for decision at each level of environmental review. Tiering is appropriate when the sequence of analysis is from an EIR prepared for a general plan, policy or program to an EIR or negative declaration for another plan, policy, or program of lesser scope, or to a site-specific EIR or negative declaration."

Further, Section 15152(d) of the CEQA Guidelines states:

"Where an EIR has been prepared and certified for a program, plan, policy, or ordinance consistent with the requirements of this section, any lead agency for a later project pursuant to or consistent with the program, plan, policy, or ordinance should limit the EIR or negative declaration on the later project to effects which:

(1) Were not examined as significant effects on the environment in the prior EIR; or

(2) Are susceptible to substantial reduction or avoidance by the choice of specific revisions in the project, by the imposition of conditions, or other means."

2. Incorporation By Reference

Incorporation by reference is a procedure for reducing the size of EIRs/MND and is most appropriate for including long, descriptive, or technical materials that provide general background information, but do not contribute directly to the specific analysis of the project itself. This procedure is particularly useful when an EIR or Negative Declaration relies on a broadly-drafted EIR for its evaluation of cumulative impacts of related projects (*Las Virgenes Homeowners Federation v. County of Los Angeles* [1986, 177 Ca.3d 300]). If an EIR or Negative Declaration relies on information from a supporting study that is available to the public, the EIR or Negative Declaration cannot be deemed unsupported by evidence or analysis (*San Francisco Ecology Center v. City and County of San Francisco* [1975, 48 Ca.3d 584, 595]). This document incorporates by reference appropriate information from the "Final Environmental Impact Report and Environmental Assessment for the "County of Imperial General Plan EIR" prepared by Brian F. Mooney Associates in 1993 and updates.

When an EIR or Negative Declaration incorporates a document by reference, the incorporation must comply with Section 15150 of the CEQA Guidelines as follows:

- The incorporated document must be available to the public or be a matter of public record (CEQA Guidelines Section 15150[a]). The General Plan EIR and updates are available, along with this document, at the County of Imperial Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 Ph. (442) 265-1736.
- This document must be available for inspection by the public at an office of the lead agency (CEQA Guidelines Section 15150[b]). These documents are available at the County of Imperial Planning &

Development Services Department, 801 Main Street, El Centro, CA 92243 Ph. (442) 265-1736.

- These documents must summarize the portion of the document being incorporated by reference or briefly describe information that cannot be summarized. Furthermore, these documents must describe the relationship between the incorporated information and the analysis in the tiered documents (CEQA Guidelines Section 15150[c]). As discussed above, the tiered EIRs address the entire project site and provide background and inventory information and data which apply to the project site. Incorporated information and/or data will be cited in the appropriate sections.
- These documents must include the State identification number of the incorporated documents (CEQA Guidelines Section 15150[d]). The State Clearinghouse Number for the County of Imperial General Plan EIR is SCH #93011023.
- The material to be incorporated in this document will include general background information (CEQA Guidelines Section 15150[f]). This has been previously discussed in this document.

II. *Environmental Checklist*

1. **Project Title:** Parcel Map #02486 & Variance #20-0001 for Tyler and Jennifer Sutter / Initial Study #20-0017
2. **Lead Agency:** Imperial County Planning & Development Services Department
3. **Contact person and phone number:** Diana Robinson, Planner III, (442) 265-1736, ext. 1751
4. **Address:** 801 Main Street, El Centro CA, 92243
5. **E-mail:** dianarobinson@co.imperial.ca.us
6. **Project location:** The project site ("site") is located at 1803 Jeffrey Road, in Seeley, CA, between Jeffrey Road to the east and Foxglove Street to the west, and between Del Sur Avenue and a parcel dedicated to a railroad, north of Park Avenue South. The project site consists of nine (9) parcels, identified as Assessor's Parcel Numbers (APN) 051-110-005-000, 051-110-002-000, 051-10-001-000, 051-093-003-000, 051-093-001-000, 051-093-005-000, 052-092-010-000, 052-092-014-000 and 051-020-024-000. The site is approximately 4 miles southwest of the Townsite of Seeley. See Exhibits "A" and "B" for location maps. The legal descriptions of all parcels can be found on the Title Report, included in this package, under "Attachment A - Application and Supporting Documents".
7. **Project sponsor's name and address:** Taylor Preece, P.L.S.
Precision Engineering and Surveying
P.O. Box 2216, El Centro, CA 92244
8. **General Plan designation:** Agriculture
9. **Zoning:** A-2-R (General Agriculture/Rural) per Zone Map #50
10. **Description of project:** The property owners have submitted a minor subdivision application to separate an existing house from farmland. The project site consists of nine (9) parcels, totaling an area of approximately +/- 142.4 acres. The intent is to re-subdivide the area into two (2) parcels: Parcel 1 with +/-2.69 acres and Parcel 1 with +/-139.71 acres, with the existing residential and agricultural uses, respectively. No physical development is being proposed.

The proposed Variance request is to exceed the panhandle dimension requirements pursuant to Title 9 Division 8 Chapter 4, Section 90804.02 M, for the proposed Parcel 1 to have access to County maintained road.
11. **Surrounding land uses and setting:** The surrounding land uses are houses and hay storage to the north, a house to the east and an old cheese factory to the northeast, agricultural fields to the south, and vacant parcels to the west.
12. **Other public agencies whose approval is required** (e.g., permits, financing approval, or participation agreement.): A) Planning Commission
13. **Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentially, etc.?**
Native American Heritage Commission (NAHC) and local tribe members were invited to comment on the project and to date, we have received two responses, one of them stating that they did not wish to comment on the project and the other one requesting that adequate buffer zones be utilized to avoid sensitive areas should there be any ground disturbing activities related to the project, but since there is no development being proposed, no actions

are required. The Sacred Files Search came back with negative results, along with a list of tribes to contact and ask for comments. Efforts to reach out to these tribes included phone, mail and email. No responses affecting the project were received.

Note: Conducting consultation early in the CEQA process allows tribal governments, lead agencies, and project proponents to discuss the level of environmental review, identify and address potential adverse impacts to tribal cultural resources, and reduce the potential for delay and conflict in the environmental review process. (See Public Resources Code, Section 21080.3.2). Information may also be available from the California Native American Heritage Commission's Sacred Lands File per Public Resources Code, Section 5097.96 and the California Historical Resources Information System administered by the California Office of Historic Preservation. Please also note that Public Resources Code, Section 21082.3 (c) contains provisions specific to confidentiality.

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

<input type="checkbox"/> Aesthetics	<input type="checkbox"/> Agriculture and Forestry Resources	<input type="checkbox"/> Air Quality
<input type="checkbox"/> Biological Resources	<input type="checkbox"/> Cultural Resources	<input type="checkbox"/> Energy
<input type="checkbox"/> Geology /Soils	<input type="checkbox"/> Greenhouse Gas Emissions	<input type="checkbox"/> Hazards & Hazardous Materials
<input type="checkbox"/> Hydrology / Water Quality	<input type="checkbox"/> Land Use / Planning	<input type="checkbox"/> Mineral Resources

<input type="checkbox"/> Recreation	<input type="checkbox"/> Transportation	<input type="checkbox"/> Tribal Cultural Resources
<input type="checkbox"/> Utilities/Service Systems	<input type="checkbox"/> Wildfire	<input type="checkbox"/> Mandatory Findings of Significance

ENVIRONMENTAL EVALUATION COMMITTEE (EEC) DETERMINATION

After Review of the Initial Study, the Environmental Evaluation Committee has:

Found that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

Found that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

Found that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

Found that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

Found that although the proposed project could have a significant effect on the environment, all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

PROJECT SUMMARY

- A. Project Location:** The project site ("site") is located at 1803 Jeffrey Road, in Seeley, CA, between Jeffrey Road to the east and Foxglove Street to the west, and between Del Sur Avenue and a parcel dedicated to a railroad, north of Park Avenue South. The project site consists of nine (9) parcels, identified as Assessor's Parcel Numbers (APN) 051-110-005-000, 051-110-002-000, 051-10-001-000, 051-093-003-000, 051-093-001-000, 051-093-005-000, 052-092-010-000, 052-092-014-000 and 051-020-024-000. The site is approximately 4 miles southwest of Seeley. See Exhibits "A" and "B" for location maps.
- B. Project Summary:** The property owners have submitted a minor subdivision application to separate an existing house from farmland. The project site consists of nine (9) parcels, totaling an area of approximately +/-142.4 acres. The intent is to re-subdivide the area into two (2) parcels: Parcel 1 with +/-2.69 acres and Parcel 1 with +/-139.71 acres, with the existing residential and agricultural uses, respectively. No physical development is being proposed.
- The proposed Variance request is to exceed the panhandle dimension requirements pursuant to Title 9 Division 8 Chapter 4, Section 90804.02 M, for the proposed Parcel 1 to have access to County maintained road.
- C. Environmental Setting:** The surrounding land uses are houses and hay storage to the north, a house to the east and an abandoned dairy factory to the northeast, agricultural fields to the south, and vacant parcels to the west.
- D. Analysis:** The project site is designated as "Agriculture" and is zoned "A-2-R" (General Agricultural/Rural) per Zoning Map #50 under Title 9 Land Use Ordinance. The proposed subdivision would create two lots and one of them is being proposed below the minimum lot size within the A-2 Zone, which is 40 acres per Title 9 Division 5 Chapter 8 Section 90508.04. The parcel meets the conditions under Lot Reduction Exception #1, since the existing house on the property was built prior to April 1, 1976, the subdivider agrees to convey and surrender development rights to the County (pursuant to 90805.02, E), and the project shows compliance with all other requirements in Title 9, except for the panhandle requirements under Division 8 Section 90804.02 M), which requires that the panhandle have a length of more than two thirds (2/3) the distance from the street on which the panhandle fronts to the rear lot line. For that reason, a Variance application (V#20-0001) was requested and was made part of the project. The applicant, on behalf of the property owners, is requesting that a panhandle exceeding the allowed distance be allowed to create access from the nearest County maintained road, which is Jeffrey Road, so as to comply with the Subdivision requirements, Code Section 90804.02 B) "Every lot shall front on a dedicated street or a street offered for dedication" and 90804.03 "Where it is necessary to extend a street beyond the boundaries of a subdivision to provide adequate circulation for residents of the subdivision, the subdivider shall cause the required easements to be dedicated to the County and shall improve said easements in accordance with the County Standards."
- E. General Plan Consistency:** The approval of the Variance would make the project consistent with the General Plan and Title 9 Land Use Ordinance Divisions 5 Zoning Areas Established, under Lot Reduction Exception #1 under the A-2 Zone (per Section 90508.04), Division 8 Subdivision Ordinance (per Section 90805.00 G) and Government Code Section

66599.20. The project is also consistent with the existing land use designation of Agriculture, since the existing uses, agricultural and residential, are allowed and will remain.

— Roads
 Project Parcels

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from "Earlier Analyses," as described in (5) below, may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a) Earlier Analysis Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
 - a) the significance criteria or threshold, if any, used to evaluate each question; and
 - b) the mitigation measure identified, if any, to reduce the impact to less than significance

Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--------------------------------------	--	-------------------------------------	----------------

I. AESTHETICS

Except as provided in Public Resources Code Section 21099, would the project:

- a) Have a substantial adverse effect on a scenic vista or scenic highway?

a) The project site is not located near a scenic highway per the Imperial County Circulation and Scenic Highway Element¹. The roads surrounding the parcel do not meet the scenic highway criteria found on the California Scenic Highway Program²; therefore, no impacts are expected to occur.
- b) Substantially damage scenic resources, including, but not limited to trees, rock outcroppings, and historic buildings within a state scenic highway?

b) There are no scenic resources surrounding the project site; therefore, no impacts are expected.
- c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surrounding? (Public views are those that are experienced from publicly accessible vantage point.) If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?

c) The proposed project would not modify the existing visual character of the site nor its surroundings since it consists of a minor subdivision and no physical changes are being proposed; therefore, no impacts are expected.
- d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

d) The application does not include any proposals of new sources of light or glare; therefore, no impacts are expected.

II. AGRICULTURE AND FOREST RESOURCES

In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. --Would the project:

- a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

a) According to the California Department of Conservation Farmland Mapping and Monitoring Program (2016), the project site is designated as "Prime Farmland", "Farmland of Local Importance", "Farmland of Statewide Importance" and "Other Land"³, but since no development is being proposed, and there is no conversion of agricultural use to non-agricultural use being proposed, less than significant impacts are expected to occur.
- b) Conflict with existing zoning for agricultural use, or a Williamson Act Contract?

b) The existing farming and residential uses are consistent with the A-2-R (General Agriculture/Rural) zone. In addition, the Williamson Act Contract expired and County of Imperial issued Non-Renewals; therefore, no impacts are expected.
- c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined

¹ Imperial County General Plan Circulation and Scenic Highways Element, page 30
² Imperial County General Plan Circulation and Scenic Highways Element, pages 80-108
³ California Department of Conservation Farmland Mapping <https://maps.conservation.ca.gov/DLRP/CIFF/>

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--	--------------------------------------	--	-------------------------------------	----------------

by Government Code Section 51104(g)?

c) The project is not within any forest land; therefore, no impacts related to the conversion of timberlands or forest land are expected.

d) Result in the loss of forest land or conversion of forest land to non-forest use?

d) As previously stated, the project site is not within or close to any forest land; therefore, no impacts would occur.

e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?

e) No changes are being proposed other than the minor subdivision to separate the existing house from farmland. No impacts are expected to occur.

III. AIR QUALITY

Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to the following determinations. Would the Project:

a) Conflict with or obstruct implementation of the applicable air quality plan?

a) The project is not expected to cause any impacts to air quality since no changes are being proposed to the existing uses. Future development, if any, is subject to County agencies' review (i.e. Air Pollution Control District).

b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?

b) There will be no use of pollutants, so no emissions are expected. No impacts are expected to occur.

c) Expose sensitive receptors to substantial pollutant concentrations?

c) The proposed re-subdivision would not expose sensitive receptors to pollutants since no physical changes are proposed; therefore, no impacts are being proposed.

d) Result in other emissions such as those leading to odors adversely affecting a substantial number of people?

d) No physical development is proposed, so no emissions are expected to be released; therefore, no impacts are expected.

IV. BIOLOGICAL RESOURCES *Would the project:*

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?

a) After research, it was found that the project site is not within a designated sensitive habitat area, but is within the "Burrowing Owl Species Distribution Model" according to the Imperial County General Plan's Conservation and Open Space Element, Figure 2⁴. Since the proposed re-subdivision will not physically affect the environment, and no development is being proposed, less than significant impacts are expected.

b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?

b) The project site is adjacent to the Dixie Drain Four, however, since no development is being proposed, no impacts are

⁴ Imperial County General Plan "Conservation and Open Space Element", Figure 2

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
expected to occur.				
c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? c) No removal, filing, hydrological interruption or other means are anticipated nor listed in the scope of work; therefore, no impacts on wetlands are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Interfere substantially with the movement of any resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? d) The proposed project would not interfere with any body of water since it consists on the re-organizing of parcels and no development is being proposed. Should there be any development in the future, it shall be subject for review by ICPDS and all applicable County agencies. Less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Conflict with any local policies or ordinance protecting biological resource, such as a tree preservation policy or ordinance? e) The proposed subdivision does not conflict with any local policies or ordinances protecting biological resources; therefore, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? f) According to the Imperial County General Plan's Conservation and Open Space Element, the project is not within a designated sensitive habitat nor an agency-designated habitat area; therefore, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

V. **CULTURAL RESOURCES** *Would the project:*

a) Cause a substantial adverse change in the significance of a historical resource pursuant to §15064.5? a) A Sacred Lands search was requested from the Native American Heritage Commission (NAHC) and a response came back with negative results. A list of tribes was provided for us to contact, and efforts were made to reach them via phone, email and mail. There were two comments received, one stating that they did not wish to comment on the project and the other one was concerning ground moving activities, and since none are being proposed, no actions are required from the applicant. Should any development be proposed in the future, an adequate buffer zone shall be required to protect cultural resources, if found. The project site is not within or near any "Known Areas of Native American Cultural Sensitivity" as per Imperial County General Plan's Conservation and Open Space Element; therefore, less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5? b) As previously stated, it was found that the site location is not in or near any "Known Areas of Native American Cultural Sensitivity", nor within any Tribal Lands area according to the Tribal Lands in U. S. Environmental Protection Agency Region 9 Map⁵; therefore, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Disturb any human remains, including those interred outside of dedicated cemeteries? c) There are no known cemeteries on or surrounding the project site. Should the property be developed in the future, the applicant shall show compliance with California Health and Safety Code §7050.5, CEQA §15064.5, and California Public Resources Code §5097.98. Less than significant impacts are expected to occur.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

VI. **ENERGY** *Would the project:*

a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

⁵ Tribal Lands in U. S. Environmental Protection Agency Region 9 Map

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--	--------------------------------------	--	-------------------------------------	----------------

resources, during project construction or operation?

a) No consumption of energy is anticipated for this proposed subdivision. No impacts are expected.

- b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?

b) The project does not have any energy components in its scope of work; therefore, no impacts are expected to occur.

VII. GEOLOGY AND SOILS *Would the project:*

- a) Directly or indirectly cause potential substantial adverse effects, including risk of loss, injury, or death involving:

a) According to the Department of Conservation's Geological Survey Maps⁶, the project site is not in a fault zone and no development is being proposed; therefore, no impacts are expected. Since Imperial County is within a seismic zone, future development, if any, would be subject to the latest and strictest building codes and would be subject to ICPDS permit review and approval.

- 1) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42?

1) As previously mentioned, the project is not located in a fault zone and the scope of work does not include any structures nor earthmoving activities; therefore, no impacts are expected.

- 2) Strong Seismic ground shaking?

2) The California Department of Conservation Regulatory Map show that the parcel is not within a seismic hazard zone and no development is being proposed; therefore, no impacts are expected.

- 3) Seismic-related ground failure, including liquefaction and seiche/tsunami?

3) Even though the project site is adjacent to a body of water (Dixie Drain 4), less than significant impacts are expected regarding ground failure, liquefaction and/or seiche/tsunami since no physical development is included in the scope of work. Future development, if any, is subject to County agencies' review and approval.

- 4) Landslides?

4) The site is not located within a landslide hazard zone; therefore, no impacts are expected.

- b) Result in substantial soil erosion or the loss of topsoil?

b) The proposed project does not include any earthmoving activities that could cause soil erosion nor loss of topsoil. Should any future development occur, it shall be done in accordance with local and state standards; doing so will bring potential impacts to less than significant levels.

- c) Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project, and potentially result in on- or off-site landslides, lateral spreading, subsidence, liquefaction or collapse?

c) Since no earthmoving activities are expected, less than significant impacts are expected to occur regarding unstable soil.

- d) Be located on expansive soil, as defined in the latest Uniform Building Code, creating substantial direct or indirect risk to life or property?

d) The proposed subdivision will not cause physical changes in the environment. The applicant shall confirm with ICPDS Building Division Manager whether a Soils Report will be required prior to future development plans, if any. Compliance with County agencies' requirements will bring project impacts to less than significant levels.

- e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste

⁶ Department of Conservation Regulatory Maps

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
water?				
e) No septic tanks or other alternative wastewater disposal systems are being proposed; therefore, no impacts are expected.				
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) No earthmoving activities are being proposed; therefore, no impacts are expected.				

VIII. **GREENHOUSE GAS EMISSION** *Would the project:*

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| a) The proposed project would not generate an increase in greenhouse gas emissions since the existing uses (residential and agricultural) are to remain; therefore, less than significant impacts are expected. | | | | |
| b) Conflict with an applicable plan or policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Since there would be no physical changes to the property, no emissions will be generated as a result of the land re-subdivision. No impacts would be expected. | | | | |

IX. **HAZARDS AND HAZARDOUS MATERIALS** *Would the project:*

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| a) The proposed project does not include any handling of hazardous materials and would therefore, cause no impacts or hazards to the public or the environment. | | | | |
| b) Create a significant hazard to the public or the environment through reasonable foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) As previously mentioned, the project will not use or release any hazardous materials; therefore, no impacts are expected. | | | | |
| c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) No hazardous materials are being proposed and the closest school is located approximately 4.15 miles northeast of the project site; therefore, no impacts are expected. | | | | |
| d) Be located on a site, which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Government Code Section 65962.5 requires the Department of Toxic Substances Control (DTSC) the DTSC EnviroStor Database⁷ to compile and update a list of hazardous waste and substances sites. After review, it was found that the project is not located under a listed hazardous and substances site nor is within a mile of such a site; therefore, no impacts are expected. | | | | |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) The project site is not located near a public airport or a known private airport; therefore, no impacts are expected to occur. | | | | |

⁷ EnviroStor Database

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? f) The proposed panhandle to create access to the existing house would not interfere with an emergency evacuation plan, on the contrary, it would aid any public service provider in reaching the structure through a County maintained road, whereas Del Sur Avenue, which is the road the house is currently abutting, is not maintained by the County. Less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires? g) According to the California Department of Forestry and Fire Protection "Fire and Resource Assessment Program Map"⁸ for Imperial County, the project site is not within a fire hazard zone; therefore, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

X. **HYDROLOGY AND WATER QUALITY** *Would the project:*

a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality? a) The project does not include water discharge and will not degrade surface or ground water quality since no development is being proposed. Less than significant impacts are expected regarding water quality.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin? b) No groundwater will be disturbed by the proposed re-subdivision as it is a minor subdivision of land and no development is being proposed; therefore, less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would: c) As previously mentioned, the application does not include any physical development, nor any structures that could affect the drainage of the site. As per Public Works Department (PWD)'s comment letter, a Drainage letter will be required. Compliance with the submittal of the Drainage letter, subject to PWD's approval would cause for less than significant impacts to occur.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(i) result in substantial erosion or siltation on- or off-site; (i) Since no physical changes are being proposed, no impacts to erosion are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(ii) substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or offsite; (ii) No development is being proposed at the time. Future development, if any, will be subject for review to assure that all drainage flows onsite to avoid surface runoff. Less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or; (iii) No runoff is anticipated since the project consists of a minor subdivision of parcels and no structures are being proposed. The existing uses (house and farmland) are to remain. Less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(iv) impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

⁸ FRAP Fire Hazard Severity Zones

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--	--------------------------------------	--	-------------------------------------	----------------

(iv) No impacts are expected regarding flood flow impediments since there is no development being proposed. No impacts are expected.

- d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?

d) According to the California Emergency Management Agency and the Department of Conservation⁹, the project site is not within a Tsunami Inundation Area for Emergency Planning; therefore, no impacts are expected.

- e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?

e) The proposed re-subdivision of parcels would not affect any plan related to water quality nor groundwater management since no physical development is being proposed; therefore, less than significant impacts are expected.

XI. **LAND USE AND PLANNING** *Would the project:*

- a) Physically divide an established community?
a) The project site is not within any established community; therefore, no impacts are expected.

- b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?

b) The approval of the proposed re-subdivision is not expected to cause any impacts to the environment since there are no structures being proposed and it would not conflict with any plans or policies. No impacts are expected.

XII. **MINERAL RESOURCES** *Would the project:*

- a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

a) The proposed subdivision will not cause any physical changes to the environment. In addition, the project site is not within an area identified with mineral resources per Imperial County Conservation and Open Space Element, Figure 8. No impacts are expected.

- b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?

b) The project site is not within an area of identified mineral resources and since no earthmoving activities are anticipated, no impacts are expected.

XIII. **NOISE** *Would the project result in:*

- a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?

a) The separation of farmland from the existing house would not cause for any type of noise; therefore, no impacts are expected.

- b) Generation of excessive groundborne vibration or groundborne noise levels?

b) No groundome vibration or noise levels are expected due to the re-subdivision of parcels; therefore, no impacts are expected.

- c) For a project located within the vicinity of a private airstrip or an airport land use plan or where such a plan has not been

⁹ Department of Conservation Tsunami Inundation Maps

Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--------------------------------------	--	-------------------------------------	----------------

adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?

c) The project site is not within two miles of a public airport or a public use airport. In addition, the project would not expose people to excessive noise levels since no development is being proposed. The project would not create additional noise other than what the existing farmland would generate noise from their daily operations. Less than significant impacts are expected.

XIV. POPULATION AND HOUSING *Would the project:*

a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and business) or indirectly (for example, through extension of roads or other infrastructure)?

a) The project consists of re-organizing nine (9) parcels to end up with two parcels, one with the existing house and the rest of it for farmland. The property owners agree to convey and surrender development rights to the County since one of the parcels is being proposed below the minimum acreage allowed on an A-2 (General Agriculture) lot. No population growth is expected. Less than significant impacts are expected to occur.

b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?

b) The proposed subdivision does not include any future development or type of work that would cause for displacement of people; therefore, no impacts are expected.

XV. PUBLIC SERVICES

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

a) Since no physical activities are anticipated and the existing uses will remain, less than significant impacts are expected.

1) Fire Protection?

1) The re-subdivision of parcels would not trigger an increase in fire protection services. The existing uses are to remain as they are. No impacts regarding an increase in fire protection services are expected.

2) Police Protection?

2) The proposed re-organizing of parcels would not cause for an increase in police protection, other than what would be expected to serve the existing house and farmland; therefore, less than significant impacts are expected.

3) Schools?

3) The nearest school is approximately 4.15 miles northeast of the site. No impacts are expected since the re-subdivision would not increase population growth.

4) Parks?

4) The nearest park is located about a quarter mile to the west of the site, but no activities related to parks are included in the scope of work; therefore, no impacts are being expected.

5) Other Public Facilities?

5) The proposed project does not include any development or activities that might increase the need for alteration of public facilities services; therefore, no impacts are being expected.

Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
--------------------------------------	--	-------------------------------------	----------------

XVI. RECREATION

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Would the project increase the use of the existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?
a) There are no recreational facilities within the vicinity of the project. Since no new residential units are being proposed, an increase in the use of the park is not expected; therefore, no impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse effect on the environment?
b) No recreational facilities are being included in the scope of work for this project nor are needed as a result of the project approval; therefore, no impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

XVII. TRANSPORTATION *Would the project:*

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a) Conflict with a program plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?
a) The proposed re-subdivision is not expected to conflict with the Imperial County General Plan's Circulation and Scenic Highways Element and/or any applicable plan, ordinance or policy related to transportation since no activities are being proposed to cause the need for increase in traffic; therefore, less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| b) Would the project conflict or be inconsistent with the CEQA Guidelines section 15064.3, subdivision (b)?
b) The referenced section talks about the appropriate measure of transportation impacts¹⁰; however, since no development is being proposed, there would not be any new "vehicle miles traveled" to account for on this project. Less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| c) Substantially increases hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?
c) The proposed project does not have any design features that could cause concern regarding traffic; therefore, no impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Result in inadequate emergency access?
d) In order to access the nearest County maintained road, which is Jeffrey Road, a panhandle is required to reach the proposed parcel with the existing house. Both proposed parcels face Jeffrey Road as their access points and are not interfering with one another nor are impeding any emergency access; therefore, less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

XVIII. TRIBAL CULTURAL RESOURCES

- | | | | | |
|---|--------------------------|--------------------------|-------------------------------------|--------------------------|
| a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place or object with cultural value to a California Native American tribe, and that is:
a) According to the General Plan's Conservation and Open Space Element, Figure 6, the project site is not with any Native American Cultural Sensitivity Area. The Native American Heritage Commission (NAHC) was contacted regarding this project and a Sacred Files Search was requested and came back with negative results. A list of tribes was provided for us to contact and efforts to reach out to them included phone, mail and email. No comment that could affect the project was received; therefore, less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|---|--------------------------|--------------------------|-------------------------------------|--------------------------|

¹⁰ Section 15064.3 Determining the Significance of Transportation Impacts

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
(i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as define in Public Resources Code Section 5020.1(k), or (i) The proposed site was not listed under the California Historical Resources in County of Imperial¹¹ nor seems to be eligible under Public Resources Code Section 21074 or 5020.1 (k); therefore, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth is subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American Tribe. (ii) The property has been previously disturbed through the residential and agricultural uses, and there appears to be no evidence of historical resources on the property. In addition, no earthmoving activities are being proposed; therefore, less than significant impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

XIX. UTILITIES AND SERVICE SYSTEMS *Would the project:*

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or stormwater drainage, electric power, natural gas, or telecommunications facilities, the construction of which could cause significant environmental effects?
a) The proposed re-subdivision would not cause physical changes in the environment and it is not expected to impact utilities nor service systems by separating the existing house from farmland. Less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| b) Have sufficient water supplies available to serve the project from existing and reasonably foreseeable future development during normal, dry and multiple dry years?
b) The project will not increase the need for additional water to be extracted. The existing uses will remain as they are, which are farmland and residential. Less than significant impacts are expected regarding water availability. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| c) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?
c) The proposed re-subdivision of land would not require any additional wastewater to be treated. The existing uses (house and farmland) are to remain unchanged, and the amount of wastewater deriving from those uses would not be impacted by the project; therefore, less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?
d) Solid waste is not expected to be generated due to the proposed subdivision since no activities are being proposed. Less than significant impacts are expected. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?
e) No impacts regarding federal, state and local management of solid waste are expected because of this subdivision. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

XX. WILDFIRE

If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the Project:

¹¹ Office of Historic Preservation

	Potentially Significant Impact (PSI)	Potentially Significant Unless Mitigation Incorporated (PSUMI)	Less Than Significant Impact (LTSI)	No Impact (NI)
a) Substantially impair an adopted emergency response plan or emergency evacuation plan? a) The proposed project would not impair any emergency response plans since it consist of a minor land subdivision and no physical development is being proposed. No impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire? b) The project site is not located near or within any wildfire or fire hazard severity zone. No impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment? c) No infrastructure will be added to the project site, and since the area is not within a fire zone, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes? d) Since no activities are being proposed, and the area is not within a wildfire area, no impacts are expected.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

SECTION 3
III. MANDATORY FINDINGS OF SIGNIFICANCE

The following are Mandatory Findings of Significance in accordance with Section 15065 of the CEQA Guidelines.

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| <p>a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal, eliminate tribal cultural resources or eliminate important examples of the major periods of California history or prehistory?</p> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| <p>b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)</p> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| <p>c) Does the project have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly?</p> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

VI. NEGATIVE DECLARATION – County of Imperial

The following Negative Declaration is being circulated for public review in accordance with the California Environmental Quality Act Section 21091 and 21092 of the Public Resources Code.

Project Name: Parcel Map (PM#02486) & Variance (V#20-0001) - Initial Study (IS#20-0017)

Project Applicant: Tyler and Jennifer Sutter

Project Location: The project site ("site") is located at 1803 Jeffrey Road, in Seeley, CA, being approximately 4 miles southwest of Seeley. The project area is between Jeffrey Road to the east and Foxglove Street to the west, and between Del Sur Avenue and a parcel dedicated to a railroad, north of Park Avenue South. The project site consists of nine (9) parcels, identified as Assessor's Parcel Numbers (APN) 051-110-005-000, 051-110-002-000, 051-10-001-000, 051-093-003-000, 051-093-001-000, 051-093-005-000, 052-092-010-000, 052-092-014-000 and 051-020-024-000. See Exhibits "A" and "B" for location maps.

Description of Project: The property owners have submitted a minor subdivision application to separate an existing house from farmland. The project site consists of nine (9) parcels, totaling an area of approximately +/-142.4 acres. The intent is to re-subdivide the area into two (2) parcels: Parcel 1 with +/-2.69 acres and Parcel 1 with +/-139.71 acres, with the existing residential and agricultural uses, respectively. No changes to the existing land uses are proposed.

The proposed Variance request is to exceed the panhandle dimension requirements pursuant to Title 9 Division 8 Chapter 4, Section 90804.02 M, for the proposed Parcel 1 to have access to County maintained road.

VII. FINDINGS

This is to advise that the County of Imperial, acting as the lead agency, has conducted an Initial Study to determine if the project may have a significant effect on the environment and is proposing this Negative Declaration based upon the following findings:

The Initial Study shows that there is no substantial evidence that the project may have a significant effect on the environment and a NEGATIVE DECLARATION will be prepared.

The Initial Study identifies potentially significant effects but:

- (1) Proposals made or agreed to by the applicant before this proposed Mitigated Negative Declaration was released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur.
- (2) There is no substantial evidence before the agency that the project may have a significant effect on the environment.
- (3) Mitigation measures are required to ensure all potentially significant impacts are reduced to levels of insignificance.

A NEGATIVE DECLARATION will be prepared.

If adopted, the Negative Declaration means that an Environmental Impact Report will not be required. Reasons to support this finding are included in the attached Initial Study. The project file and all related documents are available for review at the County of Imperial, Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 (442) 265-1736.

NOTICE

The public is invited to comment on the proposed Negative Declaration during the review period.

10-30-2020 Jim Minnick
Date of Determination Jim Minnick, Director of Planning & Development Services

The Applicant hereby acknowledges and accepts the results of the Environmental Evaluation Committee (EEC) and hereby agrees to implement all Mitigation Measures, if applicable, as outlined in the MMRP.

Jim Minnick 10-30-2020
Applicant Signature Date

Project ID: Variance (V) #20-0001 Tyler and Jennifer Sutter

Project Location: APN 051-110-005-000, et al., 1803 Jeffrey Road, El Centro, CA

Project Description: On July 28, 2020 ICPDS received a Parcel Map application (PM #02486) to separate an existing house from farmland. Since one of the proposed parcels was not facing a County maintained road, Variance (V#20-0001) was submitted to be able to exceed the parhandle dimension requirements pursuant to Title 9 Division 8 Chapter 4, Section 90804.02 M, for the proposed Parcel 1 to have access to a County maintained road, which is one of the requirements to process a Parcel Map.

Applicant: Taylor Preece, P.L.S, Precision Engineering & Surveying

SUBJECT: Variance 20-0001 regarding Parcel Map (PM) 02486—Tyler and Jennifer Sutter

Dear Mr. Minnick:

The Imperial County Air Pollution Control District ("Air District") thanks you for the opportunity to review Variance 20-0001 regarding Parcel Map (PM) 02486 for Tyler and Jennifer Sutter at 1803 Jeffrey Road in El Centro, California (also identified as Assessor Parcel Number 051-110-005-000, et. al. The applicant intends to separate an existing house from farmland by re-subdividing the area into 2 (two) parcels. The proposed parcel sizes following the split will be 1.79 acres and 140.46 acres, respectively. A variance is necessary for Parcel 1 because access to a County maintained road is required for parcel map approval. The Air District understands that no other specifics of the original parcel map request have changed other than the required variance.

While the Air District has no comments in regards to the parcel map and variance, it is noted that the proposed parcel map will have 33 separate blocks (parcels). Therefore, the Air District is requesting a copy of the Final (Recorded) Tentative Map.

The applicant should be aware that any future (residential) development will be required to adhere to the Air District's Rules and Regulations. Those can be found online at the Air District's website: <https://apcd.imperialcounty.org>. Click on Rules and Regulations on the top of the page. The Air District's offices can be reached at (442) 265-1800.

SUBJECT: Parcel Map No. 02486

Dear Ms. Robinson:

On August 6, 2020, the Imperial Irrigation District received from the Imperial County Planning & Development Services Dept. a request for agency comments on Parcel Map no. 02486. The applicant proposes to re-subdivide 9 parcels and 33 lots into two parcels: a 1.79-acre parcel and a 140.46-acre parcel for the purpose of separating an existing house from the neighboring farmland. The affected land is located at Jeffreyon Road in El Centro, California.

The Imperial Irrigation District has reviewed the information and has the following comments:

1. The applicant should be advised to establish a point of water delivery and drainage discharge for each parcel. For additional information on water service, the applicant should call and coordinate with IID's South End Division Office at (760) 482-9800.

Should you have any questions, please do not hesitate to contact me at 760-482-3609 or at dvargas@iid.com. Thank you for the opportunity to comment on this matter.

Respectfully,

Donald Vargas
Compliance Administrator II

Mr. Jim Minnick, Director
Planning & Development Services Department
801 Main Street
El Centro, CA 92243

Attention: Diana Robinson, Planner III

SUBJECT: Parcel Map 2486 Taylor Preece;
Located on 1801 Jeffrey Road, El Centro, CA
APN 051-110-005-000

Dear Mr. Minnick:

This letter is in response to your submittal received on August 6, 2020 for the above-mentioned project. The applicant intends to separate an existing house from farmland. The project site consists of nine (9) parcels and thirty-three (33) lots. The intent is to re-subdivide the area into two (2) parcels with the existing residential and agricultural uses.

Department staff has reviewed the package information and the following comments:

1. Whenever Parcel Map are proposed. We normally require a Grading and Drainage Study/Plan be provided. In this case, since no new development is being proposed a Drainage Letter that takes into account the prevention of sedimentation of damage to off-site properties and county road right-of-way(s) from storm run-off may be accepted in lieu of a Grading Plan. However, should any future development occur on any of the properties, a Drainage and Grading Study/Plan shall be required by this Department

Each parcel created or affected by this project shall abut a maintained road and/or have legal and physical access to a public road before the project documents are recorded.

2. An encroachment permit shall be secured from this Department for any and all new, altered or unauthorized existing driveway(s) to access the properties through surrounding roads (Per Imperial County Code of Ordinances, Chapter 12.12 - Excavations on or Near a Public Road).
3. All parcels created by the map shall front a publicly maintained road. The road frontage shall be a minimum of 40feet in width.
4. Per the Circulation Element of the General Plan, Jeffrey Road is classified as a minor collector, being 70 feet in width, lying 35 feet on each side of the existing centerline. Adequate right-of-way shall be dedicated to satisfy the Circulation Element.
5. The parcel map shall be based upon a field survey.

6. Any public streets, roads, or easement to be left in effect shall be clearly delineated on the parcel map. Any public street, road, or easement intended to be abandoned shall be noted on the map by reference to the recording data or other official record and certificate to on the map by the County Surveyor.

Informative at time of development:

The following items are for informational purposes only. Applicant is responsible to determine if the enclosed items affect the subject project.

- As this project proceeds through the planning and the approval process, additional comments and/or requirements may apply as more information is received.
-
- All solid and hazardous waste shall be disposed of in approved solid waste disposal sites in accordance with existing County, State and Federal regulations (Per Imperial County Code of Ordinances, Chapter 8.72).
- The project may require a National Pollutant Discharge Elimination System (NPDES) permit and Notice of Intent (NOI) from the Regional Water Quality Control Board (RWQCB) prior county approval of onsite grading plan (40 CFR 122.28).
- As this project proceeds through the planning and the approval process, additional comments and/or requirements may apply as more information is received.
- A Transportation Permit may be required from road agency(s) having jurisdiction over the haul route(s) for any hauls of heavy equipment and/or large vehicles which impose greater than legal loads on riding surfaces, including bridges. (Per Imperial County Code of Ordinances, Chapter 10.12 – Overweight Vehicles and Loads).

Respectfully,

John A. Gay, PE
Director of Public Works

Dear Ms. Robinson:

SECRETARY
Merri Lopez-Keller
Luiseño

A record search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed for the information you have submitted for the above referenced project. The results were negative. However, the absence of specific site information in the SLF does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

PARLIAMENTARIAN
Russell Attebery
Karuk

Attached is a list of Native American tribes who may also have knowledge of cultural resources in the project area. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated; if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call or email to ensure that the project information has been received.

COMMISSIONER
Marshall McKay
Wintun

If you receive notification of change of addresses and phone numbers from tribes, please notify me. With your assistance, we can assure that our lists contain current information.

COMMISSIONER
William Mungary
Palute/White Mountain
Apache

If you have any questions or need additional information, please contact me at my email address: steven.quinn@nahc.ca.gov.

PLANNING & DEVELOPMENT SERVICES

SUBJECT: Parcel Map (PM) 02486—Taylor Preece Engineering & Surveying

Dear Mr. Minnick:

The Imperial County Air Pollution Control District ("Air District") thanks you for the opportunity to review the application regarding Parcel Map (PM) 02486 for Tyler Sutter at 1803 Jeffrey Road in El Centro, California (also identified as Assessor Parcel Number 051-110-005-000, et. al. The applicant intends to separate an existing house from farmland by re-subdividing the area into 2 (two) parcels. The proposed parcel sizes following the split will be 1.79 acres and 140.46 acres, respectively.

Upon review, the Air District has no comment at this time.

The Air District's rule book can be accessed via the internet at <https://apcd.imperialcounty.org>. Click on "Rules & Regulations" on the top of the page. Should you have questions, please call our office at (442) 265-1800.

Sincerely,

Imperial County

NOTICE TO APPLICANT

SUBJECT: PAYMENT OF FEES

Dear Applicant:

Pursuant to County Codified Ordinance Division 9, Chapter 1, Section 90901.02, all Land Use Applications must be submitted with their appropriate application fee. Failure to comply will cause application to be rejected.

Please note that once the Department application is received and accepted, a "time track" billing will commence immediately. Therefore, should you decide to cancel or withdraw your project at any time, the amount of time incurred against your project will be billed and deducted from your payment. As a consequence, if you request a refund pursuant to County Ordinance, your refund, if any, will be the actual amount paid minus all costs incurred against the project.

Please note there will be no exceptions to this policy. Thank you for your attention.

Sincerely yours,

Jim Minnick, Director
Planning & Development Services

IMPERIAL COUNTY PLANNING & DEVELOPMENT SERVICES GENERAL INDEMNIFICATION AGREEMENT

As part of this application, applicant and real party in interest, if different, agree to defend, indemnify, hold harmless, and release the County of Imperial ("County"), its agents, officers, attorneys, and employees (including consultants) from any claim, action, or proceeding brought against any of them, the purpose of which is to attack, set aside, void, or annul the approval of this application or adoption of the environmental document which accompanies it. This indemnification obligation shall include, but not be limited to, damages, costs, expenses, attorney fees, or expert witness fees that may be asserted by any person or entity, including the applicant, arising out of or in connection with the approval of this application, whether or not there is concurrent negligence on the part of the County, its agents, officers, attorneys, or employees (including consultants).

If any claim, action, or proceeding is brought against the County, its agents, officers, attorneys, or employees (including consultants), to attack, set aside, void, or annul the approval of the application or adoption of the environmental document which accompanies it, then the following procedures shall apply:

1. The Planning Director shall promptly notify the County Board of Supervisors of any claim, action or proceeding brought by an applicant challenging the County's action. The County, its agents, attorneys and employees (including consultants) shall fully cooperate in the defense of that action.
2. The County shall have the final determination on how to best defend the case and will consult with applicant regularly regarding status and the plan for defense. The County will also consult and discuss with applicant the counsel to be used by County to defend it, either with in-house counsel, or by retaining outside counsel provided that the County shall have the final decision on the counsel retained to defend it. Applicant shall be fully responsible for all costs incurred. Applicant shall be entitled to provide his or her own counsel to defend the case, and said independent counsel shall work with County Counsel to provide a joint defense.

1st Installment: \$6,607.83 Paid
2nd Installment: \$6,607.83 Paid
Land: \$1,139,575.00
Improvements: \$17,579.00

Affects Parcel 7

13. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

14. Taxes and assessments levied by the Imperial Irrigation District, if any.

15. Water rights, claims or title to water, whether or not disclosed by the public records.

The following items affect Parcel 1:

16. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial County
Purpose: Road
Recording No.: in book 59, page 331 of Deeds
Affects: Over the East 50 feet of the Southeast quarter of said Section 7.

SCHEDULE B
(continued)

17. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Holton Power Company
Purpose: Power Line
Recording No.: in book 85, page 261 of Deeds
Affects: Over a strip of land 5 feet wide, parallel with and adjoining the San Diego and Arizona Railroad right of way, and on the South side of said right of way across a portion of said Section 7.

18. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Holton Power Company
Purpose: For power and telephone lines and appurtenances, and for pipelines for the transmission and distribution of gas for heat, light, power, etc.
Recording No.: in book 85, page 271 of Deeds
Affects: Over a strip of land 5 feet wide, parallel with and adjoining the San Diego and Arizona Railroad right of way on the South.

19. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Water Company No. 12
Purpose: To construct and maintain a ditch.
Recording No.: in book 162, page 483 of Deeds
Affects: Over the South 15 feet

20. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Irrigation District
Purpose: Drain Canal
Recording No.: in book 135, page 91 of Official Records
Affects: Approximately 75 feet wide along the South line.

21. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: The Southern Sierras Power Company
Purpose: Pole Lines
Recording No.: in book 312, page 149 of Official Records
Affects: The center line of which begins on the South line of the San Diego and Arizona Railroad right of way, 51 feet West of the East line of said Parcel 1, and extends Southerly 200 feet.

22. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Irrigation District
Purpose: Pole Lines
Recording No.: in book 526, page 584 of Official Records
Affects: Along a line parallel with and one foot South of the South line of U.S. Highway 80.

SCHEDULE B
(continued)

23. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in an instrument,
- Entitled: Easement Deed by Court Order in Settlement of Landowner Action
 Court: United States District Court for the Northern District of California San Francisco Division
 In favor of: Sprint Communications Company, L.P., Qwest Communications Company, LLC, Level 3 Communications, LLC and WiITel Communications, Inc.
 Purpose: A perpetual easement and right of way and right to place, lay, bury, construct, install, operate, repair, maintain (including aerial patrol), renew, rebuild, replace, upgrade, expand, relocate and remove fiber optic cables, copper cables, coaxial cables or other cables through which voice, data, video or other signals are transmitted, conduits, inner ducts, hand holes, splice vaults, poles, optical or electronic equipment, regenerator huts, marker posts or signs, and other related facilities appropriate for installation, use, or maintenance of such cables (collectively, the "Telecommunications Cable System").
 Recording Date: January 30, 2014
 Recording No.: 2014001714 of Official Records
 Affects: Reference is made to said document for full particulars.
24. Easements for roads, canals, laterals, drains and gates as disclosed by: Assessor's Plat (Book 51- Page 02)
- The following items affect Parcels 2, 4 and 5:**
25. Reservation of a 20 foot strip off the South side of Blocks 55, 57, 59, 69, 71, 73, 75, 77, 79, 81 and 83 for a lateral, as shown on map of Dixieland.
26. Restrictions and reservations contained in deeds of record covering Blocks 45, 51, 53, 55 and 57 of Dixieland, which provides that no intoxicating liquors shall be manufactured or sold on the premises and reserve the right to use streets and alleys adjoining said premises for constructing and maintaining ditches and pipelines and erecting poles and stringing and maintaining wires thereon.
27. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;
- Purpose: For irrigation, waste or drainage canals, or power or telephone lines and reserving the right of ingress and egress thereto.
 Recording No.: in book 609, page 565 of Official Records
 Affects: Blocks 45, 47, 49, 51, 53, 55, 57, 59, 69, 71, 73, 75, 77, 79, 81 and 83
28. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;
- Purpose: For irrigation, waste or drainage canals, or power or telephone lines.
 Recording No.: in book 606, page 230 of Official Records
 Affects: Blocks 25, 27, 29, 31, 33 and 35

SCHEDULE B
(continued)

29. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in an instrument,
- Entitled: Easement Deed by Court Order in Settlement of Landowner Action
 Court: United States District Court for the Northern District of California San Francisco Division
 In favor of: Sprint Communications Company, L.P., Qwest Communications Company, LLC, Level 3 Communications, LLC and WiTel Communications, Inc.
 Purpose: A perpetual easement and right of way and right to place, lay, bury, construct, install, operate, repair, maintain (including aerial patrol), renew, rebuild, replace, upgrade, expand, relocate and remove fiber optic cables, copper cables, coaxial cables or other cables through which voice, data, video or other signals are transmitted, conduits, inner ducts, hand holes, splice vaults, poles, optical or electronic equipment, regenerator huts, marker posts or signs, and other related facilities appropriate for installation, use, or maintenance of such cables (collectively, the "Telecommunications Cable System").
 Recording Date: January 30, 2014
 Recording No.: 2014001714 of Official Records
 Affects: Reference is made to said document for full particulars.
- The following items affect Parcel 3:**
30. A strip of land for laterals over and across the South 20 feet of Blocks 41, 43, 61, 63, 65, 67, 85 and 87, as shown on the map of the Townsite of Dixieland.
31. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Holton Power Company
 Purpose: Construct, use, occupy, operate, maintain, replace and remove wires or cables for the transmission and distribution of electricity for telegraphic and telephonic communication upon a single line or poles or other supporting structures, also the right to lay, replace, maintain and operate a line or lines for the transmission and distribution of gas for heat, light, power and all other useful purposes.
 Recording Date: April 20, 1914
 Recording No.: in book 85, page 273 of Official Records
 Affects: Said right of way shall be located over and across a strip of land 5 feet in width parallel with and adjoining the South right of way line of the San Diego and Arizona Railroad across herein described Blocks 37 and 39.
32. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Irrigation District
 Purpose: For a drainage ditch.
 Recording Date: October 1, 1926
 Recording No.: in book 135, page 79 of Official Records
 Affects: 85 feet in width over and across herein described Block 39.
33. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Irrigation District
 Purpose: For a drainage ditch.
 Recording Date: October 21, 1926
 Recording No.: in book 185, page 184 of Official Records
 Affects: 85 feet in width over and across herein described Blocks 41 and 87, said right of way to lie parallel with and adjacent to the West line of said Blocks.

SCHEDULE B

(continued)

34. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;
- Purpose: For irrigation, waste or drainage canals, or power or telephone lines, and the right to construct, operate and maintain power and telephone lines.
- Recording Date: September 17, 1931
- Recording No.: in book 317, page 451 of Official Records
- Affects: Affects herein described Block 43.
35. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;
- Purpose: For irrigation, waste or drainage canals, or power or telephone lines and the right to construct, operate and maintain power and telephone lines.
- Recording Date: May 22, 1952
- Recording No.: in book 838, page 535 of Official Records
- Affects: Herein described Blocks 37, 39, 41, 43, 61, 63, 85 and 87.
36. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Irrigation District
- Purpose: For the construction, maintenance and/or use of a canal, telephone and/or electric power line or lines, as now exist or as may hereafter be constructed, enlarged or otherwise changed.
- Recording Date: May 27, 1952
- Recording No.: in book 838, page 673 of Official Records
- Affects: The route of said right of way is as follows: Over and across those portions of Blocks 37, 39, 41, 43, 63, 67, 85 and 87, herein described, lying West of a line which is parallel with and 210 feet East of the center line of Foxglove Canal as said canal was located on May 19, 1952.
37. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Irrigation District
- Purpose: To construct, operate and maintain a power line or lines, overhead and/or underground and necessary appurtenances.
- Recording Date: June 22, 1961
- Recording No.: in book 1081, page 397 of Official Records
- Affects: Said power line shall be located along a line which is parallel with and 2 feet South of the North line of herein described Blocks 37 and 39.
38. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: George J. Lerno, et al
- Purpose: To construct, operate and maintain a delivery ditch.
- Recording Date: February 28, 1968
- Recording No.: in book 1258, page 503 of Official Records
- Affects: Said right of way shall be located over and across the North 21 feet of herein described Blocks 37 and 39.

SCHEDULE B
(continued)

39. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in an instrument,

Entitled: Easement Deed by Court Order in Settlement of Landowner Action
 Court: United States District Court for the Northern District of California San Francisco Division
 In favor of: Sprint Communications Company, L.P., Qwest Communications Company, LLC, Level 3 Communications, LLC and WiTel Communications, Inc.
 Purpose: A perpetual easement and right of way and right to place, lay, bury, construct, install, operate, repair, maintain (including aerial patrol), renew, rebuild, replace, upgrade, expand, relocate and remove fiber optic cables, copper cables, coaxial cables or other cables through which voice, data, video or other signals are transmitted, conduits, inner ducts, hand holes, splice vaults, poles, optical or electronic equipment, regenerator huts, marker posts or signs, and other related facilities appropriate for installation, use, or maintenance of such cables (collectively, the "Telecommunications Cable System").
 Recording Date: January 30, 2014
 Recording No.: 2014001714 of Official Records
 Affects: Reference is made to said document for full particulars.
 (Affects Blocks 37 and 39 of Parcel 3)

The following items affect Parcel 6:

40. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;

Purpose: For irrigation, waste or drainage canals, or power or telephone lines.
 Recording No.: in book 616, page 242 of Official Records, in book 660, page 326 of Official Records and in book 665, page 554 of Official Records
 Affects: The herein described land.

41. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Water Company No. 12
 Purpose: For a ditch
 Recording No.: in book 162, page 484 of Deeds
 Affects: Over the North 15 feet

42. An Agreement executed by and between J.C. Hess and wife, and the Imperial Irrigation District, relating to a right of way 75 feet wide across the herein described property, recorded August 27, 1926 in book 135, page 45 of Official Records.

43. An Agreement executed by and between Richard M. Sisler and Imperial Irrigation District relating to a right of way 75 feet wide, over the North line of the property herein described, recorded August 27, 1926 in book 135, page 47 of Official Records.

44. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;

Purpose: For an irrigation ditch.
 Recording No.: in book 169, page 309 of Official Records
 Affects: Along the South line.

SCHEDULE B
(continued)

45. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: The Nevada-California Electric Corporation
 Purpose: For power and telephone pole lines.
 Recording No.: in book 508, page 293 of Official Records
 Affects: The center line thereof beginning on the West line of the property herein described, at a point 1300 feet South of the Northwest corner thereof; thence South 87° 25' East, 120 feet.
46. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;
- Purpose: For a power line.
 Recording No.: in book 616, page 242 of Official Records
 Affects: Over and along those portions of the Northwest quarter of the Northwest quarter of said Section 17, being used as public-travelled ways.
47. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Irrigation District
 Purpose: For canal, telephone and power lines.
 Recording No.: in book 623, page 386 of Official Records
 Affects: 25 feet wide, lying adjacent to and on the South side of Dixie No. 4 Drain along the North side of the property herein described, the South boundary thereof being 100 feet South of the center line of said Dixie No. 4 Drain.
48. A right of way along the North side of the property herein described for the Dixie No. 4 Drain, inferred from the last above mentioned deed.
49. Matters contained in that certain document
- Entitled: Agreement
 Dated: November 27, 1962
 Executed by: Imperial Irrigation District, George Lerno, Clemence V. Lerno, Emil Lerno and Shirley Lerno
 Recording Date: November 30, 1962
 Recording No.: 11 in book 1129, page 129 of Official Records
- Reference is hereby made to said document for full particulars.
50. Easements for roads, canals, laterals, drains and gates as disclosed by: Assessor's Plat (Book 51- Page 26)
- The following items affect Parcel 7:**
51. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:
- Granted to: Imperial Water Company No. 12
 Purpose: Conducting and carrying off surplus water from floods or breaking of canals, and for general drainage purposes.
 Recording Date: May 19, 1920
 Recording No.: in book 162, page 485 of Deeds
 Affects: The North 15 feet of the herein described property.

SCHEDULE B

(continued)

52. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Irrigation District
 Purpose: Drainage Ditch
 Recording Date: August 27, 1926
 Recording No.: in book 135, page 25 of Official Records
 Affects: 75 feet wide over the Northerly line of the herein described property.

53. The Forgetmenot Canal, the Forgetmenot Lateral No. 3 and the Dixie No. 4 Drain as conveyed to the Imperial Irrigation District by deed recorded March 24, 1938 in book 484, page 315 of Official Records, to which record reference is hereby made for further particulars.

54. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Irrigation District
 Purpose: For the construction, maintenance and/or use of a concrete lined canal or canals, open and/or underground, telephone and/or electric power line or lines, overhead and/or underground, as now exist or as may hereafter be constructed, enlarged or otherwise change.
 Recording Date: April 23, 1965
 Recording No.: 93 in book 1205, page 959 of Official Records
 Affects: That portion of the East 1/2 of the Northwest 1/4 of Section 17, lying South of a line which is parallel with and 20 feet North of the center line of the concrete lined Forgetmenot Lateral 3 Canal as constructed along the South side of the above described property.

55. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Imperial Irrigation District
 Purpose: For the construction, maintenance and/or use of a concrete lined canal or canals, open and/or underground, telephone and/or electric power line or lines, overhead and/or underground, as now exist or as may hereafter be constructed, enlarged or otherwise changed.
 Recording Date: April 23, 1965
 Recording No.: 93 in book 1205, page 960 of Official Records
 Affects: Reference is made to said document for the full extent and location of said easement.

56. Easements for roads, canals, laterals, drains and gates as disclosed by: Assessor's Plat (Book 51- Page 26)

The following items affect Parcels 1-7, as indicated below:

57. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Entitled: Easement Agreement
 Granted to: Imperial Valley Cheese of California LLC, a California limited liability company
 Purpose: For the purpose of inspecting, maintaining and using underground water and wastewater pipelines, valves, connections, services, systems and devices.
 Recording Date: April 16, 2014
 Recording No.: 2014007423 of Official Records
 Affects: Reference is made to said document for the full extent and location of said easement.
 Affects Parcels 1-5

SCHEDULE B
(continued)

58. A deed of trust to secure an indebtedness in the amount shown below,

Amount: \$815,000.00
 Dated: June 13, 2014
 Trustor/Grantor Tyler Sutter and Jennifer Sutter, husband and wife
 Trustee: Farm Credit Services Southwest, FLCA
 Beneficiary: Farm Credit Services Southwest, FLCA
 Loan No.: 9044736
 Recording Date: June 23, 2014
 Recording No.: 2014011883 of Official Records

Affects Parcels 1-5 and other land

59. A deed of trust to secure an indebtedness in the amount shown below,

Amount: \$210,000.00
 Dated: June 5, 2015
 Trustor/Grantor Tyler Sutter and Jennifer Sutter, husband and wife
 Trustee: Farm Credit Services Southwest, PCA
 Beneficiary: Farm Credit Services Southwest, PCA
 Recording Date: June 17, 2015
 Recording No.: 2015012277 of Official Records

Affects Parcels 1-5 and other land

An additional advance to be secured by said deed of trust, as disclosed by an instrument:

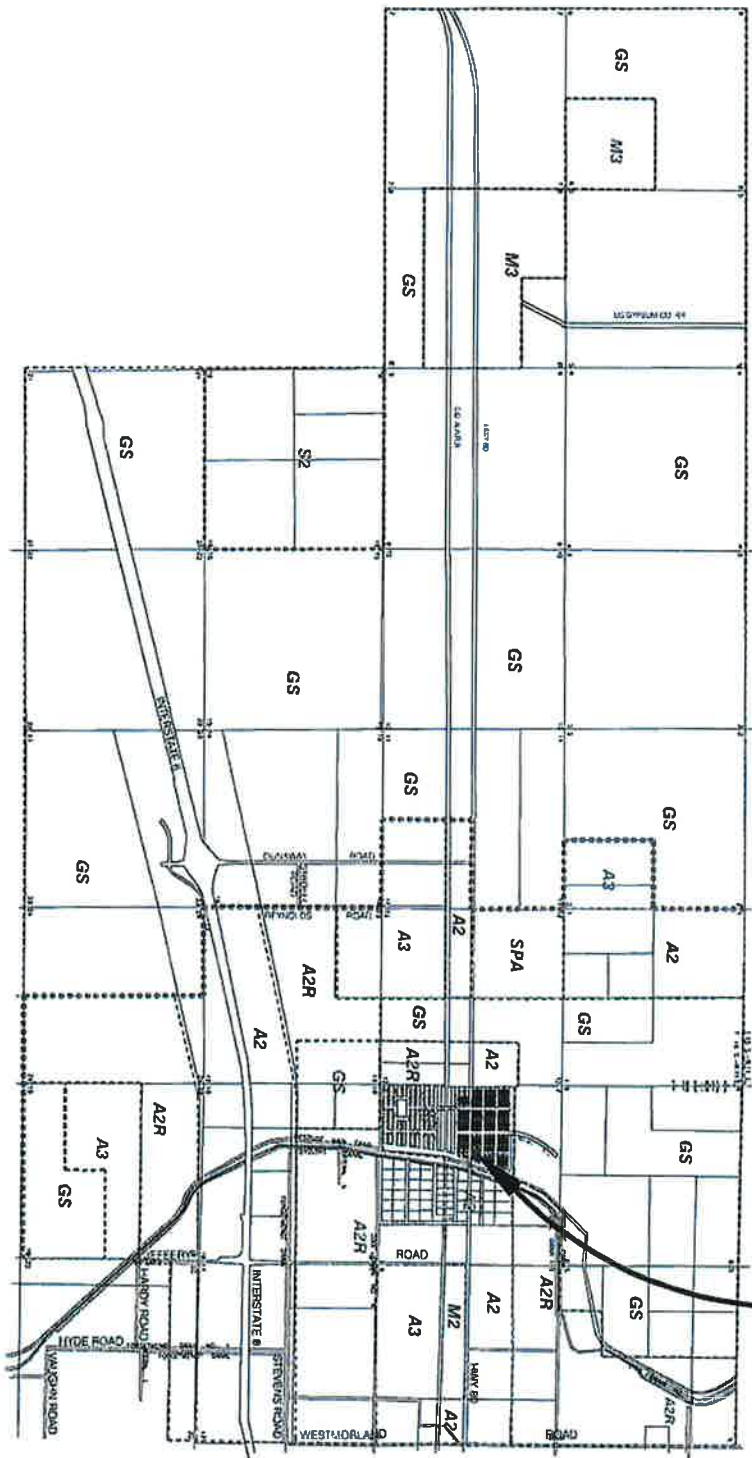

Amount of Advance: \$60,000.00
 Recording Date: June 9, 2017
 Recording No.: 2017012999 of Official Records

60. A deed of trust to secure an indebtedness in the amount shown below,

Amount: \$1,315,000.00
 Dated: June 6, 2014
 Trustor/Grantor Rick Sutter and Karen Sutter, Trustees of the Sutter Living Trust dated June 26, 2006
 Trustee: Farm Credit Services Southwest, FLCA
 Beneficiary: Farm Credit Services Southwest, FLCA
 Loan No.: 9044744
 Recording Date: June 23, 2014
 Recording No.: 2014011884 of Official Records

Affects Parcels 6 and 7 and other land

END OF SCHEDULE B

Responsible Agency:
 Adopted: 2005 Map Correction of Title 9 Division 25 Section 92550.00
 Adopted by M. O. # 17 (h) on May 12, 1998 effective July 1, 1998.

NOTE: Efforts have been made to insure zoning accuracy; however, this map may be revised at any time. Therefore this map is generally accurate, for zoning information only! Neither the County of Imperial nor the Planning/Building Department are responsible for erroneous information or improper use of this map.

NOTES TO USERS

This map is a technical drawing of a map showing the boundaries of the Imperial County Flood Insurance Rate Map (FIRM) for the Imperial County, California, and Incorporated Areas. The map is based on the data provided by the Federal Emergency Management Agency (FEMA) and the National Flood Insurance Program (NFIP). The map is intended to provide information to the public regarding the boundaries of the FIRM and the areas that are subject to flood insurance. The map is not intended to be used for any other purpose, and it is not a guarantee of accuracy. The map is subject to change without notice, and it is recommended that users consult the FEMA website for the most current information. The map is provided as a technical drawing and is not intended to be used for any other purpose. The map is subject to change without notice, and it is recommended that users consult the FEMA website for the most current information. The map is provided as a technical drawing and is not intended to be used for any other purpose.
